

LOOK OUT!

Many a man is looking out for his health, but looking for disease in the wrong direction. He takes medicine for his nerves, which seem "gone to pieces." He "doctors" for his heart, which is acting irregularly. He constantly stirs up his liver with pills and powder. But he does not get any better. He is looking for the cause of his complaints in the wrong direction.

It is a common thing for some one who has used Dr. Pierce's Golden Medical Discovery for "stomach trouble" to find that when the diseased stomach is cured the "weak" heart is made sound, the sluggish liver stimulated, and the throbbing nerves tranquilized. This fact alone suggests the truth, which every leading medical scientist knows and recognizes—that diseases which seem remote from the stomach are often caused by the disease of the stomach and other organs of digestion and nutrition. When the diseased stomach and the digestive and nutritive system are cured of disease, the other organs are cured with them.

Food is the basis of life and of strength. But it is not the quantity of food eaten which supports the life and health of the body. The body is sustained by that portion of the food which after being eaten is converted into nourishment and properly assimilated. When the stomach and its allied organs of digestion and nutrition are diseased or "weak," only part of the food eaten is converted into nutrition, and the body and its organs are therefore only partly nourished. Dr. Pierce's Golden Medical Discovery cures the diseases of the stomach and digestive and nutritive system which prevent the proper nourishment of the body. In that way the body is once more strengthened in the only way possible, by food properly digested and perfectly assimilated.

Any person suffering from disease in chronic or aggravated form, is invited to consult Dr. Pierce by letter free. All correspondence strictly private and confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

There is no alcohol in "Golden Medical Discovery," and it is entirely free from opium, cocaine, and all other narcotics.

Accept no substitute for "Golden Medical Discovery." The main motive of substitution is the desire of the dealer to make a little more profit out of you by selling you a less meritorious medicine.

ABLE TO WORK AGAIN.

Mr. John L. Coughenour, of Clatsop, Somerset Co., Me., writes: "I had been doctoring for about a year and a half, being unable to work most of the time. The doctor said I had heart disease and indigestion. I began with a choking and oppressed feeling in the chest; later on I was troubled with a burning feeling, and I seemed to be raw from my throat clear down into my stomach. My appetite was unusually poor. I was weak and nervous, and my heart kept throbbing continually, and I was short of breath. Finally I wrote to you for advice. I did not think your diagnosis was right, but I ordered six bottles of 'Golden Medical Discovery' and began its use. After using three bottles I began to improve slowly and soon went to work, and I have been working ever since."

"SUFFERED ALL THE TIME."

"I feel that I would be doing an injustice to you if I did not send you a testimonial of my case," writes Mrs. David W. Guice, of Hamberg, Franklin Co., Me. "I had liver complaint and indigestion. Everything that I ate disagreed with me. I suffered all the time with swimming in my head; heart beat too fast; my feet and hands were cold all the time. I did not sleep well at all. Was able to get about but very little. I commenced to use Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' in May, 1904, and by December I could begin to get about very well. Have been doing my work ever since except a few letters that I have for several years. I would recommend Dr. Pierce's medicines to all who are troubled as I was. I am now sixty-one years old and I thank you most kindly for the happy relief and cure."

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery" and should be used with it when a laxative is needed.

Fine Line New Furniture Just Received

If you want furniture or household goods of any kind, call at my new store 2 doors west of old stand and get my prices on new and second-hand goods, before buying. You will find unmatched bargains.

SPECIAL CORRESPONDENCE FROM THE OREGON LEGISLATURE

Salem, Ore., Jan. 17.—"An act to prevent the false branding or marking of, or false representations with reference to fruit, small fruits, cherries, vegetables, dairy or other agricultural products," is the title of a bill which was presented to the senate yesterday afternoon by Senator N. Wheelon of Wasco county.

It provides that it shall be unlawful for any person, persons, or corporation, to falsely label or mark any box or package of fruit, small fruit, etc., as having been produced in any locality, or by any person other than the locality in or by the person by which such fruits, or other products were actually raised, or to indicate, by such labeling or marking, that the same were packed at any place or by any person other than at the place and by the person actually packing the same or to otherwise mark or label any such box or package so as to mislead the public as to the locality where the same was raised or packed, or to ship, vend, sell or dispose of any of such products so labeled or marked. The same restrictions are extended to dealers, commission merchants, shippers and vendors and a penalty of not more than \$100 fine or imprisonment in the county jail of not more than 90 nor less than five days, or both, for violation.

