

DOCTOR'S ORDER WAS: 'CUTICURA'

For a Bad Case of Eczema on Child
—Suffered for Three Months—
Disease Reached a Fearful State—
Pain and Itching were Terrible.

CURED AFTER OTHER PRESCRIPTIONS FAILED

"When I was small I was troubled with eczema for about three months. It was all over my face and covered nearly all of my head. It reached such a state that it was just a large scab all over, and the pain and itching were terrible. I doctored with an able physician for some time and was then advised by him to use the Cuticura Remedies which I did and I was entirely cured. I have not been bothered with it since. I used Cuticura Soap and Cuticura Ointment but do not know exactly how much was used to complete the cure. I can safely say that Cuticura did a lot for me. Miss Anabel Wilson, North Branch, Mich., Oct. 20, 1907."

ITCHING CURED

With Cuticura Remedies in
Three Days After Six
Months of Suffering.

"I suffered fully six months. The trouble began on my arms in little red pimples and it was not long before it was all over my body, limbs, face and hands. It was so bad that I could not rest night or day and during the six months, I did not get a good night's sleep. I doctored for three or four months and spent at least twenty dollars trying to find a cure but none could be found. Then I saw the Cuticura Remedies advertised, and the next day I purchased some for seventy-five cents at the drugist's. I used them and I was relieved of the itching in three days, and I have never had a sign of any skin disease since. The Cuticura Remedies are the only remedies to use for skin diseases, they have cured me and they will cure others in the same way. J. W. Bloom, R. R. Telegrapher, Holloway, Mich., Nov. 20 and Dec. 29, 1906."

Cuticura Remedies are guaranteed absolutely pure under the United States Food and Drugs Act.

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults composed of Cuticura Soap and Cuticura Ointment (50c) to Heal the Skin, and Cuticura Resolvent (50c) to Purify the Blood. BRIEF RECORD OF COUNTY EVENTS

Special Correspondence

FREEWATER-MILTON ATHENA BREVITIES

COUNTY AND STATE WILL BE ASKED FOR AID.

Flood Waters Will Be Controlled if Possible—Young Men Are Arranging for Good Baseball Team—City Water Proves Excellent, Tests Having Been Satisfactorily Made—Another Lodge Organized.

Freewater, April 3.—The county and state will be asked to supplement the subscriptions of the farmers in this vicinity who are raising money to repair the banks of the Tum-a-lum and Walla Walla rivers, who are interested in controlling the flood waters, which are doing considerable damage to the ranches along the river.

About \$2000 has been subscribed for the project, and the work of drying the river has already commenced. D. C. Sanderson, H. E. Korts and F. L. Ragdale are a committee to take the matter up with the legislature and the county court.

The young men of Freewater are arranging to organize a baseball team. Committees have been appointed, and a meeting will be held shortly to elect officers and form the team.

Milton News.

Milton, April 3.—Mrs. Jean Morris Ellis, the phenologist, has given a few lectures here this week which have been enjoyed by many of the Milton people.

T. T. Geer has been here this week in the interest of his congressional race.

P. H. Smith has just completed the sale of a small tract of land in Gross addition to J. B. Smith, for \$600.

The city of Milton recently purchased a tract of land on which is located several springs, and has excavated a reservoir and developed a splendid spring at a point far enough above town to give a good pressure for fire purposes, and the city will be furnished from these springs for domestic purposes. The city has received reports from samples sent to the state bacteriologist and the state chemist, showing that the spring water is of the most wholesome for drinking and all purposes.

This gives Milton one of the best water supplies in the state of Oregon.

A new fraternal society has been added to Milton's already large supply. The newly organized lodge is the Royal Neighbors, auxiliary to the Modern Woodmen. The charter membership numbers 25.

J. E. Cherry has returned from a trip of several weeks to Gilliam county.

WATER FROM JACKSON LAKE.

Big Irrigation Project to Reclaim Idaho Land.

The American Falls Canal & Power company has made application for an acre-foot of water for every acre under the Carey project here, from the government reclamation reservoir at Jackson's Lake, says the American Falls Press.

This water is additional to the water right sold by the company, but it is not incumbent upon any land owner to purchase it unless he so desires. The system is being put in by the government to insure against possible unfavorable years. The water will be sold at actual cost, which is estimated at from 80 cents to \$1 per acre.

The government is building an immense storage reservoir, holding the flood waters of the early spring months, for use in the late summer and fall. The Twin Falls and other systems will use water from the reservoir. The American Falls company, however, is the first to make application.

The water will be sold in installments and if the cost is \$1 per acre, will amount to only 10 cents an acre, for 10 years, without interest. There is little probability that it will ever be needed, but it is such cheap insurance that most land owners will probably buy it.

The water rights provide for the delivery by the company of two and one-half acre-feet per year to the land. This is for the irrigating season, covering about six months, which is about double the rainfall of the Mississippi valley, which will be readily understood as being ample for all purposes.

There is nothing better than Kodol for dyspepsia, indigestion, sour stomach, belching of gas and nervous headache. It digests what you eat. Sold by Tallman & Co.

MUCH SNOW LYING IN MOUNTAINS WEST OF HERE

Annual Horse Show Will Be Held in Athena in May—Cake Will Speak in This City Next Tuesday Evening Big Revival in Athena During Next Few Weeks—Several Pneumonia Patients in Vicinity of Athena.

Athena, April 3.—The weather is fine in this section of the country, and wheat continues to look fine. There is a depth of about 14 inches of snow on the mountains east of here, however, and should the weather turn warm a flood is looked for.

Athena horsemen are becoming interested in the annual horse and colt show which will take place here in May.

Cake Will Speak.

Hon. H. M. Cake, candidate for United States senator, will speak at the Athena opera house, Tuesday afternoon, April 7.

