### MYERS-RHONIMUS DUEL RELICS

#### Shotgun and Pistol Used in Deadly Fight Given to Sheriff.

Two guns were taken to the sheriff's office this afternoon by Coroner Ralph Folsom and they have been objects of interest to those who know their history. One of the weapons is a 38 Ivers-Johnson pistol with a long barrel. There is one loaded shell in the gun and on either side of the cartridge is an empty shell. The pistol was the property of Tom Myers and the missing bullets were sent at A. D. Rhonimus during their fight on upper McKay a month or more ago. Evidently one of the cartridges missed fire as each would account for the loaded shell between the two empty ones.

The other gun is a double-barreled shotgun and it belongs to old man Rhonimus who is being held for the action of the grand jury. There is a shell in one of the barrels and it is now held fast by rust. The gun was dropped in the snow by Rhonimus after he had shot Myers, and had himself been hit by a bullet from his enemy's pistol.

But a short time ago the body of another son, Toney Jones, was brought here for burial by the bereaved parents.

### MAY HAVE BEEN WILSON.

#### Slight Clue to Identity of Victim of Umatilla Fight.

It now seems probable that the name of the unknown man who died at the poor farm from an injury received at Umatilla, is Wilson. From the proprietor of one of the lodging houses at Umatilla it has been learned that the dead man registered there under that name. He had come from the north bank road, opposite Arlington.

This afternoon the remains of the dead man will be buried from the Rader undertaking parlors, the interment being in the potter's field at Olney cemetery.

### SHELLER HERE TOMORROW.

#### Reserve Superintendent Wishes to Meet Stockmen While Here.

D. B. Sheller, forest reserve superintendent, will be here tomorrow night, arriving from Baker county on No. 5. He will leave the next forenoon for Spokane. He has requested through Secretary Dan P. Smythe, that all stockmen who have not fully completed securing their allotments in the Blue Mountains reserve, meet him at the Hotel St. George while he is here.

Superintendent Sheller conducted the reserve meeting here last spring and was also one of the head officers at the recent meeting at Sumpter.

### FAVORS A JUTE MILL.

#### Baker County Commissioner Says Oregon Should Have a Plant.

"I am thankful to be a plain, Baker county farmer, and to have my home in this productive country," said County Commissioner W. C. Camp as he reached Baker from the wheat country of Washington, where he has been looking after business interests, says the Bayer City Herald. The county commissioner thought it

enough to be thankful for to have a farm in this country.

"What do I think of the wheat country up in Washington?" responded Mr. Cropp to the question. "After being over the wealthy wheat country you hear so much about I am mighty glad to be back in Baker county and to have my farm here. It is worth far more as a means of livelihood to a man than a farm in that country."

"There is lots in the papers about the wheat districts up and around Walla Walla, Garfield and Kennewick and you hear a lot about the wonderful wealth of the country from people, but you don't hear about it from the farmers of that country. I tell you you can make lots more money farming right here in Baker county."

**Land Is High.**

"Land up there is worth \$60 or \$70 per acre. Wheat is worth 45 cents per bushel. You raise about 40 bushels to the acre about every other year. I guess you can see where the farmers get off. Then they have to pay 12 1/2 cents for sack, and 75 cents per ton for warehouse handling."

**Favors Jute Mill.**

"This would be remedied considerably if the state of Oregon owned a jute mill and worked convict labor at making sacks. The state could make sacks enough to furnish this state with them, and the result would be a big saving to the farmers. I hope to see the state again take up the project which seems for the time to be abandoned and to do this much for the Oregon farmers."

## PIANO BUYERS

'Twill Pay To Take Heed THAT

Eilers Piano House has just received two carloads of the highest grade pianos for the Christmas trade, and wish to tell their many friends, patrons and prospective buyers that have been calling to look over our new stock, that we have them all unloaded at and have a special Christmas sale starting from yesterday.

We are making this an unprecedented opportunity for the person who is interested in the purchasing of high-grade pianos, to secure their choice of any make to be found among our stock of celebrated makes, consisting of Chickering, Webber, Hobart M. Cables, Kimballs, Baileys, Lesters, Schumanns, Crowns and many others, at a real bargain, as our prices will be unmercifully cut during this sale.

We will guarantee a saving of from \$100 to \$150 on every instrument at this time, and can assure the public that such an opportunity as this will probably not be presented again for a very long time—perhaps not for years.

Just think of what that means—not a mere handful of unknown pianos of uncertain quality, but a stock of the finest and best known pianos in America. Our guarantee—and a guarantee from the biggest, busiest and best piano house in western America means something—goes with every piano, as usual.

So, we say, if you are interested in the matter of a piano purchase, come in at once and learn fully as to prices, terms, etc. We do not wish to quote these publicly, as we do not care to demoralize the local piano market to any greater extent than necessary to accomplish our object of keeping our new stock from accumulating during this trying period.

Come in tomorrow—our word for it, you will find the inducements sufficiently satisfying to meet every expectation and make your selection from this elegant line, while the stock is complete.
