WAR DECLARATION

FULL TEXT AS MADE BY OREGON LEGISLATURE,

Some Ancient History (of Fifty Years Ago) Makes Interesting Reading Now—Not All the Provisions of the Act Have Yet Been Carried Out—Veterans Have Not Been Paid Their Claims, Which Are Nevertheless Legal and Also Due Them in Honor.

The full text of the formal declaration of war against the Indians by the territorial legislature of Oregon in 1856, is given below. It is of especial interest in the light of the fact that the claims foreseen and provided for by the act itself have not been paid the surviving veterans, not of course the claims of those veterans who have passed away.

Whereas, by an unprovoked hostile outbreak of all the Indian tribes on the frontiers of Oregon, a general Indian war exists between people of said territory and said Indian tribes; therefore,

Section 1. Be it enacted by the legislative assembly of the territory of Oregon, that for the purpose of enabling the people of said territory to prosecute said war to a speedy and successful termination, the governor be and is hereby authorized to employ the full military force of the territory, to call for and accept the services of any number of volunteers, not exceeding three full regiments who may offer their services as mounted riflemen, to serve six months after they shall have arrived at the place of rendezvous, or to the end of the war, unless sooner discharged.

Sec. 2. Said volunteers shall, as far as practicable, furnish their own arms and clothing, horses and equipments.

Sec. 3. Said volunteers so offering their services shall be accepted by the governor in companies, battallions or squadrons and regiments, whose officers shall be elected and commissioned as prescribed by the laws of said territory.

Sec. 4. Whenever such volunteers are called and received into the service of the territory by virtue of this act, each non-commissioned officer and private shall be entitled to $2 per day and rations, and $2 per day for the use and risk of his horse, except for horses actually killed in action, unavoidably lost or reported unfit for service or turned over to the quartermaster, in which case the owner shall receive the appraised value thereof. And all commissioned officers shall receive the same pay as officers of the same rank in the army of the United States: provided they shall receive the same pay for use and risk of horses as non-commissioned officers.

Sec. 5. This act, so far as the same relates to the pay of volunteers, shall be so constructed as to apply to all who have been in the service of the territory since the commencement of the existing war, and it shall also extend to the services of the ninth regiment of Oregon militia while in actual service in said war.

Sec. 6. This act to take effect and be in force from and after its passage.

Passed the house January 19, 1856.
Passed the council January 24, 1856.

Speaker of the House of Representatives.

President of the Council.

There is nothing so pleasant as that bright, cheerful, at-peace-with-the-world feeling when you sit down to your breakfast. There is nothing so conducive to good work and good results. The healthy man with a healthy mind and body is a better fellow, a better workman, a better citizen than the man or woman who is handicapped by some disability, however slight. A slight disorder of the stomach will derange your body, your thoughts and your disposition. Get away from the morbidness and the blues. Keep your stomach in tune and both your brain and body will respond. Little indiscretions of overeating can be easily corrected and you will be surprised to see how much better man you are. Try a little Kodol For Dyspepsia after your meals. Sold by Tallman & Co.

MAY RAISE SHEEP QUARANTINE.

Utah Stock Now Able to Show a Clean Bill of Health.

An Ogden dispatch says:

If reports are true, the quarantine that has heretofore existed against Utah sheep entering other states, is soon to be raised. It is reported from an authoritative source that the "scabies" heretofore affecting the sheep has been almost totally eradicated, but a few spots remaining in the southern part of the state. The raising of the ban will take effect soon and will mean much to the sheep owners of the state, as it will do away with the necessity of federal inspection of the flocks seeking to enter Idaho or any other surrounding state.

The announcement is received by local sheepmen with much much jubilation, as it will put an end to the controversy and litigation that has been going on between them and the state of Idaho over the admission of their flocks into that state, which has cost Utah sheepowners so many thousands of dollars.

Locating O. R. & N. Track.

Plats were filed in the land office here today locating 20 miles of the O. R. & N. track on the Idaho side of Snake river. HORRIBLE RUNAWAY

THIRTY HORSES HITCHED TO COMBINTD HARVESTER

Twelve Were Killed Outright, Nine Crippled, and the Machine Wrecked Beyond Repair—An Extraordinary Occurrence From Start to Finish, on the Dorman Ranch, Near Ritzville—Incident Caused Loss of $3,000.

Ben E. Hervey, the real estate man, has just returned from a trip to his large ranch near Downs, Wash., and to a Spokesman-Review correspondent tells a thrilling account of the wild runaway of 30 horses with a combined harvester and thresher near Ritzville, Wash., last Tuesday, in which 12 horses were killed, nine crippled and the harvester-thresher was broken into splinters. Altogether Mr. Harvey says that the damage from the runaway amounted to about $3000.

"The accident happened on the H. Dorman ranch, nine miles north of Ritzville," said Mr. Harvey. "I did not learn what frightened the horses, but it seems the driver was out of his seat down on the ground inspecting some of the machinery and had released the reins.

"According to the report the 30 horses almost at one impulse started to run at a terrific speed, and the immense harvester was dragged through the wheat, scattering an avalanche of straw and heads into the air, until the sickle broke. Most of the country is level prairie, but some rough ground was struck by the frightened drove of horses and the leaders became entangled and fell.

