

PRONOUNCED HIS CASE INCURABLE

Whole Body Raw with Eczema—Life was Intolerable—Was Even Incased in Plaster—Discharged from Hospitals as Hopeless.

SUFFERED 14 YEARS CURED BY CUTICURA

"From the age of three months until fifteen years old, my son Owen's life was made intolerable by eczema in its worst form. He was all right until a red rash broke out on his forehead, but we were not alarmed at first. Very soon, however, the rash began to spread over his head and shoulders, and it caused him great discomfort. I took him to a doctor and tried half a dozen other treatments, all with the same result: no improvement at all. The disease gradually spread until nearly every part of his body was quite raw. We had to strap him down in bed, for he used to tear himself dreadfully in his sleep. The agony he went through is quite beyond words. No one thought we would rear him. The regimental doctor, a very clever man, pronounced the case hopeless; at least, he said the only hope was that he might, if he lived long enough, outgrow it to some extent. We had him in hospitals four times and he was pronounced one of the worst cases, if not the worst, ever admitted. From each he was discharged as incurable; in fact he got worse under the successive treatments. At one hospital they incased him in plaster, and this seemed to aggravate the soreness terribly. He looked so badly that no one liked to go near him and his life was a burden to him. We kept trying remedy after remedy, but we had got almost past hoping for a cure. Six months ago we purchased a set of Cuticura Soap, Ointment, and Resolvent Pills and persevered with them. The result was truly marvelous and to-day he is perfectly cured, his skin not having a blemish on it anywhere. Mrs. Lily Hedge, 51, Vaughan Road, Coldharbour Lane, Lambeth, Green, Eng., Jan. 12, 1907."

Send to nearest depot for free Cuticura Book on Treatment of Skin Diseases. Cuticura Remedies are sold throughout the world. Depot: London, 27, Chancery Lane; Paris, 4, rue de la Paix; Australia, R. Towns & Co., Sydney; So. Africa, London, Ltd., Capetown, etc. U. S. A., Potter, Drug & Chem. Corp., Sole Props., Boston.

AMONG THE EXCHANGES OF THE INLAND EMPIRE

Good Prospects for Stock Show.
All over the Grand Ronde valley farmers and stockraisers are taking exceptional interest in the stock show and market day, which is to take place here Saturday, under local management, says the La Grande Observer.

It is the conservative belief of the business men who are behind the project, that 75 blooded animals will be in the parade, which is to traverse the principal streets and avenues of the city in a spectacular manner Saturday afternoon.

A committee appointed by the promoters to secure horses and stock for the parade, have been out in the Union-Cove section of the valley and were extremely successful. The Elgin, Alcei, Summerville and Imbler sections are being visited by Messrs. O. A. Coffin and M. H. Kirtley today. Ranchers are signing promises to have their livestock here, without coaxing. They are enthusiastic over the event.

No Screens for Boise Saloons.
An ordinance was introduced at the regular meeting of the city council last evening by Councilman Blomquist providing for a free and unobstructed view of the interior of all rooms where intoxicating, spirituous, vinous or malt liquors are sold by virtue of a license under the city ordinances during the hours that the saloons or such places of business are closed and providing for violations, says the Boise Capital News.

The bill was laid over until the next meeting of the council Friday evening, for final reading and action. The passage of the ordinance by the council will be opposed by nearly every saloon man in the city as under the provisions of the ordinance alterations of their respective places of business will be necessitated in order to conform with the ordinance, the windows and doors of nearly all saloons having stained glass which will be contrary to the measure if passed.

Fleet Boosts Potato Prices.
Whether the 16,000 men who are to go to Seattle in the fleet of the United States, to be there next month, will improve the market conditions for North Yakima holders of potatoes is a matter for the future to settle, says the Yakima Republic. The prospects are that it will, particularly if the ships stock up with large supplies of the article which is contributing to make Yakima famous. That many men means another good sized city added to the state, and they will carry away enough to maintain them for some time. If they buy, the prices paid will be higher than those which have prevailed for some weeks, as potatoes are now about the \$12 mark.

DIME NOVEL HITS SPAIN.
One American Product in Brisk Demand in Land of the Dons.
Consul-General Benjamin H. Ridgely reports substantially as follows, from Barcelona, concerning the temporary popularity in Spain of a certain class of American publications:

Another strictly American industry has been successfully introduced into Spain, namely, the old-fashioned dime-novel industry. At all the newspaper kiosks French translations of the most popular of these novels have been selling rapidly for a year or more.

The books retail at from 4.1 cents to about six American cents a copy. American publishers have recently asked this consulate to report as to whether or not this unexpected demand for dime-novel literature is sufficiently stable to warrant the invasion of the field on a big scale with Spanish editions of everything in the dime novel series.

The consul general says that after carefully investigating the matter he is compelled to report that there is not much outlook for this literature in Spain. As a matter of fact, it has already begun to pall upon the juvenile Spanish appreciation and during the past three months sales have steadily diminished.

Moreover, with the exception of Barcelona and Madrid, the reading public is not large. In connection with this matter it may be said that the best profits of Spanish publishers of cheap literature are earned in South and Central America, and it is likely that they have already supplied those markets with the class of literature above named.

Pathologists in Session.
Ann Arbor, Mich., April 17.—Some of the foremost scientists of North America are today the guests of the University of Michigan at the opening session of the American Pathological Association's convention. A large proportion of the 200 members, including the leading bacteriologists and pathologists of the United States and Canada are in attendance. Dr. Alfred S. Warthin, professor of pathology in the medical department of the University of Michigan, is president of the association. The convention will continue through tomorrow.

The World's Sugar Production.
An estimate by the British Board of Trade of the sugar production of the world for 1906 makes a total of 14,312,716 long tons, of which 7,317,472 tons were cane and 6,995,244 tons beet, the production of both kinds advancing practically at the same rate since 1898. In the production of cane sugar, British India had the largest output of 2,223,400 tons, and in beet sugar Germany ranked first, with an output of 2,362,187 tons. In consumption of sugar per head Australia stands first at 129 pounds, the United States coming next with 89 pounds, and the United Kingdom following at 81 pounds.

The people who do not live in this city and yet who "do some of their shopping here," are important to those of our merchants who seek wider markets. These people read Pendleton newspapers, for they are "interested in this city,"—in its news, in its stores.

Store advertising is no longer optional—it is as necessary as are clerks, stock, equipment; it is the only thing that makes these worth while.