To Regulate Railroads.

Salem, Ore., Jan. 16.—To Representative Chapin of Multnomah county, was entrusted the duty and honor of presenting to the legislature the first bill looking to the regulation of transportation facilities in this state, which is the bill that was drafted by a special committee of the Portland chamber of commerce. It provides for the creation of a railroad commission, with power to establish passenger and freight schedules, and adopt such rules and regulations for the government of all railroad and railway facilities in the state to best conserve the interests of the public.

This bill, as will be the case with all attempted railroad legislation of a like character, is expected to meet with strong opposition from the railroads, and especially any attempt to empower the commission to establish reciprocal demurrage rules or requirements. The bill passed up to the second reading.

To Regulate Campaigns.

Salem, Ore., Jan. 16.—Representative Huntley of Clackamas county, introduced a bill in the house yesterday morning to regulate the manner of conducting election campaigns and for controlling the expenditure of campaign funds by candidates for all public offices from United States senator down to constable.

It provides that all candidates must file their statement and photo 20 days before the nominating convention, when they will be allowed a certain amount of money for the election campaign expenses and will not be allowed to expend money outside of this sum. It provides penalties for violation of from \$100, for state officers, down to \$10 for officers of lesser importance, and imprisonment. It also provides that any corporation found guilty of violation of the provisions of the act as to making donations to campaign funds, etc., shall forfeit its charter and otherwise be penalized by fine or imprisonment of its officials, or both.

Won the Chairmanship.

Salem, Ore., Jan. 17.—Judging by the tenor of the resolutions introduced in the house yesterday afternoon the position of chairman on the committee on resolutions was a very much coveted one, but Representative Campbell of Clackamas, "railroaded" his resolution to the desk so quickly that all of the others, four in number, were completely shut out of the race, and Mr. Campbell landed the chairmanship before the resolutions of his competitors came to light. The other members of this committee, which is all-powerful are Adams of Multnomah, Kubl of Jackson, Simmons of Marion, and Newell of Washington.

There was also a big rush of resolutions providing for the investigation of the accounts and records of the several state departments, boards and commissions, and for divers junketing trips, the most prominent among the latter of which being for two joint commissions to investigate the conditions on the Columbia river, with a view of remedying by legislation or memorial to congress, and a joint committee, with power to employ the necessary clerical assistance, to investigate the Oregon Soldiers' home at Roseburg, and the state university at Eugene. All of these resolutions were referred to the committee on resolutions.

To Investigate the Columbia. Representative Knowles of Wasco, asks for the appointment of a joint committee of six, three from the house and three from the senate, to visit and investigate the conditions on the Columbia river; Farrell of Multnomah, asks for practically the same thing, the only difference being that he asks for a committee of five to meet and confer with a like committee from the Washington legislature for the same purpose; Jackson of Douglas, thinks a committee of three should visit and inspect the Soldiers' home at Roseburg, and Rothchild of Union, would have a committee of five perform a like errand to the State university. All of these resolutions provide for the "necessary clerical assistance."

For Relief of Settlers.

Salem, Ore., Jan. 17.—Representative Pike of Gilliam, Sherman and Wheeler counties, presented a joint memorial in the house yesterday afternoon memorializing congress to

provide for the relief of the settlers in what is known as the Oregon Military Wagon Road company grant, in Sherman county, in accordance with the recent opinion of the supreme court of the United States, declaring the strip of land in dispute within Oregon territory and also in harmony with a bill presented to congress by United States Senator Gearin. By reason of this decision all of the settlers in volved, the majority of whom had obtained patent to their holdings, were deprived of their title to the land and the memorial seeks to secure reimbursement for them.

PORTLAND'S COLDEST WEATHER.

Coldest Day Recorded in Portland Was January 15, 1888.

In answer to inquiries from a Seattle reader, the Portland Oregonian publishes the following account of the coldest weather ever recorded in Oregon:

The Willamette river was frozen over at Portland in January, 1888, so completely that teams might have crossed on the ice, but did not because there was no way of getting down to the edge, says the Oregonian. The coldest day in the history of the local weather bureau was January 15, 1888, when the thermometer reached three degrees below zero. The preceding day was recorded as "a very cool day," but the exact temperature was not given. The weather remained extremely cold for over a week, the mercury staying near the zero mark, and not until January 25 did the ice break up.

