FLOTO TALKS OF HIS CIRCUS.

Proprietor of the Big Show Which Comes Here June 1 Gives Some Interesting Details.

Otto Floto, proprietor and founder of the Sells-Floto circus which comes here next Saturday, June 1, in speaking of the circuit and its many genu-inely interesting features, says:

"Now let me tell you a few things about my show. You may have heard that there are some shows which advertise a herd of performing elephants and display one metheaten old bull with his tusks sawed off right behind his ears.

They advertise three rings full of spangled acrobats and turn up with half a dozen overworked tumblers who have to change costumes seven times in one afternoon, appearing as Russian equilibrists, German whiriwinds and Flying Floozies. They advertise representatives from every land and clime and make good with men from Indiana. This is not the way I run a show. I will not stand for my posters to lie to the public, and when you see it on the bill boards with the name Sells-Floro down in the corner, you can bet that it's so and it will come off exactly as adver-

grafters to take money away from the wise ranchers. I have no threeshell attachment and no gambling privilege. The peanuts which gentlemanly ushers pass around are real peanuts and there are real lemons in the lemonade.

"I advertise the best and cleanest show of its size in the country, and I believe I have it. I hire the best actors in the business and I pay them as much money as they are able to get with Barnum and Bailey. I advertise the smallest stallion in the world, twenty-six inches tall, the living watch charm, and I can produce The acreage in this county is proba-bly a little in excess of the average

"I saw a woman wet her finger and rub it over the black marks on one red up a bit of excitement Monday by of the Arabians. She thought the planetter dynamite under the O. R. color would run. PUNISH FIFTEEN VIOLATORS.

Making Prohibition Prohibit in Wallow County.

In a review of the work of the last session of the circuit court in Wallowa county, (derived posisbly from semi-official sources,) Grande Observer has to say: The violation of the prohibition lay

counts. With few exceptions all pleaded gullty and Judge Crawford fined them \$400 each for the first offense and \$100 each on the second, and sentenced them to 30 days in jail. The jail sentences were paroled pend-ing good behavior and the court admonished one and all that if they were again indicted for violating the prohibition law the extreme penalties

would follow.

District Attorney Ivanhoe stated that the prohibition forces in Wallowa county had secretly imported a detective from Portland to secure evdence, and when he appeared before the grand jury he submitted suffi-cient evidence in most all of the cases to secure conviction. As a resuit the general opinion regarding the law has been materially changed. The violations had been so fragmentary and the testimony submitted to the grand jury at the last session was of such a character that conviction was next to impossible that the peo-ple, continually seeing so mwany drunken men, were pronouncing the law a farce and were favorable to the old conditions as compared with present, but since this term of court, things are different.

The great majority of the people fa-vor the upholding of the law, providing it is enforced, and the way the officers handled these cases at this term of court has greatly changed the sentiment in favor of the present law.

My Best Friend.

Alexander Benton, who lives on Rural Route 1, Fort Edward, N. Y. says: "Dr. King's New Dircovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equaled it. Fully guaranteed by Taliman & Co., druggists. 50c and \$1.00. Trial bottle free.

Gold by a Filtration Process.

Former Governor W. J. McConnell, who recently returned from a nex-tended eastern trip, devoted his attention while away to looking up a new idea he has respecting the saving of values from ores which so often are carried off in slimes or in suspension in the water. His idea is to apply the principle of the filter for recovering such values. Re made extensive investigations of filtration while absent and is satisfied that values can be saved in that manner which escapes all other process-

The governor proposes to put in a filtration plant on the property he is operating 18 miles from Arco. The ores carry lead, silver and zinc. He will arrange large filter beds and ex-pects to recover all the values which he says, will be practically all on top and can be scraped off the sand bed. While in the east, the governor heard of John Porter, who was a partner with him in this country in 1863. Porter creek was named after and he was instantly killed.
