

NEWS OF MILTON

SITE FOR SUB-STATION FOR ELECTRIC LINE SELECTED

Will Be Near the City's Electric Plant—Ten Thousand Dollar Hotel Will Be Built Here This Season—Walla Walla and Local Baseball Teams Will Play Today—Miss Dykes Improving in Health.

A game of ball will be played in Milton this afternoon between the Lincoln team at Walla Walla and the local team, which promises to be well attended. Both teams are in practice and a good game is expected.

Miss Jennie Dykes, who has been confined to her home for several days on account of illness, is considerably improved.

A committee of the city council has been appointed to look after the new hotel project. There is no doubt but that a \$10,000 hotel will be under course of construction in Milton before long.

The Walla Walla Traction company, which is building an electric line through here from Walla Walla, has accepted the city's proposition in regard to the sub-station to be situated near the city plant. The company, however, wanted a larger tract than the city stipulated, but it was finally agreed upon. The matter will be definitely arranged at a meeting Monday evening.

Adams, March 22.—H. A. Richardson, the well known merchant at this place, purchased the bankrupt Miller stock of groceries at Pendleton a few days ago, and will have the same moved here at once. Wm. Edmiston has leased the

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

barber shop south of the Winn Implement store, and a barber from Pendleton will be here to conduct the place.

Wheat Looks Fine. Wheat never looked better than it does at this time in the vicinity of Adams, and an excellent crop is predicted this season.

SMYTHE HAS RETURNED.

Denies Story of Untimely Death—New York Larger Than Chicago.

Don P. Smythe, now commonly known as Charley Ross, has arrived home from an extended trip through the east, which he took after attending the meeting of the stockmen's committee in Washington. He reached the city on the 5:30 train from Spokane last night and has now entered upon his duties as sheep commissioner to which he was appointed by Governor Chamberlain during his absence.

After finishing his work in Washington Mr. Smythe visited in some of the southern states, passed a week or more in New York and also at various places of interest on his way westward. He declares that he enjoyed his trip greatly, especially his stay in New York, which place he says is a good town and larger than Chicago. He was much astonished on returning home to find that his parents and friends had been alarmed over his absence and he denies the various stories regarding his untimely death.

LAST COMIC OPERA OF SEASON.

An Excellent Composition With Indifferent Presentation.

Last night Pendleton saw its last comic opera for this season. It was the "Tenderfoot" with the famous Oscar Figman in the leading role. In the past Figman has had a reputation here, and many were there last night because his name was upon the boards. And the performance given was appreciated and laughed at.

But the show was not what was expected of Oscar Figman. He was chased by a "cowlet," said many clever things and was the life of the play. But with the bunch about him last night he did not appear to the advantage he has upon former occasions. To say that the support was weak for such a high grade play as the "Tenderfoot" is putting it mildly. Several of those in the cast were here last fall with the Zinn Travesty company and some of the rest had apparently been recruited from similar aggregations.

The "Tenderfoot" was not greeted with any stormy appreciation, and there are few who enjoyed the play as well as they did Max Figman when he appeared here in "The Man on the Box" last fall, despite the fact that the reputation of Oscar Figman has previously been greater than that of his brother.

Churches

Presbyterian Church.

Morning worship at 10:30. Sermon, "Jesus Christ, the King of Kings." Special music, "Festival Jubilate," arranger from W. F. Francis. Bible school at 12. Young people's meeting at 6:30. FIGHTING BOOK TRUST.

Baker City Book Stores Appeal to Text-Book Commission.

The retail dealers in school text-books will ask the state text-book commission to protect them from the ravages of the publishers when that body meets this year, says the Baker City Herald. They claim that they are being held up and made to sell text-books at a loss to satisfy the cupidity of the wholesalers.

Under the law as it now exists the state text-book commission, which considers changes in books every six years, fixes the rate at which these books may be sold. Publishers give the retail dealers 12 1/2 per cent off from this price. The retail dealer pays the expressage and all incidental charges, and when the operating expenses of conducting his store are figured in, it costs about 15 per cent to handle the books, or 12 1/2 per cent less than the cost price.

Dealers all over the state are up in arms over this outrage, that they term the action of the publishers, and some kind of concerted action will be taken to force them to give the retailer a chance to live.

"We do not ask that the price on text-books be raised," said Carl Adler today; "all we want is that the publisher share up the profits with us, and not compel us to sell at a loss. We are going to bring the matter up before the commission this year, and present the case impartially before them; so that there will probably be a change made in our favor as a result."

The first British journal entitled to be called "a daily" was the Daily Courant, issued in London March 11, 1702, by "E. Mallet, Against the Ditch at Fleet Bridge." It was a single page of two columns and professed to give only foreign news. The editor assured his readers that he could not take upon himself to give any comments of his own, "supposing other people to have sense enough to make reflections for themselves." The Daily Courant was in 1735 absorbed by the Daily Gazetteer.

In the British Columbia legislature a bill to make compulsory the eight hour day in smelters of that province was passed unopposed. The bill was introduced by the socialist leader, Hawthornthwaite, who, two years previous to this, had also introduced this bill. The first year it was opposed by the government, under the leadership of MacDonald of Rossland.

PIANO TALKS

Visit a reliable house that carries a piano of established prestige. Have the salesman present the merits of this instrument. Then go to stores where only very ordinary grades are carried. The claims for these pianos will, in most cases, be practically the same as those expressed for the fine piano. Such claims are simply a challenge to your common sense. Test the tone quality and the action of the different instruments; examine their workmanship, and you will require no further evidence of the difference existing in pianos.

The fact is—there are poor pianos, good pianos, high-grade pianos and artistic pianos. The responsible house will carry a complete line of reliable grades and show you plainly where they differ. Then it is simply for you to choose the one you best can afford to buy. Our policy is to serve all classes of patrons who want the best piano value for the money they have to spend. We have low-priced, medium-priced and high-priced pianos. We can demonstrate that every instrument we offer is the best that can be given for the money, and we make no claims that are not justified.

WE HAVE FIXED A PRICE FOR EACH GRADE OF PIANO AND EVERY INSTRUMENT HAS A TAG SHOWING ITS PRICE—ITS ACTUAL VALUE.
