PENDLETON'S GIFTS.

It may seem incredible, but a list of the public subscriptions which have been raised in Pendleton and the immediate vicinity in the past year, shows that almost \$60,000 have been subscribed to the various funds raised here in that time.

Last year almost \$5000 was raised for the San Francisco sufferers; \$2000 for Fourth of July celebration; \$5000 for repairs to the Presbyterian church; \$25,000 for the construction of the new M. E. church; \$4000 for the county fair; \$10,000 for Pendleton academy and numerous smaller contributions to different funds.

Practically all of this vast sum has been subscribed within the city limits of Pendleton.

And nobody has missed the money subscribed to these funds. Everybody is prosperous and glad to give.

This is but an illustration of the demands made upon business institutions in the course of the year, aside from the regular expenses which must be borne. Pendleton is proud of the record. She is ready to repeat it next year if necessary.

THE FIVE-ACRE FARM.

To a wheat farmer with a section of land to farm each year, a five-acre irrigated farm is not worth considering. Five acres seems such an insignificant tract of land to the big farmer. It is scarcely large enough to turn a combined harvester, and 30 horses around upon, and would not make a respectable stack yard under any circumstances.

But under the new dispensation in eastern Oregon farming, under the code of rules of the Irrigationist, a five-acre tract is sufficient. Of course on this five-acre tract there

will be no vacant fence corners, no wide boulevards, no waste places.

On every foot of it something will be growing and producing crops. Berries, fruit trees, vines, garden plants—every possible space will be productive. Every foot of land will yield something.

On five-acre tracts near Millican, Freewater and Walla Walla large families are supported and money is deposited in the bank every year. The same can be done in the west end of Umatilla county. On the government irrigation project, on the Furnish project, on the Brownell project, on all the irrigated land west of Pendleton, as well as in the east end of the county, families can live well and put away money on the small tract.

In Yakima valley men are getting rich raising cantaloupes. They are becoming independent on small tracts in tomatoes. Potatoes are making dozens of families rich in that section. Watermelon crops yield handsome incomes and other irrigated crops are profitable resources.

The same conditions will prevail in the west end of Umatilla county. The climate cannot be surpassed there. The elevation is but 300 to 400 feet above sea level and the main line of a transcontinental railroad passes through the heart of the country.

Hermiston and Umatilla should supply Portland and Puget sound markets with early watermelons this year. There is a wonderful future for the Umatilla deserts when the right kind of people comes to unlock its treasure.

LA FOLLETTE FOR THIRD TERM.

Senator Robert M. La Follette of Wisconsin, who will lecture in this city on Monday evening on the political issues of the day, is in favor of another term for President Roosevelt and gives his views on this subject to the Butte newspapers as follows:

If the railroads purpose to encompass the retirement of Theodore Roosevelt, they are going at it in a manner that will not succeed, says Senator La Follette. In other words, they will force him to accept a third term, if I am correctly informed as to the actions of Harriman and his associates.

Abusing Theodore Roosevelt will not help their cause with the people and, after all, it is public sentiment that rules this nation. By antagonizing him, questioning his motives and impugning his faith, they will make him renounce his former declarations not again to be a candidate and make the race for vindication.

And besides, he should run again on general principles, anyway. It will not in reality be a third term, for the first three years he served as our chief magistrate he essayed and did carry out the policies of the lamented McKinley. It has been only during the present term that he has promulgated and is carrying out his own ideas and plans. As I said before, he is in the right, absolutely in the right, from my viewpoint.

The president is entitled to another term and, what is more, the people are entitled to Roosevelt. He must again be a candidate, and his nomination is the equivalent of an election. The needed reforms he has inaugurated must be carried out and he is the one man to do it.

The East Oregonian believes that there are more women actively engaged in charitable and intellectual spheres in Pendleton than in any other city of its size in the northwest. Aside from the active women's clubs which have a combined membership of over 100, there are perhaps 250 women in church work who devote much of their time to charity and relief. The

JUDGE OF THE SUPREME COURT Suffered Four Months From the After-Effects of the Grip--Relieved By Pe-ru-na.

The grip more than any other disease in the world leaves the system in a run-down, nervous, bloodless condition.

