May to take definite action in behalf of the woolgrowers of this state. The Utah letter, which contains some very pointed things upon the subject of wool prices, is as follows:

Salt Lake City, Utah.
March 16, 1908.
Dear Sir:—The executive board of the Utah Woolgrowers, after consultation with the leading woolgrowers of Utah, Wyoming and Idaho, deem it advisable to notify all the woolgrowers of the inter-mountain region in relation to the present condition of the wool market.

You are fully aware that there is a general business depression over the whole country; especially in industrial lines. This was caused by the recent financial panic. The money market is now clearing up and is much better in the east. At present there is a tendency to bear the wool market and thereby cause sheepmen to accept ruinous prices for their coming clip. After careful investigation, we advise woolgrowers at the present time, not to accept a lower figure than two cents per pound less than was paid for their clips last year.

Under no circumstances, in our opinion, should woolgrowers consign their wool to eastern markets and wait for a raise in prices. The history of the past is conclusive that the consigning of wool breaks the market in the east and the consignee, nine times out of 10, is the loser and seldom realizes more than the consignment advance.

If we are going to hold our wool at all, it should be held in the west. If the sheepmen will unite and keep posted on market conditions, there is no question but what they will realize fair prices this season.

The shearing season will commence in parts of our state in about two weeks; before selling your clip, it will be to your advantage to keep posted and advice with the office of this company. Our organization will keep fully posted in regard to conditions and will advise its stockholders upon request either by wire or letter as to the condition of the wool market.

We think it very essential that all woolgrowers combine in keeping themselves well posted in regard to future conditions of the wool market, as well as help other interests.

The male quartet of this city, composed of Professors Welles and Landers and A. J. Owens and M. L. Akers, entertained the institute with a number of excellent selections. The wives of the members of the quartet also attended the institute and enjoyed a visit to Hermiston and vicinity during the day.

PENDLETON BASEBALL TEAMS TO CROSS BATS.

Workout on Sunday Afternoon Will Be the Beginning of an Active Season in Local Baseball Circles—Material for Lorimer's Team Will Be Selected and Places Assigned as a Result of the Game.

Tomorrow afternoon the baseball season for Pendleton will be opened with a practice game between two selected local teams and the fans will have an opportunity to see how the "material" is working out under the direction of E. K. Lorimer, the team manager.

The game tomorrow will commence at 3 o'clock and no admission will be charged. But it will be in the nature of a tryout; for places on the nine and it promises to be as warm a contest as could be desired. The teams will line up as follows:

Conrad, center; Parks, pitcher; Wing, first base; Alexander, second base; L. Means, third base; Shockley, shortstop; Gray, left field; Lorimer, center field; Baker, right field and catcher.

Collins, catcher; Tardiff, pitcher; Kehio, third base; Leonard, shortstop; Johnson, first base; Vickers, second base; Drake, left field; Goodman, center field; Barlow, right field.

The ball grounds have now been partially gotten into shape for the season and with the fine weather now prevailing baseball fever is running rapidly. If you like baseball and are to see the kind of a team Pendleton is going to put forth this year, we on hand and help in the excitement. Among the fans there is a feeling of confidence over the prospects for the team and it is predicted that Pendleton will once again have a real ball team—one that will play good consistent ball and win games.

PULLMAN WON THE DEBATE.

Whitman Went Down to Defeat Before the Washington State College Last Night.

In one of the finest debates ever heard in the inland empire, Whitman college went down to defeat before the Washington state college team last night at Walla Walla by a vote of two to one.

The question debated was, "Resolved, that the United States should adopt a system of branch banking and asset currency like that now in use in the dominion of Canada." The Whitman team having the affirmative side.

The judges were Colonel James H. Raley and Rev. W. L. Van Nuy of this city, and Judge Hepke of Spokane, and the decision was two to one in favor of Pullman. Ex-Governor Miles H. Moore presided at the debate which was largely attended and highly enjoyed. It is said to have been one of the most scholarly debates ever heard in this section and both teams were highly complimented by the judges.

HOBSON ON MONDAY NIGHT.

Hero of the Merrimac Will Close Lecture Course.

Congressman Richmond Pearson Hobson of Alabama, will lecture at the M. E. church in this city next Monday evening, this being the last attraction of the Pendleton lecture course which has brought a number of good attractions to the city during the past winter. Congressman Hobson is a national character and a hero of the Spanish-American war, having conducted the Merrimac affair at Santiago harbor in which the Spanish fleet was completely bottled up in the harbor.

He is a pleasing speaker, and will give an excellent lecture at the M. E. church. This being the last number of the high school course should be well attended by Pendleton people.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deep-seated and so insidious. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to pass urine and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
