BOYLEN IS NOW MISSING.

Queer Fatality Attends Upon Members of the Sheep Commission.

That Thomas Boylen, president of the Oregon sheep commission, is missing has become known and from appearances the mystery of his present whereabouts is as deep as that in which the fate of Dan P. Smythe was lately enveloped.

Mr. Boylen, who went eastward immediately after the recent sheep commission meeting here, was last heard from at Cheyenne, Wyo., on March 27. At that time he wrote Secretary Smythe that he would leave the following day for Merino, Col., and for Denver. He stated he would be back in this city by April 7 for the purpose of attending to matters under consideration by the sheep commission. Consequently he is now 16 days overdue and being unable to obtain any word from his colleague, Mr. Smythe has become seriously alarmed for his safety.

It has been the intention of the sheep commission to meet in Portland the latter part of this week, but the non-arrival of Mr. Boylen has made the meeting uncertain.

Lytle Is Cautious.

Least he should also become counted among the missing, Dr. W. H. Lytle, state sheep inspector, is declared by his fellow veterinarians to have maintained an eight-hour bulletin service with friends in this city while he was in western Oregon upon his recent visit. By means of the same he was able to sojourn without uneasiness on the part of his friends, wherein he has differed from the three members of the sheep commission, all of whom have been more or less badly lost since their appointments.

ANSWER IN EDDY SUIT.

All the Defendants Allege Improper Motives by Plaintiffs.

Concord, N. H., April 17.—An answer was filed this afternoon to the suit for an accounting of property. Mrs. Eddy not only denies most of the allegations, but declares the action was not brought in good faith.

Each defendant declares the action was brought without the consent or knowledge of Eddy. The charge was prompted by Mrs. Eddy's enemies for the purpose of bringing her and her principles into disrepute. They deny Mrs. Eddy's mind is, or ever was impaired.

SHEUERMAN WILL APPEAL.

Seek Reversal of Circuit Court in Supreme Court.

The Matlock-Sheuerman case, recently tried out here, is to be appealed to the supreme court by Jacob Sheuerman in an effort to have a new trial granted. An announcement to this effect was made today by D. W. Bailey, attorney for Sheuerman, who has already prepared the papers for the appeal and will file them this afternoon or tomorrow.

In the suit W. F. Matlock sought to recover \$400 from J. Sheuerman for a check for that amount which Sheuerman had given Lester Swaggart during a gambling game and afterwards stopped payment upon before the check had been presented for payment by Matlock. After listening to the evidence in the case the jury decided it in favor of Matlock.

The basis of the appeal to the supreme court is that since Sheuerman had asked Swaggart to wait for several days before presenting the check, and Swaggart had informed Matlock of that fact when he sold him the

check, the latter should have made inquiries concerning the status of the check. In the judgment of Mr. Bailey there is a good cause for appeal, and he is in hopes of having the decision of the lower court reversed.

According to Attorney Bailey, his client has also considered the proposition of suing Swaggart for the amount lost to him, or for twice that amount as he may do under the statutes. However, that matter will not be taken up until after the supreme court has passed upon the present case.

WOULDN'T EAT WITH ANKENY.

Senator La Follette Declined Proffered Hospitality of Washington Senator at Walla Walla.

When Senator Robert M. La Follette of Wisconsin reached Walla Walla yesterday after lecturing here on Monday night, he was invited by Senator Levi Ankeny to dine at the Ankeny home in the Garden City.

However the invitation was most politely declined, on the grounds that Senator La Follette was ill and could not accept either the hospitality of the Ankeny home, nor a proffered trolley ride to Milton on the new electric line.

Since Senator Ankeny voted against all of the La Follette amendments to the railroad rate bill and as his name appears on the wrong side of the roll call, it is thought that Senator La Follette gracefully declined the invitation of Senator Ankeny rather than accept his hospitality and then be compelled to class his host with the railroad corruptionists in his lecture.

GUNS NOW HERE.

Full Equipment, Excepting Uniforms, Ready for Company L.