Peruna has become famous in relieving the deplorable condition which the grip produces

Catarth Victims Susceptible.
People who have had catarth of the head, throat, nose or lungs are much more liable to catch the grip than other people.

The reason for this is that the mucous membranes of the head, nose, throat or lungs are injured by the catarth and the germs which cause the grip find easy entrance into the system.

It is a well established fact that perfectly sound mucous membranes constitute a barrier to the entrance of disease germs.

The best precaution any one can have against the grip is to be perfectly free from catarth.

Peruna a Preventive.
As a preventive of grip, Peruna has done a great deal of good in the world by its beneficial effect upon the mucous membranes.

Catarth has another untoward influence to be noticed in connection with the grip.

Victims of catarth who have had the grip find themselves after the acute stages have passed, in very weakened and deplorable conditions.

After-Effects of Grip.
The whole nervous system is impaired; the digestive organs deranged; the circulation of the blood feeble and irregular. All these symptoms are produced, more or less, by the grip, and especially in people who have had catarth previous to the grip.

women's clubs conduct regular programs every week in which a vast amount of actual literary work is done and aside from this the clubs take an active part in aiding the public schools and in bettering civic conditions. The women of the various churches here are extremely active in charitable work and are well organized. About 35 women are engaged in teaching in the various schools and academies of the city.

W. H. Parsons is Ex-State Senator and Ex-Special Judge of the Supreme Court of Texas, and was also Brigadier-General in Confederate Army. In a letter from 925 H street, N. W., Washington, D. C., this prominent gentleman says:

"Upon the recommendation of personal friends and many strong testimonials as to the efficacy of Peruna in the treatment of the numerous symptoms of the grip with which I have been afflicted for four months past, I have been induced to undergo a treatment with this justly celebrated formula. I feel a decided change for the better after using it only one week.

"It is especially good in toning up the stomach and has a decided effect upon my appetite. I therefore feel much encouraged that I am on the road to complete restoration."

"My numerous friends in Texas, where I have had the honor to command a brigade of her Veteran Cavalry in a four years' war, may accept this voluntary testimonial to the merits of Peruna as a sense of obligation on my part for its wonderful efficacy."—W. H. Parsons.

It is no longer merely a theory or an assertion that Peruna is applicable to such cases.

Prompt Relief.
In all of the after-effects of the grip, Peruna gives prompt relief. This has been the experience of such a great multitude of people that Peruna has come to be a standard remedy for these cases.

If a person has not used Peruna to prevent the grip, the next best thing is to use Peruna to remove the after-effects of the grip.

A Safe, Reliable Remedy.
Even during the acute stages of the grip, Peruna taken in small, oft-repeated doses, is so efficient that many people use nothing else.

A Most Effective Medicine For La Grippe.

Robt. L. Madison, A. M., Principal of Cullowhee High School, Painter, N. C., is chairman of the Jackson County Board of Education. He is a writer of occasional verse and has contributed a number of leading papers and magazines.

In speaking of Peruna, Mr. Madison says: "I am hardly ever without Peruna in my home. It is the most effective medicine that I have ever tried for La Grippe. It also cured my wife of same."

Cook With Gas

SUMMER AND THE HOT WEATHER WILL BE HERE BEFORE YOU ARE AWARE OF IT, AND IF YOUR KITCHEN IS NOT ALREADY EQUIPPED WITH A GAS RANGE, BY ALL MEANS DON'T DELAY IT MUCH LONGER. OUR ORDERS ARE NOW COMING IN VERY RAPIDLY. GET IN YOUR APPLICATION FOR GAS.

GAS IS BY FAR THE MOST ECONOMICAL FUEL ON THE MARKET. THE GREATEST ARGUMENT IN ITS FAVOR IS THAT YOU CAN HAVE THE HEAT WHEN, WHERE AND AS LONG AS YOU WANT IT. NO HOT ROOMS IN THE SUMMER TIME. THEN THERE IS NO DIRTY WOOD OR COAL TO BE CARTED AROUND AND CLEANED UP AFTERWARD. GAS IS PIPED RIGHT INTO YOUR STOVE, A TURN OF A VALVE AND A SCRATCH OF A MATCH TELLS THE WHOLE STORY OF GAS COOKING.

Gas for Heating and cooking cost \$2.00 per 1000. Average cost per month, about \$3.00
