## SUNDAY REST LAW

NOTHING EXCEPT NECESSARY SUNDAY BUSINESS

Saloons, Theaters, Skating Rinks, Merry-Go-Rounds, Race Tracks, Dance Houses and all Forms of Amusement of This Sort Must Suspend on Sunday—The Necessary Business Institutions May Remain Open.

The following brief review of the Sunday rest law just passed in Idaho is from a circular sent out by the Reform League of the Pacific coast, and gives the provisions of the new law which will go into effect this spring, as follows:

The Reform Bureau of the Pacific coast district drafted the Sunday rest bill and was instrumental in securing its passage by the legislature of Idaho. Dr. G. L. Tufts, the district superintendent of the bureau, gave the movement his personal attention. The bill was passed by a vote of 33 to 14 in the house and 15 to 4 in the senate. It will go into effect the second Sunday of May. As it is a law which concerns the public at large, we call attention to its leading provisions.

It shall be unlawful for any person to keep open on Sunday for the purpose of any business, trade or sale of goods, wares or merchandise any shop, store, building, or place of business whatever; except hotels and restaurants for furnishing lodging and meals, livery stables, stores for the sale of medicines or sick room supplies, undertakers, news stands for the quiet sale and delivery of daily papers and magazines, and the law does not apply to the sale of non-intoxicating refreshments, candies and cigars.

The penalty for violation of the above provision is a fine of \$25 to \$100, or imprisonment not to exceed thirty days, and upon a second conviction by both fine and imprisonment.

It shall be unlawful to keep open on Sunday any saloon or place of any kind or description in which spirituous, vinous, malt or any intoxicating liquors are at any time sold or exposed for sale; or to give, or sell or otherwise dispose of any spirituous, vinous, malt or any intoxicating liquors except for medicinal purposes; or to keep open any theater, play house, dance house, race track, merry-go-round, circus or variety hall or any such place of public amusement.

The penalty for the violation of this provision is a fine of \$50 to \$250 for each offense, and imprisonment not to exceed ninety days, and upon a second conviction the revoking of the license for two years for maintaining such place of business.

The law makes it the duty of each prosecuting attorney, sheriff, constable, city or town marshal and all other public officers of the state to inform against and prosecute all persons guilty of violating this act; and any officer who refuses or willfully neglects to do so shall be subject to a fine of \$50 to \$500, and his office shall be declared vacant for the remainder of his term.

The enactment of this law leaves California as the only state of the Union without such legislation.

## MRS. SAGE PLANS GIGANTIC CHARITIES

Mrs. Russell Sage, through her counsel, Attorney Henry W. DeForest, has authorized the following statement in relation to the Sage foundation, a bill for which has been introduced in Albany. It embraced the first great public gift of the Sage millions.

I have set aside \$10,000,000 for the endowment of this foundation, says the statement. Its object is the improvement of social and living conditions in the United States. The means to that end will include research, publication, education, the establishment and maintenance of charitable and beneficial activities, agencies and institutions, and the aid of any such activities, agencies and institutions already established.

It will be within the scope of such a foundation to investigate and study the causes of adverse social conditions, including ignorance, poverty and vice, to suggest how these conditions can be remedied or ameliorated, and to put into operation any appropriations to that end.

While its scope is broad it should preferably not undertake to do what is now being done or is likely to be effectively done by other individuals or other agencies with less resources.

In some instances it may wisely initiate movements with the expectation of having them maintain themselves unaided after once being started. In other instances it may start other movements with the expectation of carrying them.

While having headquarters in New York city, where Mr. Sage and I have lived and where social problems are most preying and complicated, by reason of its extent, and partly because it is the port of entry for 1,000,000 emigrants a year, the foundation will be national in its scope and activities. I have sought out men and women who are familiar with social problems and who can bring

to their solution not only zeal and interest, but experience and judgment.

### Saved Her Son's Life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure, by Tallman & Co., druggists. 50c and \$1.00. Trial bottle free.

After deliberating 24 hours at Ellensburg, Wash., the jury in the trial of Felix Lehouder for the murder of Frank Glovin was discharged. Judge Kauffman said the county would be put to the expense of another trial at the next term of the superior court. The prisoner was charged with the murder of a companion at Roslyn, several months ago, where they were employed in the mines.

### GENERAL NEWS.

The "army of pacification" sent to Cuba last fall, and its maintenance till March 15 has cost the United States \$2,500,000, all of which it is supposed Cuba will repay at some future date.

President Roosevelt was urged to be a candidate for another term by the Swedish-American Republican League of Illinois, at its recent convention held in Rockland. Resolutions were adopted commending his administration and praising his statesmanship.

Harry Reynolds, accountant at the First National bank at Chicago, has broken the world's record of which he is the holder, by adding and listing five hundred checks for various amounts in seven minutes, ten seconds. His previous record was nine minutes, 32 seconds.

The counting of the \$62,000,000 in the Chicago subtreasury to determine if the shortage of \$173,000 discovered February 26 was due to a mistake in bookkeeping, was finished without the discovery of anything to explain the shortage other than that the money had actually been stolen.

