Back From Jamestown.
Rev. A. J. Adams, Presbyterian pastor at Moro, returned last night from the east where he attended the

general assembly of the Presbyterian church at Columbus, Ohio, and later the Jamestown exposition. He was greatly disappointed in the exposition, as it was not ready and presented a discouraging aspect in every way. He returned home through the southern states and found them in a highly prosperous condition, with heavy rains falling everywhere until he reached Idaho. He left this morning for Hood River for a brief visit before returning to Moro. S. K. Kates of this city, who accompanied him east, is visiting in Illinois and will not return for several days yet.

Andrew Jackson's Education.
During each winter for two or three years after he had reached the age of seven Andrew Jackson was sent to the old school of a Mr. Branch. After the battle of the select school which a Presbyterian preacher, the Rev. Dr. David H. Humphreys, taught in the Washburn settlement. He appears to have been going to this higher school in the spring of 1789, when the school of Tarleton created a panic in that portion of the Carolina. At some later period of his youth he is said to have attended the old Queen college or seminary at Charlotte a couple of terms, but the time is not definitely known.
As to education, therefore, it may be safely stated that Andrew Jackson enjoyed much more than the ordinary advantage of a backwoods boy of his time. At the age of ten he had become so good a reader that he was often chosen to read the newspaper to the assembled neighbors, and he remembered with pride in after years that he had thus had the honor of "reading out loud" the Declaration of Independence upon its arrival in the Waxhaws. For a lad of ten this was, indeed, something to remember with honest pride.—Thomas E. Watson in Watson's Jeffersonian Magazine.

100 MORE FEET CONCRETE WALK

Three Corners of Main and Alta Now Torn Up.
Today workmen commenced constructing 100 feet of concrete walk on the west side of Main street, commencing at the corner by Tallman's drug store and extending south.

With the tearing up of the walk at that corner three of the corners at the junction of Main and Webb streets are rendered unfit for travel. However, the work at the Savings bank corner will now soon be completed and the occupants of the west side of the street are rejoicing over the construction of a concrete sidewalk on the block between Webb and Alta streets. There is now much agitation in favor of the concrete being extended throughout the entire block.

TO INCORPORATE HERMISTON.

If Movement Succeeds a Special Election Will Follow.

Today the proposition of incorporating Hermiston has been before the county court, and this afternoon a petition asking for the incorporation was formally presented by Attorney Bartlett.

The incorporation is asked for upon the lines made known a few weeks ago, and as the people of the town seem united in asking for the incorporation there is little doubt but that the request will be granted by the court. Should it be, a special election will be held shortly for the purpose of electing the first corps of city officers.

OLD BUILDINGS SOLD

SCHOOL DISTRICT RID OF ITS "WHITE ELEPHANTS"

Structures Known as "the Old Academy Buildings," Bring \$250, Paid by Peter Medernach and J. H. Lawrey—Buildings Will Be Removed by the Purchasers—District Will Retain Ownership of Ground and Possibly Lease it to the City.

Through a deal made Saturday the Pendleton school board sold its old buildings on east Webb street to Peter Medernach and J. H. Lawrey. The price paid for the two buildings was \$250 and they are to be removed from the property within a short time.

Ever since the new buildings were erected and the board ceased using the old academy buildings, the two frame structures have been "white elephants" on the hands of the board. For some time past they have been offering the buildings for sale at \$250, and when the offer was received from Messrs. Medernach and Lawrey Saturday it was accepted.

According to Mr. Lawrey, the old buildings were bought for no particular purpose and he does not yet know what will be done with them. However, they will be removed from the school property.

It is the intention of the school board to retain the land upon which the old buildings are situated so that the ground can be available for a building site when it becomes necessary to erect another school building in that end of town. In the meantime it is proposed to lease the ground to the city for a term of years for use as a public resting place, providing the city will secure it for such and make the necessary improvements. Should the city not take the ground for that purpose it will be rented to some individual for gardening purposes.