Joy is now in store for the members of the local militia company over the arrival of the guns and other equipment from Portland. The entire outfit for the company, excepting the uniforms for the men, has arrived and this afternoon or tomorrow will be stored in one of the vacant rooms adjoining the armory. The guns will not be unpacked until the racks have been constructed inside the main room of the armory.

Tonight the first regular drill by company L will be held and the men given the preliminary instructions without arms. Last night a squad of experienced men was given a short drill so as to make the members proficient as drill masters. They will serve as such until the non-commissioned officers have been named.

Boise has imposed a tax of \$3 and \$5 upon dogs, and the poundmaster and marshal declare it will either be collected or there will be a wholesale decimation of canines.

Are Not Attempting to Create a Piano Stampede

We do not claim that the chance of a lifetime will be lost unless you buy at the present moment. We have no endless chain, red tape, loop-the-loop methods with which to hypnotize the public into a mad rush to catch on somewhere lest they miss the piano "chance of a lifetime."

We have built up our tremendous business by selling the very highest grade pianos on the lowest possible terms—and the same price to all customers—all the year around.

Our long list of standard makes are in so great a variety that you are sure to find just the piano to your taste and in accord with your pocketbook.

We have no special days or hours—we are always at home to you. Were it sold for less money it would mean that it was faulty in some vital spot.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

An old sore or ulcer is only a symptom, an outlet for the impurities and poisons which are circulating in the blood, and as long as this vital fluid remains in this impure and contaminated state the place will never heal. It may scab over and appear to be getting well, but a fresh outpouring of diseased matter from the blood starts it again, and thus it goes on, sometimes for years, continually growing worse, and slowly sapping away the strength and vitality of the sufferer.

There are many ways by which the blood may become contaminated and poisoned. A long spell of fever, or other sickness, breeds disease germs in the system, the failure of nature's eliminative members to remove the waste and refuse matter of the body, the excessive use of minerals in certain diseases, all infect the blood with morbid matter and germs, which sooner or later manifest their presence by a sore or ulcer which refuses to heal under the ordinary treatment of salves, washes, lotions, powders, etc.

A boil, blister, pimple, burn or even a slight scratch, often develops into a festering or discharging ulcer if the system is run down or the blood depreciated from any cause.

Persons with an inherited blood taint are very apt to be afflicted with sores and ulcers. Being born with an unhealthy blood supply, the different parts of the body are never fully nourished, and when middle life is reached or passed and the vigor and strength of the system begins to weaken and wane, the tissues in some weak point break down and a chronic sore or ulcer is formed, and kept open by the constant drainage of impure matter from the blood. How aggravating and stubborn an old sore can be is best known by those who have nursed and treated one for years, applying salves, washes, powders, etc., with no good results. The place remains and continues to grow worse by eating deeper into the surrounding flesh, festering, discharging, sometimes throbbing with pain, and gradually undermining the constitution by its unhealthy action on the system.

It is a great mistake to expect to cure these places with external applications. True this treatment assists in keeping the parts clean, and are beneficial in this way, but do not reach the real trouble which is in the blood. The practice of cutting out the diseased parts and even scraping the bone beneath, is often resorted to, but these severe measures seldom do any permanent good. The sore may be removed, and for a time heal over, but the same poison that produced it the first time is still in the blood, because **The Blood Cannot Be Cut Away, and The Sore Will Return.**

The only treatment that can do any real good is a competent blood purifier—one that goes to the very bottom of the trouble and removes the cause, and for this purpose nothing has ever been found to equal S. S. S. It goes down into the circulation, drives out all poison and morbid matter, reduces the inflammation, and by sending pure, rich blood to the diseased parts, instead of feeding them with impurities, allows the sore to heal naturally and permanently. Not only does S. S. S. purify the blood of all poisons and germs, but builds it up from its weakened and impoverished state, making it strong and healthy and able to supply every part of the body with sufficient and proper nourishment to keep it in perfect health. If you have a sore that is slow in healing, do not depend upon external applications alone, nor experiment with unknown medicines, but begin the use of S. S. S., and by removing every vestige of the cause, cure the trouble permanently. Special book on Sores and Ulcers and any medical advice desired sent free to all who write.
