GENERAL NEWS.

Jason Carpenter, a hoppicker at Yakima, was knocked down, beaten and robbed by two unidentified foot-pads.

President Roosevelt has by explicit order extended the eight-hour system to government work of all description. It more particularly affects river and harbor improvement work.

Grand Forks, B. C., paid Andrews & McDonald \$525 for a team of fine horses for the fire department. That night the team was stolen, and absolutely no trace of them can be found.

Matthew Kiely, chief of police of St. Louis, who has been on trial before the police commissioners on charges of neglect of duty, was dismissed from the department. Edmont P. Creech was appointed chief.

The Charles A. Street Lumber company has sold 5200 acres of timber land in Idm and Marion counties to the Curtis Lumber company for \$105,000. The tract includes some of the finest timber in the state.

Grain Commissioner Anderson, of Washington, estimates this year's grain crop at 15 to 20 per cent less than last year, the decrease being due to the extreme hot weather of July which shrunk the grain in the milk.

Commissioner Darlington of the department of health, of New York city, will at once commence a crusade thruout the city against the sale of adulterated, misbranded, poisonous or deleterious foods, drugs, medicines and liquors.

At Grand Forks, B. C., the 14-year-old daughter of Mr. Kennedy, baggage master of the C. P. railroad, confronted two burglars with a revolver and backed them off the premises. She then fired several shots to attract attention of the police, but the intruders escaped.

The Normal school at Stanberry, Mo., was destroyed by fire. Loss, \$75,000. Two hundred students attended the college, but only the president's family lived in it, and they escaped uninjured. A boy was fatally hurt by falling walls.

A scow used as a ferryboat between Salmon and Hood River, sank in the Columbia river Tuesday, and had it not been that it had almost reached the shore several men and a team of horses would probably have been drowned. The scow was loaded with several dump cars and equipment, which was being transferred to the north bank railroad near Bingen.

NORTHWEST NEWS.

Adah county is bidding a \$20,000 bridge across the Boise river at Boise. It is an all-steel structure 350 feet long, with a 20-foot roadway and two footpaths.

The contract has been let for the construction of a Catholic church at Eugene to cost \$5157. It will be 50x100 feet in size, and stand on the site of the old one.

The federal grand jury at Boise has returned indictments against R. Snyder, United States court commissioner at Meadows supposedly for irregularities in connection with final proofs.

There are only two vessels in the world larger than the Adriatic which was launched at Liverpool on September 19. She is 710 feet long, 75 feet 6 inches beam, and 59 feet 6 inches deep.

At San Luis Obispo, Cal., Joe Wilson, a saloon keeper, shot and killed F. C. Gilson, a merchant. Jealousy was the provocation. Gilson and Mrs. Wilson were in a buggy together when the killing took place.

The State Agricultural college at Corvallis now enrolls 438 students—the largest enrollment in its history at this time of the year, and 56 more than a year ago. It is expected the enrollment for the winter term will reach 900.

Verne Burns pleaded guilty at Boise to defrauding the Oregon Short Line out of the money received from the sale of tickets, while he was acting as agent for the company. He was sentenced to one year in the penitentiary.

The Cimarron river has fallen 14 feet, yet the Rock Island engine and three cars which plunged into the flood are entirely out of sight, having gone into a stratum of quicksand of unknown depth. The death list will probably never be known.

Interest upon United States government bonds is taxable whether those bonds are owned by an individual or a corporation and whether the interest is held in the form of a draft, check or money. This decision has just been reached by the supreme court of the United States.

Wilbur G. Voliva was elected general overseer of Zion church by an overwhelming majority over John Alexander Dowle, who seems to be permanently down and out. Dowle announces his intention of going to Mexico. His friends do not think he will long survive his present illness and the shock of repudiation.

Have You Dyspepsia, Indigestion? If today you suffer from impaired digestion, sluggish liver or impure blood, and you were told of a preparation which would cure you at a small cost, would you try the remedy? There is a medicine—Green's August Flower. Go to your druggist and buy a test bottle for 25 cents, or the regular size for 75 cents. If you have used all other dyspepsia remedies without satisfaction, or if you have never used any preparation for these distressing affections; if you have head ache, biliousness, loss of appetite, sleeplessness, nervousness, or any disorder of the stomach or liver, cure yourself quickly by using the infallible August Flower. It is not an alcoholic stimulant, but quite harmless for general use. Get a copy of Green's prize alma ac. Tallman & Co.

Mormon Basin Mines Sold. Ike McCord and John Regan today consummated the deal whereby they sell their two mines near the Mormon basin country to J. W. Messner, trustee, representing eastern capitalists, for \$30,000. This is one of the most important mining deals that has been announced this season.

The property sold includes the Virginia mine, and the Emma group of mines located at the head of Cave creek, about five miles north of Mormon basin. These mines were discovered, it is understood, by Mr. Regan and developed by himself and Mr. McCord. They are fine properties, with good ore bodies that can be easily worked.—Baker City Herald.

A Lesson in Health. Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. Koeppe's drug store.

Bass in Land-Locked Slou. With the placing of 8000 young Oswego bass in Lake Waha today by Fish and Game Warden M. H. Haysbaugh, 25,500 of our little fellows will be sporting in its cool, clear depths. Last Saturday and Sunday 14,000 were planted, in August 2000 were given a new home and during May 1500 commenced feeding on shiners.

The bass were seined in a land-locked slou across the Clearwater river, just below the Stranahan place, by David Herell, who states that there are thousands still remaining. When the river was high the bass went into the quiet waters of the slou and spawned. They guarded the eggs until hatched and secured food for the young until the falling stream compelled them to seek safety in flight. Cut off from escape, the young bass have grown to three inches in length and are quite strong. However, they have had to rustle to secure food in the slou, which is only 100 yards long by about 35 wide.—Lewiston Tribune.

