Seats About All Gone But Don't Stay Away on That Account--Dress Rehearsal Last Night Leads All to Believe That the Attraction Will Be the Best Local Production in Years--What You Will See When the Curtain Goes Up.

"Tonight's the night" for company L's spectacular show and the Pendleton guardsmen and their generous friends will do all they can to please the large audience that will be assembled. That the attendance will be a record breaker is assured by the fact that at noon today only a score of untaken seats remain on the lower floor. With a gallery that is now safe and clean no one need stay away because he has not a reserved seat.

Last night the final dress rehearsal was held in the theater and under the direction of Dan P. Smythe, stage manager, the troupe was brought into shape for the final performance.

As previously announced the program will be in two parts. The first part will consist of a bunch of pleasing specialties all of which have been previously mentioned. Of these but one will now be named and that is the number by the 20 high school girls. In their costumes last night the girls made a most strenuous hit with those gathered in the theater, and if the roof does not come off tonight when they appear it will be because applause cannot raise it. The second part of the entertainment will be taken up with the original and only extravaganza, "The Subdual of Hermiston." If any one thinks this high class play is a melodrama he wrongs it sadly. It is an extravaganza and while there will be some meritorious stunts and some good singing the basis of the thing is burlesque and local hits will abound. Following the performance this

BUCK LANDS IN JAIL.

Charged With Taking Cattle From Indians on the Reservation.

Melvin Buck, renowned as a "broncho twister," is now a prisoner in the county jail and the charge against him is that of coveting some cattle belonging to Indians upon the reservation.

Buck was arrested last evening by Sheriff Taylor and when taken he denied that he had done anything wrong. The exact nature of the offense with which he is charged has not been made known, but it is understood he is accused of stealing a half dozen head of beef steers from some of Uncle Sam's allottees on the reservation. He is said to have taken them with the intention of selling them to local butchers, but had not yet done so when arrested.

The arrest of Buck is but one of the many horse and cattle stealing arrests made recently by Sheriff Taylor. While the charge against the young broncho breaker is entirely separate from those against the others it is believed by the officers that those involved have been working together to some extent at least.

Has a Coffin on His Hands.

James Pond, the Umatilla Indian who anticipated the death of his wife and purchased a coffin several days before he expected her to die, is now in a strange predicament. His wife has recovered and is now alive and well and he cannot return the coffin, he says, to the dealer, and so has it stored on his ranch on the reservation awaiting developments. His tribesmen have vigorously protested against his hasty action in purchasing a coffin before actually needing it and every effort will be made to prevent such actions in future.

FIRST BROOM CORN TEST.

Gardena District Produces Excellent Grade of Broom Material.

What is thought to be the first attempt to raise broom corn in the inland empire has been a success this season, and the product will be worked into brooms within a very few days, says the Up-to-the-Times Magazine. The broom corn was raised at Gardena, an irrigated district about 15 miles from this city, which was opened up nearly two years ago.

The product is of an exceptionally good quality and makes the best commercial brooms manufactured in the west. Early last spring a Portland firm experimented with the article. After a sufficient growth part of the product was taken to Portland and made into brooms, with the result the company has purchased a small manufacturing plant and installed it at Gardena and will turn out several hundred brooms this year. Several hundred acres will be planted by the company and land owners next year and a larger factory will be installed.

THIEVES GETTING TOO NUMEROUS

POLICE UNABLE TO GET CLEWS OF ROBBERS

Home of James Nelson Entered Last Night While Family Was Absent--Neighbors Notify Police--Two Other Robberies Reported Since Sunday--Robbers Make Good Their Escape in Each Instance.

Three more burglaries, within as many nights, have been added to the already long list of recent crimes in Pendleton and as in former instances the officers have been unable to make any headway towards apprehending the guilty ones.

The most recent burglary to become known was that of the James Nelson residence at the corner of Union and Court streets. At the time the crime was committed the family was out on Mr. Nelson's Butter creek ranch. Neighbors passing the place noticed a light being carried about within the house and at first presumed it was one of the family. Later it was learned that no member of the family was then in the city and the police were notified of the occurrence. From the circumstances in the case it is believed the house was robbed but with what success will not be known until the family returns.

Two burglaries occurred Sunday night, while the families were away attending church. The home of John Mollala in East Pendleton, was ransacked by burglars and a number of things taken from a trunk. Among the things taken were \$35 in cash, a gold pin and a revolver.

About the same time the Mollala place was entered thieves also broke into the E. O. Casey residence at 204 Coasbie street. Two ladies' watches, a suit of clothes, a rain coat and many small articles were taken.

Raley represented the plaintiff, while J. B. Perry and D. W. Bailey had the side of the defendant.

ANOTHER WONDER OF SCIENCE

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality, causing itching scalp falling hair, and finally baldness. With out dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes--50 cents and \$1.00. A. C. Koepfen & Bros.

MAY UNITE METHODISTS. Movement Started in Oklahoma to Bring M. E. Church and M. E. South to Union.

Oklahoma City, Okla., Feb. 18.--Distinguished church men of the Methodist denomination are flocking here today for a joint missionary convention to be held in Convention hall during the next three days, under the auspices of the Methodist Episcopal church and the Methodist Episcopal church, south. This is the first joint meeting of its kind ever held in America and it is likely to become historical as marking a great step toward the reconciliation of the two great divisions of the denomination, separated since the civil war. Oklahoma Methodists have been the leaders in this movement for the wiping out of sectional lines, Methodists of both the north and south joining in the establishment here of Epworth university. The two churches have in the new state a joint membership of 68,000.

The convention will hold a jubilee celebration over the founding of the church of Japan. For years and years the several branches of the Methodist church has been sending missionaries to this foreign field to advance the cause of Christianity, but recently the people of Japan announced their intention of establishing their own church.

A church of Japan was formed and the doctrines and teachings of the Methodist church became a part of the new church. The Japanese have their own bishop and presiding elder as well as other church officials. The establishment of this church is regarded as one of the greatest events in modern church history.

Denver's Democratic Hall. The new auditorium in this city which is being hurried to completion

for the meeting of the national democratic convention in July, is one of the finest buildings of its kind in the United States, says a Denver item. It is larger than Madison Square Garden in New York, which until recently was the most spacious assembly hall in the country. Madison Square Garden seats 12,137, while the seating capacity of the Denver auditorium is 12,500. The capacity far surpasses that of the Mormon Tabernacle in Salt Lake City, the Cincinnati Music Hall, the Metropolitan opera house in New York city and the Auditorium or Coliseum in Chicago. The Chicago Auditorium seats 6000 and the Coliseum, as the seats are arranged for the republican convention, seats 11,111.

Representative W. C. Hawley registered at Salem yesterday, while on a quick trip from Washington for that purpose.