The recent death of former Senator Pugh of Alabama removed one of the few survivors of the Confederate congress. The living ex-members, so far as known, are only five. They are John V. Wright, John D. C. Atkins and Arthur S. Colyar, all of Tennessee, and two Virginians—General Roger A. Pryor, now practicing law in New York, and John Goode, former member of congress, now a resident of Washington.

It is an interesting fact that Ohio has furnished eight governors of Colorado. The list begins with Gen. J. W. Denver, Colorado's first governor and in honor of whom the capital city is named. The other Buckeyes who became governors of the Centennial state were Robert W. Steele, John Evans, General Edward

### WIND MILL TEST TO BE MADE.

Government Will Irrigate Dry Lands by Pumps.

Dr. Elwood Mead, expert in charge of the irrigation investigations of the department of agriculture, is in the city visiting the irrigation offices here. He is on his way to the University of California, at Berkeley, says the Cheyenne Tribune. To a Tribune representative this morning Prof. Mead discussed the work to be done by his department in Wyoming this year.

At the government station near this city quite extensive experiments will be carried on in irrigation, this being made the main station for wind mill tests. Ten or a dozen wind mills will be installed at the farm and exhaustive tests will be made of the respective pumping ability of the mills as a means of providing water for irrigation work. The work done at the station will be along the same lines as last year, but more extensive.

At Newcastle another station has been located and at that place experiments will be carried on in pumping engines using gasoline and coal oil, alcohol engines being tested in the east.

### Searching for an English Heir.

Herman Rothchild recently received a letter from a Portland attorney, inquiring after one John Murphy, who was last heard of in North Powder in 1891. It has been learned that Mr. Murphy's real name was Reginald W. Briscoe. The letter stated that Mr. Murphy is an Englishman with a title and he is sought for by English friends who wish him to know of a large estate which he has inherited there. Mr. Murphy is supposed to be living somewhere in eastern Oregon. — North Powder News.

### Worked Like a Charm.

Mr. D. N. Walker, editor of that spicy journal, the Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at Tallman & Co.'s, druggists. 25c.

The jury at Grangeville, Idaho, before whom Edward Wiley, aged 65, was tried for complicity in the murder of Swan Knudson, August 17, 1901, disagreed and was discharged. Seven young men on the jury voted to convict, while the five old men on the jury refused to vote otherwise than for acquittal. The aged jurors said after being discharged that they could not find it in their hearts to send a man older than they to the penitentiary, fearing he would die before he could serve out the sentence, even if only of short duration.

### NORTHWEST NEWS.

Governor Gooding has ruthlessly slaughtered by veto every bridge appropriation bill passed by the Idaho legislature. Altogether the legislature had tried to appropriate \$52,000 for various local projects for bridging streams.

A contractor at Sandpoint, Idaho, doing private work, set off a dynamite blast which not only did what it was expected to, but also tore the city water main in two, cutting off the water supply for a day and causing the loss of several million gallons of water.

The recent policy of enforcing the Sunday closing law at Seattle against the saloonmen, has resulted in retaliation, and all the managers of the seven theaters in that city are now under arrest on exactly the same charge, at the instance of A. Gerbel, secretary of the Seattle Retail Liquor Dealers' association.

Charles Anderson, a mining expert, was instantly killed in the mines of the Bridger Coal company in Carbon county, Montana, through a singular accident. The handle of the electric machine became charged, and in touching it, Anderson received a shock which threw him on a chain and he was carried to his death between the chain and machinery.

The Gem hotel at Van Wyck, Idaho, was entirely destroyed by an incendiary fire at 3 o'clock in the morning. The entire contents of the building were also consumed. A number of guests in the hotel barely escaped leaving their apparel behind. E. M. Whiteley, the proprietor, was slightly injured. The loss of the building and furniture is estimated at \$3000, with \$1500 insurance.

A number of Nez Perce, Idaho, farmers pooled their hogs, amounting in all to seven carloads, which were bid in by George Sullman for an outside firm at \$7.10 per hundred pounds. The excellent price for the porkers is very encouraging to the prairie farmers and the bidding was spirited, a number of buyers taking part. The pool system has received a great impetus and encouragement from this incident.

# GAS! GAS!

SUMMER AND THE HOT WEATHER WILL BE HERE BEFORE YOU ARE AWARE OF IT, AND IF YOUR KITCHEN IS NOT ALREADY EQUIPPED WITH A GAS RANGE, BY ALL MEANS DON'T DELAY IT MUCH LONGER. OUR ORDERS ARE NOW COMING IN VERY RAPIDLY. GET IN YOUR APPLICATION FOR GAS.

## Clean! Economical!

GAS IS BY FAR THE MOST ECONOMICAL FUEL ON THE MARKET. THE GREATEST ARGUMENT IN ITS FAVOR IS THAT YOU CAN HAVE THE HEAT WHEN, WHERE AND AS LONG AS YOU WANT IT. NO HOT ROOMS IN THE SUMMER TIME. THEN THERE IS NO DIRTY WOOD OR COAL TO BE CARTED AROUND AND CLEANED UP AFTERWARD. GAS IS PIPED RIGHT INTO YOUR STOVE. A TURN OF A VALVE AND A SCRATCH OF A MATCH TELLS THE WHOLE STORY OF GAS COOKING.

Gas for Heating and cooking cost \$2.00 per 1000  
Average cost per month, about \$3.00
