FARM INSURANCE

WASHINGTON FARMERS FORM MUTUAL COMPANY.

Company Will Be Confined Strictly to Counties—Will Insure Grain Growing in Stacks, in Sacks and in Warehouses at One-Half the Price Charged by the Old Line Companies.

Umatilla farmers will be interested in a mutual farm insurance company being formed by farmers in eastern Washington. A dispatch from Pullman says of the subject:

The sub-committee appointed by President E. A. Bryan, of the Washington state college who was authorized to do so by the Wheatgrowers' association of Washington, has outlined a plan for a farmers' mutual insurance company, says a Pullman dispatch.

In substance the committee report will be as follows:

The company shall be limited to each county, and the maximum insurance shall be \$1000 on each quarter section of land. The minimum assessment will not be lower than one-half old line company rates; payments of the assessment shall be required in advance. The surplus, should any accrue, is to be carried over through the years when losses are slight, and applied to policies when the losses exceed the assessment.

The policies are to cover losses of grain sacks when on the land, growing in the stacks, or in granaries in the field. This excludes anything when in the warehouse. Risks will be classified according to exposure; that is, proximity to non-insured grain, and to railroads. The policy fee, in addition to the prescribed assessment, will be \$1. Class A, which will be considered the basis in making rates, consists of grain not exposed on any side.

All policies will hold good for 90 days, and are to be dated from July 15, of each year. When any county carries \$750,000 or more insurance, it will constitute a district by itself, regulating the basis for determining the loss suffered within that particular county.

Following the acceptance of this report by the committee of which President Bryan is chairman, the necessary steps will be taken to secure a charter from the state insurance board. By mutually insuring their grain, the farmers of both eastern and western Washington believe that the heavy payments exacted by national insurance companies can be very materially decreased.

Thacker Rice and Speed and Elijah Ray, brothers, and John Ellmore, were crossing the Kentucky river in a rowboat 20 miles below Sargent, Ky., after a dance, and all were more or less drunk. They quarreled and fought, using knives and pistols. The three first named were dead early in the game. Ellmore reached the shore with the boat and three dead companions and lived long enough to tell the story of the fight, dying about an hour later.

Little globules of sunshine that drive the clouds away. DeWitt's Little Early Risers will scatter the gloom of sick-headache and biliousness. They do not grip or sicken. Recommended and sold here by Tallman & Co.

WEAK KIDNEYS MAKE WEAK BODIES.

Kidney Diseases Cause Half the Common Aches and Ills of Pendleton People.

As one weak link weakens a chain, so weak kidneys weaken the whole body and hasten the final breaking-down.

Overwork, strains, colds and other causes injure the kidneys and when their activity is lessened the whole body suffers from the excess of uric poison circulated in the blood.

Aches and pains and languor and urinary ills come, and there is an ever-increasing tendency towards diabetes and fatal Bright's disease. There is no real help for the sufferer except kidney help.

Doan's Kidney Pills act directly on the kidneys and cure every kidney ill. Pendleton cures are the proof.

E. A. Morris, retired, who lives on Park avenue, and is well known to Pendleton people, says: "I was troubled with my kidneys off and on for three years. In early days, I had worked in a shirt factory in Rockford, Ill., standing all day at a bench and later on I became a motorman on an electric car. That, too, kept me on my feet all day and aggravated my complaint, if it did not start it. It annoyed me through the day more than at any other time. I finally got a box of Doan's Kidney Pills at the Pendleton Drug Co.'s store and used them. They cured me. I have not had even the slightest attack of back-ache for five years, nor have I used any pills since I stopped the treatment last October."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., New York, sole agents for the United States. Remember the name—Doan's—and take no other.

GENERAL NEWS.

The Lotus club, a New York city social organization membered exclusively from the multi-millionaire class, will during the coming summer move into a club house costing when furnished, \$1,019,000.

Robbers attacked a government van laden with revenues, at Kutais Pass, Russian Caucasus. Three of the guard, including the treasurer, were killed by bombs. The robbers all escaped unhurt, with \$47,500.

Advices received from Chihuahua, Mexico, at El Paso, state that 35 persons—men, women and children—were killed at San Andoes, 20 leagues from there by the accidental explosion of a large quantity of dynamite.

W. W. Rose of Kansas City, Kas., who was twice elected mayor and twice removed from the office by the supreme court and fined \$1,000, for contempt of court, is trying for the office a third time, having just received the democratic nomination for the place. He evidently believes the third time is the charm.

A mass meeting in St. Mark's Episcopal church, Chicago, under the auspices of the Actors' Church union, unanimously passed a resolution to the effect that there should be no Sunday theaters. The preamble

states that as the profession is now treated an actor knows no such thing as a day of rest unless out of employment altogether.

It is interesting to note in connection with the death of H. Boyver McDonald, for a number of years chief clerk and parliamentarian of the United States senate, that the position he occupied had been filled previously by his father and his grandfather. All three had likewise filled the position of journal clerk in the senate.

The California senate and assembly have passed a bill prohibiting fraternities or secret societies in the public schools. The bill will receive the governor's signature. Educational authorities in that state claim that the school fraternities are a pest, pure and simple—subversive of discipline and opposed to a high standard of scholarship.

F. T. Kuranaga, one of the richest Japanese in California and prominently connected in Japan, was arrested on California street, San Francisco, and locked up on the charge of obtaining \$21,500 under false pretenses. Five banks claim they were victimized by Kuranaga, as follows: American National bank, \$10,000; Japanese Bank of America, \$4,000; Japanese Bank of San Francisco, \$4,000; Yokohama Specie bank, \$3,000; Kimmon Gynko, \$500.

West Virginia is among the states that have fallen into line with an anti-lobbying bill. The measure introduced in the legislature of that state provides that firms and corporations having agents working for or against legislation must file with the secretary of state previously to the session the name of such agent and legislation affected with a fee of \$10. Penalties are provided for failure to do so.

Mrs. Annie Kern, an Irish woman aged 35 years, has been sent to an asylum from Spokane. Among her hallucinations is that she has been given the flesh of her dead husband to eat; also that a Chinaman is to make her a present of a 3-month-old baby.

There are nine cases of smallpox quarantined at Wallace, Idaho, and Dr. Quigley, the city health physician, is frank enough to express the opinion that there will be more. The schools have not been dismissed but all the school houses were thoroughly fumigated on Saturday and Sunday.

The price of butchers' stock around Washburn, Wash., is soaring. Most ranchers who raise cattle for sale are holding out for 5 cents, and the indications are that butchers will be paying that price before grass fed beef comes on the market. W. A. Gilderleeve & Co. bought in the Pomeroy country a carload of fat hogs at 7 cents, a carload of fine grain fed cattle at 2 1-2 cents and a carload of steers for 5 cents.
