Among the Exchanges of the Inland Empire

O. R. & N. Conductor Deserts.

Conductor Trow, in charge of an extra wheat train, left his post last Friday while at Washtucna because he objected to making a trip to McAdams where four cars loaded with grain were to be pickked up. Trow, who is a son of Timothy Trow, long time conductor on Palouse branch trains, made several runs over the branch last week. Reaching Washtucna on his last trip he was angry because, as he claimed, the regular crews had not done the switching required of them and left the work for his crew.

It was not until he got to Washtucna that he was ordered by the division headquarters at Tekoa to go to the station below Washtucna, and he wired back to headquarters: "Here is the train. Come and get it."

The yards were left blocked with loaded with cars and tmpty cars could not be spotted at the doors of the warehouses. The incident occurred just as the O. R. & N. got fairly started with grain carrying on the branch.—Washtucna Enterprise.

Grant County Realty Assessment.

The county officials are going to make a real effort to reduce the taxes in Grant county; that is, the officials are going to make an effort to have certain lands taxed according to their real value and this will reduce the tax rate. Grant county has received recently a notice of 250 claims from the L. A. Grande U.. S. land office about 200 of which are timber claims. Reports from The Dalles and Burns offices will increase these.

Timber lands in Grant are assessed on a basis of three dollars per acre, while in Baker county it is upon a $5 valuation. The plan in this county is to have the timber estimated and the tax levy in accordance with this estimate. This plan involves an appropriation by the county court and the employment of estimators. According to reports in the papers parties owning these claims are being offered from $4000 to $12,000 and if they are worth anything like those prices they should pay more taxes.—Long Creek Ranger.

Crop Rains in Crook County.

A fine rain throughout this section during the last few days of the past week caused rejoicing among the farmers as it practically insures a bumper crop at the coming harvest. In the opinion of a majority of those of whom inquiry was made, this rain will be sufficient to insure a good crop from the fall sown grain, even without another rain before harvest, and the only danger to these crops to be apprehended now is from the hot winds of July, which destroyed the crops last year. These hot winds, however, are not greatly feared, as they are of rare occurrence.

Spring grain shows a great improvement since last week's rainfall. Before that time the spring sown grain was not showing a satisfactory growth, and a decided improvement is manifest since the timely and seasonable rain. It is expected now that spring grain, which constitutes a good proportion of the crop of this section this season, will make a big crop.

There was considerably more than an inch of rainfall here during Saturday and Sunday, and reports from other sections in this locality indicate that the rain was general throughout this district. The downpour was steady, although not heavy, and practically all of it went into the ground.—Madras Pioneer.

Boise Strike Settled.

An agreement was reached last night between the striking operators of the Independent Telephone company and Manager Sinsel, whereby the operators are to return to work.

Although it was agreed that nothing should be given out regarding the settlement made last night, it is learned that the increase in wages was granted on a compromise and the operators will receive from $5 to $9 a month more. Several of the operators had left the city and out of the 17 who struck 12 will go back. Miss Sallie Brown has gone to Portland to accept a good position there under the management for whom she worked before coming to this city and others have taken places elsewhere.—Boise Capital News.

A Narrow Escape

G. W. Cloyd, a merchant of Plunk, Mo., had a narrow escape four years ago, when he ran a jimson bur into his thumb. He says: "The doctor wanted to amputate it but I would not consent. I bought a box of Bucklen's Arnica Salve and that cured the dangerous wound." 25c at Tallman & Co.'s, druggists.

Inferior Wool This Year.

Charles Green, a wool buyer for Koshland & Co. of San Francisco, was in Condon a few days this week and bought J. L. Hughes' clip, some from Smith Bros., and a few small clips from the Kerr, Gifford Warehouse Co. Mr. Green says the wool this year is of a poor quality, short, dirty and not up to last year's standard at all.—Condon Globe.

WHEN HER BACK ACHES.

A Woman Finds All Her Energy and Ambition Slipping Away.

Pendleton women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Pendeton woman's words:

Mrs. D. Coffman, of 221 Stonewall Jackson street, Pendleton, Ore., says: "I was having considerable trouble from irritating throbbing pains across the back. I think caused by failure of the kidneys to perform their proper functions and aggravated by cold settling in my back. I knew about Doan's Kidney Pills and went to the Pendleton Drug Co.'s store and procured a box. They helped me from the start, and in a short time not a pain or an ache remained. My kidneys were toned up and I felt better in every way. I know others who had the same satisfactory experience which leaves no doubt in my mind about the curative powers of Doan's Kidney Pills."

The 4-cable hanging bridge across the Boise river near Boise, owned by the government and used in the prosecution of government work, went down a few days ago because a cable broke. At 6 o'clock 40 men were on the bridge at one time, having just quit work and being on their way to supper. One hour later the cable broke and the bridge turned turtle and was soon dragged to pieces by the swift current.