Mr. and Mrs. T. J. Kirk have returned from California, where they spent the winter months.

Born, to Mr. and Mrs. Ora Rhodes April 1, a daughter.

The members of the Methodist church are making preparations for their big revival meeting, which will begin soon.

James Bones of Montana and Mrs. Bell Welch were married by Rev. Ellis Sunday at the J. A. Kirk home south of town.

Mrs. Bert Warren, who has been quite ill with pneumonia, is reported as being much better.

Dr. Sharp has been quite ill with pneumonia, is reported as being much better.

Dr. Sharp has been attending several pneumonia patients in the vicinity of Athena during the past week, and all are on the road to recovery.

A number of the people of this section of the country have been Pendleton visitors this week.

A number of the young people enjoyed a party at the home of Miss Irene Dudley Saturday evening.

Miss Crosson's elocutionary recital was very much appreciated by a fair sized audience at the opera house Saturday evening. The numbers given on the piano by Miss Bartholomew were also well received.

HITS CURB STONE DEALERS.

Salem Judge Upholds City Ordinance Protecting Legitimate Real Estate Dealers.

Judge Burnett made an important ruling yesterday affecting the city ordinance relative to the licensing of real estate brokers. The rule announced was in the case of S. Page, plaintiff, vs. C. W. Brasher, defendant, wherein plaintiff brought an action against defendant for a real estate commission amounting to \$306.25, says the Salem Statesman. Brasher appeared by his attorneys, John H. and C. L. McNary, and filed an answer alleging among other things that the sale was made within the corporate limits of Salem, and that the plaintiff had not complied with the city ordinance in that he failed to procure a license to sell real estate and therefore could not maintain an action to recover his commission.

The plaintiff, through his attorney, Mr. Pogue, filed a demurrer to the answer upon the ground that the ordinance was defective in that the legislation did not delegate the authority to the city to impose a tax upon real estate brokers and that the ordinance imposed a tax rather than a license.

The case was argued some time ago and taken under advisement and decided by the court yesterday. The demurrer was overruled which holding sustains the city ordinance and makes it legally impossible for a real estate man to recover his commission unless he has a license from the city.

The validity of the ordinance has been questioned for some time, but yesterday's ruling removes all doubt. The decision is a body blow to the "curb-stoners," whose only offices are on the street corners and who pay no license and usually not a great deal of taxes.

ORIGINATOR OF BASEBALL.

Gen. Abner Doubleday Is Credited With Honor By Spaulding's Base Ball Guide.

The discovery that the modern game of baseball originated in the mind of the late General Abner Doubleday would have immensely surprised that old warrior, perhaps, had he lived to enjoy such unexpected honors. That he originated the game cannot, of course, be affirmed with the utmost confidence, for the testimony gathered by the special committee, whose report is printed in Spaulding's baseball guide for the present year, scarcely pretends to do more than affirm that the most exhaustive investigation carries the game no further back than young Doubleday's performance in marking out a diamond for ball players about the year 1839.

That he did this one day is the evidence of an elderly individual who claims to have been present at the time, and whose veracity and competency as a witness the committee unreservedly acknowledges. That the idea of the diamond, the salient structural characteristics of baseball, would have had its birth in the military mind of one like Doubleday is argued

Lard has been in existence a long time—so has indigestion

Human nature is hard to solve. People who are most particular about adapting the weight of their wearing apparel to the season and its conditions, who never think of going out in a storm without an umbrella and rubbers, who would not sit in a draft for a farm, will day after day eat lard-soaked food and not realize for an instant that it is clogging their whole inner machinery and likely to result in a full-fledged case of indigestion.

Lard is produced from hog-fat, sometimes impure, always indigestible, and there's a good day coming when no one will think of using it

for cooking. *Cottolene* is the only rational frying and shortening medium in the world. It is made from refined vegetable oil and choice beef suet—everything about it is digestible and conducive to health.

It is a product of Nature.

It will make pure, palatable, healthful food, and food which anyone can eat and enjoy without the after-pangs of a disordered stomach.

Try *Cottolene* once and you'll never-more be a friend to lard.

Cottolene is Guaranteed We hereby authorize your grocer to refund your money in case you're not pleased after having given COTTOLENE a fair test.

Never Sold in Bulk COTTOLENE is packed in pails with a patent air-tight top, to keep it clean, fresh and wholesome; also to prevent it from absorbing the disagreeable odors of the grocery, such as fish, oil, etc.

Cook Book Free We shall be glad to send any housewife, for a two-cent stamp, our new "PURE FOOD COOK BOOK," edited and compiled by Mrs. Mary J. Lincoln, author of the famous "Boston Cook Book." Address

THE N. E. FAIRBANK COMPANY, CHICAGO

Nature's Gift from the Sunny South

ed plausibly, and one may accept the theory of his being the real founder of the game, so long as there is no better account of its origin. It is a pity that this interesting discovery was not made before General Doubleday's death in 1893.

He could have thrown some light upon the question, probably the fact that he had never advanced a claim to being the founder of American baseball is not necessarily adverse to the conclusion of the committee, for the general was interested in other things than sport.

Repairing Block Signal System.

Foreman Massie with a crew of three men, is repairing damages to the block signal system in the mountains, which was incurred during the recent washouts. Mr. Massie has been located at Pendleton the past several months, and has not been supplied with a regulation gang until the wash-

outs damaged the signal system.—La Grande Observer.

A Twenty Year Sentence.
"I have just completed a 20 year health sentence, imposed by Bucklen's Arnica Salve, which cured me of bleeding piles just 20 years ago," writes O. S. Woolver of LeRaysville, N. Y. Bucklen's Arnica Salve heals the worst sores, boils, burns, wounds and cuts in the shortest time. 25c at Tallman & Co.'s drug store.
