NEW LAW CONCERNING TIME CHECKS

At the request of local business men the law passed by the recent legislature regarding the issuance of time checks, is here given in full:

The title of the law is "An act to prohibit the issuance of non-negotiable acknowledgements of indebtedness in payment for wages due employees, and providing how acknowledgements of such indebtedness shall be paid, and providing for the collection of reasonable attorney's fees in actions to recover wages."

Section 1. No person or corporation engaged in any business or enterprise of any kind in this state shall issue in payment of or as an evidence of indebtedness for wages due an employe, any order, check memorandum or other acknowledgement of indebtedness, unless the same is negotiable and is payable without discount in cash on demand at a bank or any other established place of business in the county where the same is issued; and such person or corporation shall, upon presentation and demand, pay any such order, check or memorandum or other acknowledgement of indebtedness, in lawful money of the United States. Provided, however, that nothing herein contained shall in any way limit or interfere with the right of any such employe to accept from any such person or corporation, as an evidence or acknowledgement of indebtedness for wages due him, a negotiable instrument, payable at some future date with interest.

Section 2. In any action for the collection of any such order, check, memorandum or other acknowledgement of indebtedness, or in any action by an employe against an employer for the collection of wages, if it is shown that such order, check, memorandum or other acknowledgement of indebtedness, or said wages were not paid for a period of 48 hours after proper demand for the payment thereof, the court may in its discretion, upon entering judgment for the plaintiff, include in such judgment in addition to the costs and disbursements otherwise prescribed by statute, a reasonable sum for attorney's fees for prosecuting said action.

As the law does not contain the emergency clause it will not be in effect until 90 days after its approval by the governor.

SHEEP RANGE EXPERIMENTS.

Wyoming Sheepman Will Fence and Subdivide His Entire Range.

A new idea in sheep raising is to be adopted this summer by Mr. Framel, a prominent flockmaster near Sundance, which will be watched with interest all over the west and promise some unique results, says the Cheyenne Tribune.

Mr. Framel has acquired a large acreage near Sundance mountain and will enclose the tract with barb wire, making it so tight that the sheep cannot get through nor wolves or coyotes enter the great pasture.

The range will be sub-divided in order to provide occasional changes of feeding ground for the flocks. The experiment has apparently been well figured out in theory and should work out successfully in practice.

Conditions of this nature are being brought about by the rapid settlement of the state, which is cutting down the open range.

IN FEDERAL COURT

INDIAN LITIGATION HAS HERETOFORE BEEN LOCAL

One Hundred or More Decrees by Circuit Judges Will No Longer Hold—A Term of Federal Court in Pendleton Now Becomes Imperative, as the Reservation Lawsuits Demand it, Both by Importance and Frequency—Kalyton Case Decided.

As a result of the recent decision of the United States supreme court in the Kalyton case, an immense amount of work that in the past has been handled by the local circuit court will now devolve upon the federal court. By the terms of the decision given the federal courts are given sole jurisdiction in cases concerning Indian allotments, and in consequence the past decisions given here by the circuit judges will no longer hold. There are said to be 100 or more such decrees already on file. Aside from these a number of cases are now pending in Judge Bean's court, and there are scores of disputes that have not yet been taken into court.

In view of the extra work that will fall upon the federal court from this county, local lawyers declare that a term of court in this city will become almost absolutely necessary hereafter. Also, it is believed the decision will have the effect of aiding the proposition of establishing a new district for eastern Oregon, with Pendleton as headquarters.

The first full text of the Kalyton case decision was received here several days ago by R. J. Slater, who was attorney for the plaintiffs in error. The decision reverses the decision of the supreme court of Oregon, and orders that the cause be remanded back to that tribunal for further procedure not inconsistent with the decision just given.

The Kalyton decision was given by Justice White and Chief Justice Fuller, Justices Brewer and Beckham dissenting.

Glee Club to Irrigon.

AND STILL THEY GO

One more beautiful piano has been delivered to a music loving home in Pendleton. The big sale still continues. If the Pendleton people realized what prices are being made on pianos at this time they certainly would not delay a moment if they ever expect to purchase. You have only 20 days more in which to make up your minds what you will do. Why do you not come in now and buy? Your child needs a piano and a good many of you are able to buy a piano and it certainly seems right that you should take advantage of this great opportunity. At this time you can buy a beautiful instrument for from 20 per cent to 30 per cent cheaper than you have ever bought before or than you will be able to buy after the 10th of April for our prices positively will go back to a normal state after that time.

We still have a few beautiful ones left and hope that you will at once call and select something that will please your children and make your home seem more like home, for no home is complete without a nice piano. Our terms are wonderfully reasonable and any one can buy the way we are offering pianos now.
