Former Stenographer Suicides.

Former Court Stenographer John W. Bosche (alias Wheeler) of Baker City, committed suicide in Buffalo, N. Y., recently by cutting the arteries of his wrist, which resulted in his bleeding to death. Bosche was well known in Baker City and many attorneys of this city also knew him well. He was 45 years of age and lived in Baker City for about 15 years. He was known to every one in this section as Wheeler and after retiring as court stenographer he was associated with John L. Rand at Baker City. He was a "dope" fiend and it is to this habit that his suicide was due, it is thought.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles.

You may have a sample bottle of Swamp-Root by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Referee Clow Refuses to Consider Pendleton's Claims of Game.

Further proof that Pendleton high school won the basketball game here Saturday evening is supplied in the fact that the Walla Walla scorekeeper's book also shows Pendleton had been awarded the point that should have given the team the game at the close of the second half. When the score was footed up here Saturday the visiting scorekeeper likewise neglected to add in the point.

But while Pendleton's claim to the game is complete, Referee Clow has refused to award the same to the Pendleton boys. In a phone conversation this morning he stated that under the rules his term as referee expired when the game closed, so he can take no further action.

In an interview with the Walla Walla Union of this morning, Clow indulges in numerous falsehoods concerning the game and also makes some derogatory statements concerning Prof. Hampton and others connected with the Pendleton high school. Among the local students, basketball players and others, Clow is regarded as a "poor excuse" for they declare he is not only unfair as an official, but that he is dishonest personally. They declare he is not fit to be associated with school athletics as he is, and it is openly stated that Pendleton will have no further athletic relations with the Walla Walla high school until he goes out.

Australia Like Eastern Oregon.

A letter from the writer's father, Mr. Charles E. Brownhill, of Dudley, England, who is now visiting relatives in Australia, writes from Melbourne under date of January 18, that the island continent is suffering from an intense heat wave. Melbourne, however, is very fortunate, the thermometer there seldom going above 85. He also says that much of the interior country around Melbourne reminds him very much of portions of eastern Oregon. Mr. Brownhill expects to arrive in Oregon sometime this summer. —Beaver State Herald.
