Osteopathy ECHO NEWS NOTES

WHY PUBLIC ACCEPTS IT—LOWER CASE.

America is now in a general revolt against confidence in men. The Missouri axiom, "Show me," is fast becoming the dictum of the public.

The confidence in men on which the older systems of healing have relied for their hold upon the public, has not escaped this general assault. People are asking when told that this or that will cure them, "How will it do so and why?" Out of this "How" and "Why" osteopathy has gotten its hold upon the public. No creditable osteopath takes a case that he can not show how and why he expects to get results. If he finds a sufficient cause for the ailment, he takes pains to show what that cause is, and gives the patient evidence that he may know it. The most unsatisfactory patients an osteopath gets are those who come simply because osteopathy cured some one and do not or cannot understand why it should or should not cure them.

Results cannot always be obtained immediately, and this class is a discontented one and annoying. But let one become interested in his own case, see the cause, and he understands what the doctor is trying to do for him. He is the satisfactory patient to treat. He is the patient who brings more patients and spreads the truths with the public. This is the way osteopathy has gotten its hold. Credulity is being obliterated, people are "being shown."

Echo, April 13.—Sheep shearing is going on in full blast in the vicinity of Echo. Jake Watenberg of Heppner, put his machines at work in the Butter creek country yesterday, at the Whitehouse ranch, where about 25,000 head will be sheared at once. A large number of sheep shearers are now in the country. This is only a small part of the sheep that will be sheared in this vicinity, many of the shepherds having already hauled considerable wool to the Echo warehouse. The fleeces are said to be in excellent condition.

W. H. Boyd, the well known merchant at this place, left Tuesday for Salt Lake city, where he expects to remain several weeks on business.

Mrs. E. D. Graves is visiting with relatives in Iowa for several weeks. Mrs. A. B. Benedict is quite seriously ill with congestion of the lungs, and has been brought in from that place for treatment.

Miss Pearl Carlisle of Arlington, was in the city the first of the week visiting friends.

The old Koonitz mill is being thoroughly renovated, and will be overhauled and arranged for the coming crop of wheat which will be early in the fall.

Echo Will Have Opera House.

The Odd Fellows hall at this place has been enlarged and repainted, and a 16-foot stage has been added, and it will hereafter be used as an opera hall. Echo has been in need of an amusement hall for some time, and it will fill a long felt want.

J. F. McNaught, Mr. Morgan and Mr. Brittan, of Hermiston, were in Echo yesterday on a brief business trip.

R. M. Dyer of Seattle, vice president of the Puget Sound Bridge and Dredging company, was in Echo the first of the week looking after the interests of the company.

Mrs. L. A. Esteb tendered the members of the city council a luncheon after council meeting a few evenings ago, which was highly enjoyed by all of them.

A number of the Echo residents

have been getting out trees of late, and the front of business houses are also being adorned, among them being the office of Louis Scholl and the Hotel Echo.

Cattle Shipped.
Three carloads of cattle have just been shipped out, which were purchased of R. N. Stanfield, the well known cattleman. They were sold to Harvey & Harris, and were shipped to Alaska. They will be driven over a trail 200 miles after leaving the railroad, and they will be killed in the fall.

Purchased Livery Stable.
J. W. Robinson has purchased the livery business of W. S. Williams, who has already taken possession. The deal was made through Louis Scholl, the real estate dealer.

Taking Gravel from River.
A large force of men are at work for the Puget Sound Bridge & Dredging company, taking gravel from the Umatilla river near this place. The cement work along the feed canal of the government ditch requires washed gravel, which heretofore has been shipped up from Umatilla.

Creamery Meeting.
At a recent annual meeting of the Columbia Creamery, T. G. Smith was elected director in place of H. T. Irvin. All other officers were re-elected for another year. The business has been successful during the first year of business in Echo, and it is probable that a number of improvements will be made in the near future, among them being the installation of an ice plant.