Steamboats were frozen in solid, and during all this time people crossed afoot. The snow was swept away and a skating rink established by Fred T. Merrill above the old Stark street ferry crossing, where the Morrison street bridge now stands. Portland people enjoyed the novelty of skating on the Willamette to the music of a brass band and by the light of bonfires. The Stark street ferry was kept moving, a channel being cut through the ice, but was patronized only by vehicles. It was before the day of bridges in Portland.

The Columbia, above Vancouver was frozen, and mule teams with loaded wagons crossed from the fort to the Oregon shore.

A thin coating of ice formed on the Willamette at Portland the night of January 7 and 8, 1890, but disappeared the following days. The temperature on these nights respectively was 5 and 6 degrees above zero.

On December 23, 1879, the temperature was three degrees above zero. There was a dense fog in the morning, and as the day grew colder the fog congealed on fences and telegraph wires.

During 1906 there were 6255 desertions from the regular army, which number was 7.4 per cent of the whole army and 1.5 per cent more than deserted during the preceding year.

During the present year the Short Line will construct a line from Armore on the Utah Northern to the Clmore section in Lemhi county, a distance of about 76 miles.

Congressman Joseph M. Dixon, republican, of Missouri, Mont., was formally elected United States senator to succeed W. A. Clark, democrat, of Butte, a democrat.

The governor of Missouri has repudiated Mrs. Aggie Meyers for 20 days. It is believed the supreme court will grant her a new trial during the interim.

JACOB RISS TOMORROW NIGHT.

Famous New York Reformer Will Lecture at the Frazer on the Slums of Gotham.

Jacob Riis, the most prominent reformer and lecturer of the age in his line—that of slum work and social reform—will lecture at the Frazer theater tomorrow night, on the dark side of life in New York city.

Mr. Riis is a thrilling writer and has portrayed slum life in a most realistic manner and his lectures are fascinating. Not only is Mr. Riis a slum worker and social reformer, but he is a personal friend and biographer of President Roosevelt recently said: "He is the foremost citizen of the country." The Louisville Courier-Journal says of his lecture in that city:

A study in black and white, light and shadow, was encompassed in Jacob A. Riis' lecture at Liederkranz hall last night. It was a telling exposition of the effect of environment on man. Some years ago Darwin, Huxley and Tyndall showed the effect of environment on the lower animals. Their teachings are accepted with reasonable complacency, yet it remained for Mr. Riis and his fellow workers to show that the law applies just as closely to human beings; to show that physical conditions of darkness and filth infallibly produce like condition of mind and morals. It was a sledge-hammer blow at that shiftless religiosity which brings the tract and forgets the bread; which foolishly attempts to purify the soul without first cleaning and repairing the dirty house in which it lives.

Only a little cold in the head may be the beginning of an obstinate case of Nasal Catarrh. Drive out the invader with Ely's Cream Balm applied straight to the inflamed stuffed up air-passages. Price 50c. If you prefer to use an atomizer, ask for Liquid Cream Balm. It has all the good qualities of the remedy in solid form and will rid you of catarrh or hay fever. No cocaine to breed a dreadful habit. No mercury to dry out the secretion. Price 75c., with spraying tube. All druggists, or mailed by Ely Bros., 56 Warren street, New York.

Practically all of the Belgian state railroads are now operated by the government. Of the entire 2506 miles 44 per cent are double-tracked.

TO ENJOY A GOOD DINNER.

How to Avoid Distress and Indigestion After Eating.

Let us tell you how you can enjoy a good dinner, so that the healthiest meal will set well on your stomach and cause no unpleasant and disagreeable after effects.

We will show you how to regain the appetite of your childhood and the enjoyment of food, so that it will taste as well as when mother cooked the dinner.

There is no hard work necessary to do this; no need of a rigid and self-denying diet list; no call for nasty and disagreeable medicines. Simply take a Mi-o-na stomach tablet before each meal and before going to bed, and it will so strengthen the stomach that before long a hearty meal will give you gratification and comfort, without the least fear of distress and suffering.

The strongest proof we can offer of our faith in this advice, is the fact that Tallman & Co. give an absolute, unqualified guarantee (applying to two 50c boxes of Mi-o-na), that your money will be refunded unless Mi-o-na cures. A guarantee like this gives you confidence in Mi-o-na. They take the whole risk, and the remedy will not cost you a penny unless it cures.

Mi-o-na is not a mere digestive, giving only temporary relief, but a specific for all diseases of the stomach, strengthening the digestive organs and making a permanent cure.
