CROOK COUNTY LAND DATA.

Acres Open Yet to Settlement, Deeded and Pending.

Investigation of the amount and kind of land in Crook county, both deeded and open for entry, reveals some interesting and useful information, says the Oregon Daily Journal. Entries of homesteads have been about the same this year as in the two years immediately preceding, while timber and stone entries were fewer owing to the creation of reserves and a scarcity of land that is considered worth taking for timber, although cruisers say an abundance of claims can be had that will have from 1,000,000 to 1,500,000 feet. Desert entries have been a little in advance of last

year's, and few selections and purchases from the state land board have been a little more than normal.

Ten Thousand Acres of Homes. Final homestead proofs made during the 12 months ending March 1 this year amount to something more than 10,400 acres, the greater part of which is in the Dalles district. Lieu selections that have been finally acted upon during the same period by this office amount to about 8000 acres and final proofs on lands taken under the desert, or Carey act, amount to about 2000 acres.

The largest aggregate of any single class of land that has passed through this office during the period referred to is that of the timber lands taken under the timber and stone law, which amount to a little more than 45,000 acres and represent the awarding of patents to some 280 persons.

Timber and stone lands patented by the government in the part of the Lakeview land district that lies in this county amount to only 2100 acres and in the Burns district slightly more, or 2400 acres.

Timbered School Lands. The state land board during the fiscal year ending March 1 patented 24,751.82 acres. The selections were largely school lands and were in many instances heavily timbered, as were those selected in the Summit Prairie country by local and eastern timber dealers. The largest area of this land went to Fred A. Krebs of Portland, and amounted to about 5360 acres of timber lands. Others who received patents for this kind of land are Clark W. Thompson and the Prineville Land & Livestock company, who received 2840 acres and 2720 acres, respectively.

The respective amounts under the various forms of entry that were finally passed upon during the past year in this county are: Final homestead proofs, 10,425.31 acres; timber and stone, 49,616.31; lieu lands, 7,890.59; final desert proofs, 1920; sold through the state land board, 24,751.82. The grand total is 94,603.24 acres.

Best Section for Settlers. The deeded lands in Crook county last year were a little over 1,000,000 acres. The total area of the county is upwards of 5,000,000 acres, a part of which is taken up by forest reserves and the Warm Springs Indian reservation. All of these things together, however, do not take up any great part of the territory, and there is at least one half the area of the county open to settlement, the greater part of which is valuable land.

The southeastern part of the county offers the best inducements to the homesteader or one who wishes to take land under the Carey act, while in all parts of the county opportunities are open for the homeseeker.

The greater part of the timber lands filed upon are included in forest reserves, although parts of two of these reserves are soon to be thrown open to entry.

Wanted.

A competent draftsman, or a boy who has taken lessons in drawing sufficient to trace from drawings. Apply to T. F. Howard, Despain block, Pendleton, Oregon.

A Chicago newspaper writer calls the skin of a sausage the sausage's "kimona." I have said all along that things were drifting toward a crisis.

A Maryland paper says that pumpkins will be less per ton than coal in that state this fall. All right, feed your furnaces pumpkin pies.

2000 feet of new film and two new illustrated songs tonight at the Star theater.

PERSONAL MENTION

Mrs. S. P. Garrigue of Heppner, has been visiting here today.

Prof. O. H. Read of Adams, is in the city today on a business trip.

W. E. Boner of Joseph, is among business visitors in the city today.

Mrs. G. R. Lyle returned to Echo today after a short visit in the city.

George Blanchard of Pasadena, Cal., has been registered here today.

Mrs. Richardson has just returned from her home in Canada, where she has been for several weeks, after an absence of a year. Miss Lizzie Richardson, of Pomeroy, is visiting with them at their Adams home for a short time.

YOUNG BOY'S SELF MURDER.

Hung Himself from the Rafter of an Idaho Falls Barn.

Idaho Falls, Idaho, Aug. 13.—Shortly after noon yesterday this community was considerably stirred up over the sensational suicide of Henry Free, the 13-year-old son of Mrs. Henry Free at Grant, by hanging, says the Idaho Falls Post.

The lad was sent to the barn to get some article needed by his grandfather, Ludwig Ofwald, on whose farm the mother and son had been living since the death of Mr. Free, about a year ago.

After waiting about half an hour Mr. Ofwald went to the barn to see what was detaining him, and upon entering the first object that met his gaze was the still form of the lad hanging by a rope around his neck from a rafter. He immediately summoned all those about the place, and the body was cut down and taken into the house.

The affair has been a great shock to the people of this quiet community, particularly because of the fact that the young man's rash act cannot be accounted for. He was on good terms with all members of the family, and was never harshly mistreated by anyone.

One theory advanced is that the affair was accidental, inasmuch as he was rescued from a similar predicament a few months ago, but on that occasion he was found hanging fast head down, with a slip noose fastened around his knees. He said he was hanging by his toes and everybody laughed over the incident and it was soon forgotten. However, this theory is not generally believed in connection with the affair of today, as the method he employed certainly showed a deliberate intention of taking his life.

ADJUDGED BANKRUPT.

Umatilla Man Owes More Than He Can Pay.

John A. Jones, who lives near this city, has been adjudged a bankrupt by the federal court in Portland, and his case has been turned over to Judge Thomas Fitz Gerald, referee in bankruptcy.

According to the showing made by Jones he has liabilities to the amount of \$423.50, while his total assets, which, however, are all exempt, amount to but \$272. He has a homestead upon which he has not yet proven up.

V. STROBLE

"BE READY"

ALL indications point toward a record-breaking run of business for all Pendleton merchants this fall and winter.

Are you ready, Mr. Pendleton Merchant? Do the people of Pendleton and the surrounding country know you are well stocked and fully prepared to receive their patronage? Have you planned your fall publicity campaign, so that the people may be brought into closer touch and more fully acquainted with the lines of merchandise you carry?

If not—DO IT NOW.

PUBLICITY is the life of BUSINESS. The advertising of a store is, therefore, the very life of the establishment. Too much thought and care cannot be bestowed upon it. 'Tis a poor contractor that builds a house without any plans—the same may be said of the merchant whose wares are not made known to the public by some plan or system.

The man who does not advertise simply because his grandfather did not, ought to wear knee breeches and a queue.

The man who does not advertise because it costs money, should stop paying rent for the same reason.

The man who does not advertise because he tried it and failed, should throw away his cigar because the light went out.

The man who does not advertise because he doesn't know how himself, ought to stop eating because he can't cook.

Take time by the forelock, prepare your advertising now, before the busy season begins. If you wish to reach the people in a DEPENDABLE way, place an advertisement in the East Oregonian, "The Paper That Goes Home." Should you care to investigate the cost or ask about certain space, just ring up Main 1 and the AD MAN will count it a personal pleasure to call and give you any information.

The East Oregonian is Eastern Oregon's representative paper. It leads and the people appreciate it and show it by their liberal patronage. It is the advertising medium of this section.

Fruit Sherbet

Made from select ripe pineapples and blended with fruit juices. The most delicious sherbet obtainable.
