The National Brokerage company, representing all the "independent" window glass manufacturers of the country, has decided to shut down all factories from this time until July 1 next, for the purpose of curtailing production as a means of keeping up the price of window glass. The independents organized several years ago with the avowed purpose of fighting the old glass trust. There are now two glass trusts, in no sense competitive except in rustling for trade, as methods and prices are identical.

### SKETCH OF M' MANUS

PILOT ROCK EDITOR  
A PIONEER PRINTER.

A Brilliant Writer, Witty and Sarcastic—A Dead Shot, Good Horseman and a Versatile Man in Many Ways—Once an Expert Wrestler—A Native of Minnesota.

The Oregon Daily Journal gives the following interesting sketch of Editor John P. McManus, of the Pilot Rock Record, who is now awaiting trial in the Umatilla county jail for killing Bob Estes:

So far as shooting goes, McManus is a good one at the mark, says the Journal. Trained at the target by a brother who drove a stage in the Dakotas when the two states comprised a territory, he saw some life among the Indians. Like John, the brother was a journeyman printer, but in the sixties he left the case for the exciting life of the plains. He was said to be a dead shot, and it was also said of him that he made a three days' horseback ride between two stations in Dakota with a sack of mail on his back and with a band of Indians behind him.

This McManus, according to the story told by the advertising manager of Kati Putman, fed himself the three days and nights on the deer skin of his moccasins, and when he arrived at the end of his journey the only complaint he made was that he had lost sleep.

John P. McManus himself worked as a compositor in the newspaper offices of Portland in 1893. Previous to that time he had been editor of papers in the smaller towns of Minnesota, Dakota and California. He was looked upon as a bright but laborious writer. Some of his opinions were widely quoted. Leaving Portland in 1894, he became editor of the Pendleton Tribune. In 1900 he started a Pendleton paper that finally became known as the Pilot Rock Record.

A "Sub" in Portland.

McManus has a fund of sarcastic wit. When he was in Portland in 1893 times with the substitute printers were very hard. The regulars were sticking to their cases and there was little work. At a meeting of the union the troubles of the "subs" were taken up. The union advised them to get out of town and find work.

"Find work!" ejaculated McManus. "Why," he added sarcastically, "there's lots of work back in Wichita, Kansas."

Wichita was 2000 miles away and none of the "sub" printers, including McManus himself, had enough money to pay for a street car ride across the Morrison street bridge.

McManus is an expert horseman and driver. He is, or was a few years ago, a fine wrestler. He weighs only about 130 pounds, but he has easily thrown men weighing 200 pounds and over. He is about 45 years old and is a native of Minnesota.

Use a little KODOL after your meals and it will be found to afford a prompt and efficient relief. KODOL nearly approximates the digestive juices. It digests what you eat. It is sold on a guaranteed relief plan. Sold here by Tallman & Co.
