

SOCIETY EVENTS

Everyone is happy because the spring is here. The trees are putting out their little red leaf buds, the shrubs are budding, too. If the cold north wind will spend his time in some other part of the globe for a while, and leave the warm sun to do his work, we shall soon see nothing but leaf and bloom all around us, and the air will be filled with the song of the birds. The past few warm days have acted like a tonic to us all.

"Whatever the weather may be," says he, "Whatever the weather may be, it's the song ye sing and the smiles ye wear. That's a-makin' the sun shine everywhere."

RIGHT BREATHING CURES CATARRH

Simple Way to Kill Catarrhal Germs in Nose, Throat and Lungs.

If you cut your finger, you don't attempt to heal it by swallowing a pill or a dose of medicine.

It is just as foolish to try and cure catarrh of the nose and throat with pills and stomach dosing, for catarrh is a local disease and needs special local healing treatment.

The only natural and common sense method known for the cure of catarrhal troubles is Hy-o-mel. It is breathed through an ingenious pocket inhaler, so that its medicated air reaches the most remote air cells of the nose, throat and lungs, killing all catarrhal germs, soothing the irritated mucous membranes, and restoring a healthy condition.

If you suffer from catarrhal troubles, such as offensive breath, raising of mucus, frequent sneezing, husky voice, discharge from the nose, droppings in the throat, loss of strength, spasmodic coughing, or a feeling of tightness across the upper part of the chest, you should begin to use Hy-o-mel at once. It will destroy all disease germs in the nose, throat and lungs, and provide the blood with additional ozone.

The complete Hy-o-mel outfit with inhaler costs but \$1.00. So strong is Tallman & Co.'s faith in the power of Hy-o-mel to cure all catarrhal troubles, that with every dollar outfit they give an iron clad guarantee to refund the money unless the remedy gives satisfaction.

to You**

Remember you are not
building for a few years, but
probably for a lifetime. It
costs no more to have your
home planned and built artis-
tically, convenient and well
arranged and lasting than it
does to simply have a place
in which to live.

I have cement blocks, in all sizes and shapes, for building purposes. They are
much more substantial, and prettier than either rock or brick.
