Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle Home of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

IS JETTY A FAILURE?

ASTORIA MAN SAYS WATER IS SHALLOWER.

With All the Costly Work Done by the Government the Channel is Not Becoming Deeper—Dr. Kinney of Astoria Makes Pertinent Observations.

In a communication to the governor Dr. August C. Kinney of Astoria, reports that the jetty work at the mouth of the Columbia river being constructed by the government, is proving a detriment to the channel of the river rather than a benefit and that, notwithstanding five and five-eighths miles of jetty work has been completed the bar is two and one-half feet shallower now than 14 years ago and he encloses two copies of photos of maps of the river taken by the United States engineers to prove his statement.

He says it is foolishness to continue the construction of the jetty as it will prevent the undertaking of some other remedy more practical, which should be studied out immediately.

With four miles of jetty in 1892 the depth of the channel was 27 feet, while, with five and five-eighths miles of jetty this year, the depth has been lowered to 24 1/2 feet.

"This jetty work is certainly a failure, a sorrowful truth which none of us can regret more than myself and others at the mouth of this river. The United States engineers and all interested no doubt have done for the best but it does not seem very clear to me that a continuation of this work will prevent the undertaking of some other remedy more practical.

"What that something should be should be studied out at once. The demand of the whole Columbia river basin is for something practical in getting an entrance into the river for the deepest vessels now coming into Puget sound.

"I am not an engineer as you know, only an interested citizen in the matter, looking for results and so have no plan to propose."

REV. ELLIS' HEALTH FAILING.

Sand Hollow Telephone Users Have Organized.

Athena, Dec. 15.—Rev. George Ellis, who has been pastor of the Baptist church in this city for 14 years, is failing in health so rapidly that his physicians have ordered him to go to California, and he will leave for that place in the next few days, to spend the winter. His son, W. H. Ellis of Baker City, is expected here from Baker City in a few days, to assist his father in the preparations for leaving.

Rural Phones. The Sand Hollow division of the rural telephone system, has been placed on a high line. The owners have organized with George Gross, president; Henry Schmidt, secretary; G. W. Hansell, treasurer; Fred Gross, George Piper and George Walter, directors.

MORROW COUNTY HAPPENINGS.

Compiled From Last Issues of Ione Proclaimer and Heppner Times.

From the Ione Proclaimer:

John Bryson had his left arm badly crushed above the elbow by being caught in the well drill Wednesday while at work on A. B. Grover's well.

A crowd from the North Sweden neighborhood went to Ione last Tuesday to help swell the crowd and meet the Umatilla county people. But most all were somewhat disappointed in more ways than one. First, because the train like most all excursion trains was away behind time; maybe they had stopped to long at some other point on the road. Second they didn't stay half as long at Ione as they were supposed to; and third, there were only three speakers and one of them was Attorney White of Ione, who made a better speech by far than any one else. We do hope they did better in Heppner than they did in Ione.

The following items are from the Heppner Times: C. O. Huelat has the frame of his new residence up, but owing to the inclement weather work on the structure will be retarded some. It will be a seven-room cottage very conveniently arranged.

Heppner was in darkness last

Thursday night on account of a small fire at the power house early in the evening. The fire probably started from a spark from the smokestack, but was put under control by the fire company before any material damage was done. However, the front part of the building, where the fire originated was flooded with water, causing a shutdown of the machinery for the night. The fire company is to be commended for its prompt work in checking the blaze.

Judge H. J. Bean and District Attorney O. W. Phelps held a short session of court here yesterday forenoon. S. I. Stratton was arraigned on a charge of embezzlement, but asked and was granted further time to plead. A Clark boy from Hardman, was arraigned on a charge of theft and committed to the reform school at Salem. Walter Cason of Ione, took the boy to Salem today. He also took two Windsor children from Ione to the Boys' and Girls' Aid society at Portland.

The past two days Heppner has been full of enthusiastic Oregon Northern railway stockholders, who met here Tuesday to elect officers and directors of the proposed electric line extending from Hardman to the Columbia river. Considerable accumulated business was transacted at this meeting other than the election of officers.

The permanent survey has been completed over the greater portion of the line and it is presumed that with the opening of spring grading will be commenced, at least matters are being shaped to that end. The stockholders feel confident that their project will ultimately be made a reality, and they will keep the work moving. The old officers were re-elected, as follows:

M. J. Mariner, president; C. E. Woodson, secretary; C. E. Jones, manager; John Adams, Charles Anderson, Mr. Toby, M. J. Mariner and C. E. Jones, directors.

THE HOSPITAL BAZAAR.

Bishop O'Reilly and Mayor Fee Will Make the Formal Opening.

Next Tuesday night, December 15, at 7:30, the bazaar will open and continue every night during the week. His lordship, Rt. Rev. C. J. O'Reilly, will make the opening address, and an address will also be made by Mayor Fee. The booths will be arranged on Monday and Tuesday at the Dusenberry building, opposite the post office. All are invited to come and see the beautiful display and to purchase Christmas presents. Luncheon will be served every night.

A Western Wonder.

There's a Hill at Bowie, Texas, that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of Consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for Consumption, Coughs and Colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure Cough and Cold cure. Guaranteed by Tallman & Co. druggists, 50c and \$1.00. Trial bottle free.

Young Jacks for Sale.

E. F. Swagart, of Heppner, is in the city from the Eastern Oregon Jack farm, with a number of excellent young jacks for sale and will remain for several days in order to place these animals before the stockmen of this vicinity. The jacks are well bred, young and acclimated to eastern Oregon, and an excellent grade of mules may be raised from them. This is an excellent opportunity for stockmen to secure good young animals at reasonable prices. The quality, prices, terms and conditions are all satisfactory and the stock shows for itself. Stockmen are cordially invited to inspect the animals now in this city.

Passed Examination Successfully.

James Donohue, New Britain, Conn., writes: "I tried several kidney remedies, and was treated by our best physicians for diabetes, but did not improve until I took Foley's Kidney Cure. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance." Foley's Kidney Cure cures backache and all forms of kidney and bladder trouble. Koeppen's drug store.

Weiser dispatches to Boise states that A. J. Wenrich, who was shot and killed at that place by Nellie Lamont, a woman of the town, was formerly chief of police at Sumpter. Also that the Lamont woman, who shot herself (but still lives), is from Pendleton.