"This only increased the fright of the horses in the rear, which plunged over the prostrate and struggling beasts, breaking their limbs and lacerating their bodies terribly. Others stumbled over the animals that were down and fell upon them, making a heap of writhing, struggling animals, some on their backs kicking wildly, others hopelessly entangled in their harness and vainly trying to rise.

"The struggles of the fallen animals increased the frenzy of the rear horses, which leaped and plunged over them and with almost miraculous strength dragged the huge harvester with its tons of weight right over the writhing heap, crushing several of the animals to death and wounding others.

"Finally the greater part of the animals that were not down broke loose from the harvester and scattered over the field, while those that remained hitched were unable to draw the harvester further. When all of the animals were rounded up it was found that 12 out of the 30 had been killed outright while nine others were more or less wounded, some of them so badly that it was necessary to kill them. According to the report I heard the total loss from the runaway was not less than $3000, which is the record for destructive runaways so far as I know."

NEW YORK ODD FELLOWS.

Biggest State Convention Ever Held, Meets at Buffalo.

Buffalo, N. Y., Aug. 21.—What is expected to be the greatest state convention of the Odd Fellows of New York opened here today in the most auspicious manner. The city is handsomely decorated and thousands of people fill the streets, which bear a decided holiday aspect. It is estimated that fully 30,000 members of the order are in the city and many of them are accompanied by their ladies.

The arrangements for the reception and the entertainment of the visiting delegates are thoroughly systematized and everything moves smoothly. Although the hotels are taxed to their full capacity the visiting Odd Fellows have no difficulty in finding suitable quarters. One of the great events of the grand lodge convention will be the parade this afternoon. It is expected that fully 30,000 Odd Fellows will take part in the procession.

Prizes amounting to a total of $2,500 will be awarded to the winners of the various contests. The largest prize of $150 will be awarded to the canton having the largest number of chevaliers in line and presenting the finest appearance. Another prize of $150 will be awarded to the best uniformed subordinate lodge in the parade. Other prizes of $100 to $25 will be awarded the lodge or canton coming the longest distance, the best drilled canton, etc. The reviewing stand is located on Lafayette Square.

Among the delegates are 1500 from Hamilton, Ont. The convention will last four days. The headquarters of the grand lodge are at the Iroquois hotel.

The Washington Spanish War Veterans association will meet next year at Spokane.

Convention of Vetermaries.

New Haven, Conn., Aug. 21.—Between 300 and 400 prominent veterinaries from all parts of the United States are attending the annual meeting of the American Veterinary Medical association, which opened here today. The association numbers more than 1000 members, comprising practicing veterinaries, government officers and college instructors in all parts of the country. The convention will last four days. One entire day will be devoted to a clinic, while on the other days valuable scientific papers will be read and discussed. On Thursday evening a big dinner will be given at the Tontine hotel.

Killed at a Baptist Camp.

"While on a camping trip under the auspices of the Baptist church, Harry Williams was shot in the back by Roy Heller and instantly killed. It was purely accidental, and no blame attaches to the young man who did the shooting. Both were popular young men of this city. Heller is 20 years of age. Williams was 18."—Boise Statesman (Idaho Falls Cor.)

All Boats Tied Up on the Snake.

The steamboat Lewiston tied up last night at Riparia and there is now no boat running on the river, nor will there be one until there is a decided rise in the stream. The Spokane has been on the ways for a week undergoing repairs and there has been no general freight moving. The Lewiston has been operating between the construction camps with supplies but this is stopped now.—Lewiston Teller.

A Southern Pacific powder house blew up near Yreka, Cal., killing two boys and fatally wounding another. It is supposed one of the boys fired a shot from a target rifle through the ventilator, probably to see what would happen.

Judge Beer By Its True Worth

Progressive Men and Women Consider It a Means to National Temperance.

We have recently published a number of articles on the food value of beer, and we believe that sooner or later beer will be recognized at its true worth, as a food beverage of splendid tonic effect and high nourishing value. Noted men and women of this country are already alive to the situation and besides Miss Phoebe Cousins and Dr. Joseph Feisler of Northwestern University, many others of note give their endorsement to beer as a means to national temperance.

Miss Cousins, for a quarter of a century the most eminent woman suffrage advocate in the West, said in a recent interview: "There never will be a law that will compel prohibition, and the sensible thing for the Women's Christian Temperance Union to do is to aid in the substitution of mild, nourishing drinks like beer, which seldom produces drunkenness. A prominent army officer who served in the Southwest, operated canteens at three different posts. He made the canteens so acceptable to the soldiers, who found beer satisfying their demands, that he actually ran all the low dives of the surrounding neighborhood out of business."

Pabst Beer meets all the demands for a mild, healthful, refreshing beverage such as Miss Cousins suggests. It is made of the exclusive Pabst eight-day malt, choicest hops and pure water. Eight-day malt, which is the only perfect malt, gives Pabst Beer its superior food value and richness. Strong in nourishment the body requires, it is refreshing and satisfying.

Perfect in age, purity and strength, absolutely clean and containing only three and one-half per cent of alcohol, Pabst Beer is the ideal temperance beverage. No other is so healthful.