NEW RATES IN FORCE

NORTHWEST GETS FAIR TARIFF SCHEDULE.

Long Distance Rates in Force in Eastern States Now Apply in the Northwest—New Rates Mean Much to the Northwest States—Gives Shippers a Square Deal.

The new railroad rates adopted by the Harriman lines and others penetrating the northwest means much to the smaller towns which have not heretofore enjoyed terminal rates. The Oregon Daily Journal says of the rate conference in Portland and of the resultant reduction in the freight tariffs to the Pacific northwest:

After conferences between the traffic departments of the railroad companies, it has been decided to put in a distance tariff to apply on all lines in Oregon, Washington, Idaho and Montana. The freight rates will be made to conform with the distance tariff promulgated by the Washington railway commission. The railroad companies will offer no further opposition to the announced program of the commission.

It is expected that the new tariff will be put into effect within a few days. It will be made effective as soon as the commission's order issues, and this, it is said, will be done this week or next.

Thru the action of the Washington commission, the same result will accrue alike to the other states of the Pacific northwest, by voluntary action of the railroad companies. It is said that they have become convinced that it is time to accept conditions that have been brought about by growth of the population and development of the transportation business, and that the best policy is one of acquiescence in the demands of the commission.

Results of New Tariff. The first direct result of the new distance tariff will be to give lower rates between interior towns, for exchange of commodities, and the encouragement of business between the smaller communities. The tariff will be as follows, according to classification of tonnage.

First class—Five miles or under, 10 cents per 100 pounds; each five miles thereafter, up to 20 miles, 4 cents additional; each five miles thereafter up to 50 miles, 3 cents additional; each five miles thereafter up to 100 miles, 2 cents additional; for each five miles thereafter up to 400 miles, 1 cent additional; distances above 400 miles, 2 cents additional for each 10 miles.

Second class—85 per cent of the first class rate; third class, 70 per cent of first class rate.

Class A, merchandise, 50 per cent of first class rate; class B, 45 per cent of first class rate; class C, 30 per cent of first class rate; class D, 25 per cent of first class rate; class E, 20 per cent of first class rate.

Where New Rates Applies. On the first four classes the rate applies to less than carload lots, and on the remaining classes it applies to car lots. Western classification rules apply to the tariff schedule.

The result will be that the new distance tariff will effect a reduction of present freight charges at all points where there is not already a lower rate. In many instances the existing commodity rates or special rates will be lower than the maximum under the new distance tariff. At such points the tariff will have no effect. The cut amounts to about 20 per cent reduction of the present rates. While it will not apply in that degree to existing rates out of Portland, there will be some changes of the present special and commodity rates the none materially affecting the jobbing trade at this point. There will be some links to take out and some modifications to render the rates uniform.

Starving to Death. Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters; with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by Tallman & Co., druggists.

LEWISTON AND M. E. ACADEMY. Institution Will Be Located Within This Conference.

Lewiston may be the home of a \$100,000 school of academic grade to be established by the Methodist Episcopal church, speculates the Teller.

Rev. Peter C. York, of St. Anthony's Parish, in Oakland, has been chosen by the Allied Unions to represent them in the arbitration of the unions' demands upon the United Railroads of that place and San Francisco.

BABY'S VOICE

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe! Angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of childbirth can be entirely avoided by the use of Mother's Friend, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain.

Sold at \$1.00 per bottle by druggists. Our book of priceless value to all women sent free. Address BRADFIELD REGULATOR CO., Atlanta, Ga

This city has made a generous offer to procure the establishment of the institution here and the prospects are more encouraging.

The plan for a new academy was discussed at length at the Columbia River conference held at North Yakima and a commission of seven members was appointed for the purpose of founding the institution in some favorable city within the bounds of the conference, which reaches from British Columbia to Nevada, and from the Cascade mountains to the Rocky mountains. Of the seven members, Lewiston boosters feel confident of the support of five. The other two are expected to vote in favor of having the academy placed in Spokane.

The seven members of the commission are Rev. C. E. Gibson of Spokane, Rev. A. H. Henry of North Yakima, Rev. Gabriel Sykes of Walla Walla, Rev. W. Skipworth of The Dalles, L. N. B. Anderson of Colville, Rev. U. F. Hawk of Spokane and Rev. O. W. Minter of Spokane. The first five named are the ones who are thought to be favorable to Lewiston.

Make Generous Offer. An offer, which was regarded with high favor, was that made through the medium of Rev. W. T. Easter, pastor of the First Methodist church here, and came from Louis Delsol, one of the oldest residents of the city, supported by William Goldthwaite. Their offer was made legally and declared that 50 acres of land, contiguous to the city, would be given. It is expected that Mr. Delsol, however, will be willing to increase his offer to a tract of 200 acres if the school can be established here.

New Bridges Across Asotin. The board of county commissioners met in special session at the court house yesterday. Messrs. Downen and Wormell being present. Contracts for the new steel bridges across Asotin creek were let to the Puget Sound Bridge & Dredging company, of Seattle, at a cost of \$2400 each. This includes the tearing down of the old bridges and the construction of tubular piers. The work will commence in a short time.—Asotin Sentinel.

THE SMILE OF SATISFACTION is visible on the faces of all our customers when their laundry work is delivered, because they know from past experience that we have made a clean job of it, and that, however soiled the linen was, it would "all come out in the wash." Not only that, but our patrons know that we always take the greatest care of their clothing, and never burn or scorch it or "eat it" with destructive acids.
