CREATE GAME RESERVE.

Immense Territory to Be Set Aside in
East Kootenay This Spring.

game warden, who will visit the dis-
tinctly of square miles, will be laid
out in East Kootenay this spring by
the provincial government, as a result
of the strong representations of
prominent Canadian and American
sportsmen, states a recent report. It
will be located somewhere in the
mountainous region lying between the
Crows' Nest pass branch of the C. P.
R. and the main line, and will serve
the same purpose as the famous Yel-
lowstone national park in Wyoming,
under the control of the war depart-
ment.

The task of defining the limits of
the proposed reserve has been en-
trusted to A. B. Williams, provincial
widely on its branches spread.
Within the next few weeks. He
has received valuable suggestions
from various well known sportsmen,
including Dr. W. T. Hornaday, di-
rector of the New York Zoological
park, who has been a frequent visit-
or in East Kootenay, regarded par
excellence as a veritable hunter's pa-
radise.

After the reserve is defined string-
ent regulations for the perpetual
protection of the big game will be
enforced. If the experience in the
Yellowstone park is duplicated the
animals will become tame when they
realize that they will not be molested.
It is an every day sight in the Amer-
ican reservation to see vast herds of
deer along the main driveways trav-
ersed by thousands of people who
visit the park every summer. So
tame have the bears become that
they daily visit the big hotels to par-
take of a meal from the scrap heaps
thrown out of the kitchens.

FEWER IDLE MEN.

Demand for Labor Is Increasing
Throughout the Northwest.

"Conditions are generally improv-
ing and there are now fewer idle men
staying here than at any time for the
past six months," states Manager F.
L. Smith of the Ondaqua Inn, says the
Spokane Chronicle.

"Up to 10 o'clock this morning we
sent 12 men to work, and each day
is seeing an increase in the demand
for men. The business of our free
employment bureau is constantly on
the increase."

"The men sent out from this office
are generally sent to ranches or rail-
road construction camps, though a
number go to fill places as general la-
borers. We are now keeping up a
daily average of about a dozen men
who are given positions."

"There are at the present time a
great many men stopping here who
are well qualified to do gardening
work and if any householder tele-
phones us we can easily supply him
with a man."

"Fewer transients are arriving here
than for some time past. The men
coming in now are generally from the
east or from British Columbia."

The Sunday services at the chapel
this week will be under the direction
of Rev. E. L. House, pastor of the
Westminster Congregational church.
Mrs. Robert Fairley will sing at the
services.

SHEEP SUPPLANT CATTLE.

Snake River Ranges Are Being
Changed and Settled Upon.

The ranges of the Salmon river,
where 25,000 head of cattle find pas-
ture during the winter, will within a
few years be given over to sheep, says
a Lewiston item. This is the state-
ment made by State Land Agent C.

J. Munson, who has recently visited
the Salmon river country, where the
state has made selections of timber
land, which will be leased to the
stockmen of that section for summer
range.

Mr. Munson was in the city yester-
day and completed fillings on approx-
imately 4200 acres of timber land re-
cently selected in the Salmon river
section. During the time the selec-
tions were being made he discussed
the grazing question with a large
number of the Salmon river stock-
men and reports that many are mak-
ing arrangements to dispose of cat-
tle and take up sheep, because the
ranges have been depleted of the
good grass and are now only fit for
sheep pasture.

He says such men as Frank Wyatt
will soon be out of the cattle business
and engaged in wool growing and the
general conditions of the Salmon river
valley will bring larger returns
from sheep than from cattle, which
will result in the complete elimina-
tion of cattle from that section with-
in a few years.

IS GRANT FREE FROM SCAB.

Rural Spirit Questions Action of
County in Discharging Inspector.

The Rural Spirit says of Grant
county's action in discharging her
stock inspector:

Three years ago Grant county had
40 bands of scabby sheep. Today
she has none. A vigorous campaign
waged by the county inspector in
harmony with the federal officers,
has cleared up the pest. The patient
is cured and the doctor discharged.

But will he stay cured, and which
is cheaper, to look after and take
care of his health or to doctor him
up after he gets down sick again?
Grant county thinks because her
flocks are free of scab that she can-
not afford to keep an inspector on a
salary any longer. We fear this is
false economy. With sheep coming
onto her ranges from five other
counties whose business it is to see
that these visiting flocks are free
from scab?

The time to lock the door is before
the horse is stolen. With the scab
once eradicated and with some one
whose business it is to keep vigilant
watch and take prompt steps to stamp
it out upon its first appearance, it
will be an easy matter to keep it out
of the county.

But with no one to look after it
and with outside sheep coming in
during grazing season it is apt to be
only a short time until the germ will
be plentiful again. With the amount
of wealth Grant county has invested
in sheep and other stock she can well
afford to keep a good man on pay
to look after their welfare—she can-
not afford not to do so.

Changed to Umatilla County.

The trial of W. R. Deal, who is ac-
cused of the crime of the larceny of
a horse, will be held in Pendleton a
week from Monday, says the La
Grande Star. The defendant was ar-
rested on information sworn to by
Ed Halley, a farmer in the valley
who is the owner of the animal which
is claimed to have been stolen. An
application was made for a change of
venue to Umatilla county, and the
same was granted. District Attorney
Ivanhoe will prosecute the case the
same as if it had been for trial in this
county.

Pastime Packed With Children.

The Pastime moving picture thea-
ter was filled to overflowing with
school children under 10 years of age
last evening, as a result of their free
admittance of the little tots. During
the afternoon from 2:30 to 5:30 the
Pastime was thrown open to the chil-
dren and it is estimated that 600 wit-
nessed the pictures during that time.
The management, Matlock & Sellers,
are delighted with having entertain-
ed so many children and expressions
of pleasure from the many children
who saw the excellent program are
heard on every hand today.

New Company at the Star.

The Beagle Comedy company will
open an engagement at the Star
theater beginning tonight. This is a

which will continue until Sunday.
These pictures are among the very
best that have been seen at this
popular picture show. Beautiful,
realistic and up to date.

RHEUMATISM

BLOOD FILLED WITH URIC ACID

Rheumatism comes from an excess of uric acid in the blood. This acid circulating through the system acts as an irritant to the different muscles, nerves, bones and tissues of the body, and produces the inflammation and swelling of the joints and the sharp, cutting pains characteristic of the disease. When the blood is overburdened with uric acid it continually grows weaker and more acid, and poorer in nourishing qualities. Then Rheumatism becomes chronic, and not only a painful, but a formidable and dangerous disease. Sometimes the heart is attacked, the general health is affected, and the oils and fluids which lubricate the muscles and joints are destroyed by the acid matter which the blood is constantly depositing in them; the muscles shrink and lose their elasticity, the coating of the joints becomes hard and thick, and often the sufferer is left a hopeless cripple. S. S. S. attacks the disease at its head, goes down into the circulation, and by neutralizing and removing the uric acid from the circulation and building up the thin, acid blood, cures Rheumatism permanently. S. S. S. changes the sour, acid-burdened blood to a rich, healthy stream which quiets the excited nerves, eases the throbbing, painful muscles and joints, and filters out of the system the irritating matter which is causing the pain and inflammation. Begin the use of S. S. S. now and get the cause out of your blood so that the cold and dampness of Winter will not keep you in constant pain and misery. Book on Rheumatism and any medical advice free.
