TOO MUCH FOR SCHOOL BOOKS

OREGON BOARD OF EDUCATION COMPLAINS

School Book Publishing Companies Charge Oregon People More for Same Books Than Is Charged in Other States—Board Enters a Strong Protest and Will Ask for a Square Deal.

The state board of education and the attorney general do not agree upon the interpretation of that portion of the state text book law which requires the publishers to sell their books at as low a price in this state as they do in any other state. The board recently asked the attorney general's advice and then proceeded to act contrary to it.

It has been discovered that some of the publishers are selling books at retail in Louisiana and Tennessee cheaper than they are sold in Oregon. Against this the board protested.

The companies take the position that they are entitled to get as much for their books, net, in Oregon as they do in any other state and they represent that differences in freight, commissions, etc., accounts for the higher price in Oregon.

The board holds that when the contract was made with the publishers stipulating that they should not sell books for a greater price in Oregon than is charged in other states, reference was had to the price the parent or pupil must pay and not to the net price received by the company.

In accordance with this view the board yesterday adopted a resolution declaring that retail prices here must not be higher than in other states.

The controversy arose over four books. The plane and solid geometry is sold for 90 cents in Tennessee, while in Oregon the price is \$1.25. The physical geography sells for 83 cents in Louisiana, while it costs the Oregon pupil \$1. The new text book on elementary agriculture sells for 60 cents in Louisiana and 75 cents in Oregon. The general history costs the Louisiana boy and girl \$1.25 and the Oregon pupil \$1.50.

Since the text book law and the contracts with publishers provide that these differences shall not exist, the board proposes to see that Oregon shall buy books at lowest prices.

Gans Invests His Money.

Joe Gans' new hostelry, the Goldfield hotel, built by the champion lightweight pugilist at a cost of \$35,000, was opened last Saturday at Baltimore.

In addition to the hotel, which Gans believes will become a highly profitable institution, the famous Baltimore negro has a fortune estimated at \$50,000. Of late he has become an enthusiastic automobilist, and it is possible that he may decide to enter the ranks of professional racing car drivers.

Gans is now 33 years of age and has been a professional fighter for 16 years. He retires the undisputed lightweight champion with none in sight to dispute his claim to the title.

LISTEN TO THIS.

Thousands Will Benefit Statement Made Is True.

It may be that some persons will be inclined to doubt the statement made by an eminent authority, at a recent meeting, that a mixture of dandelion, kargon and sarsaparilla, he would give prompt relief to any sufferer of rheumatism or the usual forms of backache, caused by inactive, clogged kidneys, yet many cases of long standing that had been entirely relieved were cited to prove the truth of his assertion. The same authority further stated that many cases which failed to yield to the healing waters of the famous health resorts, or the usual remedies as prescribed, salicylate of soda, potash, colchicum, etc.—were readily relieved by the use of this simple mixture—Fluid extract dandelion, one-half ounce; compound kargon, one ounce; compound syrup sarsaparilla, three ounces. Take a teaspoonful dose after meals and at bedtime.

A well known druggist, when approached on the subject, stated that while this prescription, as written, is new, the ingredients are continually prescribed by the best physicians, and any good prescription pharmacy has them; they are inexpensive and harmless to use, and are mixed by shaking well in a bottle.

If the claims, made for this mixture are only partly correct, it would seem that no sufferer here could afford to leave the prescription untried.

SENDS AGENT TO JAPAN.

Canadian Envoy Will Attempt to Settle Immigration Difficulty.

Vancouver, B. C., Oct. 24.—Among the passengers sailing on the steamship Empress of India for the orient today is the Hon. Dodohe Lemieux who has been appointed Canada's envoy to Japan to take up the immigration problem with the Japanese government. By sending Mr. Lemieux to Japan and at the same time paying damages to the Japanese residents who suffered in the recent riots in this city, it is believed that the differences between the two countries will be amicably settled.

In presenting the case of Canada to the Japanese government Mr. Lemieux will make a strong point of the fact that in urging upon parliament the act of last session, giving the force of Canadian law to the Anglo-Japanese treaty of 1894, the prime minister met objections to the clause of the treaty which provides for full right of entry and residence in Canada to Japanese, by assuring the house that the government of Japan would still be bound to the agreement to restrict immigration to a certain number of Japanese subjects yearly.

CONGRESSMAN ELLIS VISITING.

Acquainting Himself With Needs of People in This District.

Hon. W. R. Ellis, congressman for this district, visited this part of Crook county Thursday, and in the evening addressed the people of Laidlaw and vicinity. Mr. Ellis is making a thorough investigation of the conditions and needs of the people of his district, giving his entire time to the work of his office, and has visited every county in the district except Wheeler, and he goes there from this place.

Judge Ellis had never visited this section of the county, however, until this trip and he expressed himself as highly pleased with the country. In his address he said, "You people are

In a beautiful location, you have a soil as rich as is to be found in the United States and a river that is incomparable. All you need is the conservation and judicious use of the waters and transportation facilities to give you one of the best sections of the great state of Oregon, and transportation will reach you in a short time; it must come." Mr. Ellis further said that he believed such laws should be enacted as would effectually prevent the bottling up of a country like this by any man or railroad company and that he believed such laws would be enacted.—Laidlaw Chronicle.
