Hand-Painted China on Exhibition.

At the Winslow Bros. jewelry store a line of Richard's hand-painted china has just been received and is now shown in one of the windows. This is a class of goods that is handled only by a few of the best stores in the northwest, and the ware has attracted much attention. Also, Winslow Bros. have recently added to the attractiveness of their windows by exhibiting a line of fancy statuary.

DON'T SPECULATE WITH PIANOS.

If you are contemplating the purchase of a piano, it will pay you to deal with an established company—one that makes no rash promises and then fails to live up to them; one who establishes a branch office only when the business in that section justifies and when they are established in a city, are a permanent institution, one of the city's business houses, always there to deal with the people, and not a come by day and gone by night experimental firm.

In dealing with Eilers Piano House, you have the most celebrated pianos always at your very door, so that if you wish to step in and examine the different styles and makes.

Besides you are not speculating on the outcome of your deal, for you are dealing with an established and permanent institution, a branch of the Eilers Piano House, the largest piano dealers in the northwest.

Let this be food for thought. You do not buy a piano every day. So when you do, be sure that you get just what you want, that it is just what it is represented to be and that you are dealing with an established and reliable firm.

We are here to stay, and have been making many improvements in our salesrooms in order to better accommodate our increased patronage. At your earliest convenience step in and see our splendid showing of high grade pianos.

CAN LEGALLY DEFAULT.

Immunity in California for Dishonest Insurance Companies.

Sacramento, Cal., Oct. 12.—Attorney General Webb, in his biennial report to the governor of California says that so defective and incomplete are the state statutes that a foreign insurance company may cease to do business in California without liquidating its liability. In case the company withdraws, the insurance commissioner must publish the fact of withdrawal for two weeks, and the state must pay for the publication. In short, a defaulting foreign insurance company has the right to leave California and its debts behind, and all the state can do is to shut the door and pay the cost of closing it.

The company can remain in this state and make a practice of violating the terms of its contracts, and the state officials are without power to cause such practice to be discontinued.

The remedies for the lamentable conditions existing that were recommended vigorously by the attorney general to the governor are a standard form of fire insurance policy; foreign insurance companies should be found by stipulation to submit controversies to the courts of this state, and be prevented from withdrawing until they have paid their debts; they should have a sliding scale deposit with the state; fines should run against companies and against agents; all forms of policies should be submitted to the insurance commissioner before the issuing company can do business in California.

COLONIES FOR THE SOUTH.

Tennessee Will Get Large Belgian Immigration.

The first considerable shipment of immigrants sent directly to a southern port has been unloaded at Charleston, S. C., says a Washington dispatch. The newcomers are Belgians. Their arrival marks the opening of a regular service by North German Lloyd ships in which immigrants will be brought from Europe and freight taken for the return.

South Carolina announced definitely early last year its desire to bring new people within its borders. Only about a third of the 200,000,000 acres is classed as improved farming land, and the quickest way to secure the population needed for development seems to lie in tapping the country's great

immigration stream. There is also a demand for many factory hands. The state pays the transportation expense of the first shipment of immigrants.

Other parts of the south are in sympathy with the movement in which South Carolina is most active. The idea that immigration may do great things for that section is strengthened by such living examples as the Italian colonies of Louisiana and Texas, the Polish farming colonies in Virginia and Tennessee and the colonies of Swiss in Missouri. Italian workers on rice and cotton plantations do far better for themselves and their employers than do the negroes long accustomed to the toll.

Protect Proprietary Medicines.

Did it ever occur to you that proprietary medicines are a blessing to mankind generally? The good ones have long continued sale; the poor ones have short life and soon leave the market.

It we had to depend entirely upon physicians and druggists it would be expensive and very inconvenient at times, especially in the country and at night when neither could be conveniently reached. For nearly 40 years Boschee's German Syrup has been used in many families and thousands of lives have been saved by its use, when it was impossible to reach a physician. German Syrup is the best household remedy for coughs, colds, throat and lung trouble. It quickly relieves the hacking cough, loosens the phlegm, and brings sound and refreshing sleep.
