The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have offered One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O.

COUNTERFEITERS CAUGHT.

Secret Service Agent Locates Alleged Plant in Vancouver.

Vancouver, Wash., April 28.—After four days of almost constant work, Stephen A. Connell, secret service agent of the treasury department, assisted by Chief of Police Seelster and Officer Cresap, yesterday succeeded in capturing two members of what is considered a dangerous counterfeiting gang and securing at least the greater portion of their outfit. The two men captured are Lu Turner and James Lucas, while Morris Ramsey, a third member of the gang, is under arrest in Portland, where he was picked up Friday for passing the bogus stuff. Turner admits that he has already served a term of two years in the state prison at Folsom, Cal., for counterfeiting.

Turner was arrested at Seattle on March 17 on a similar charge, but for lack of evidence was discharged. He had no sooner been discharged than the secret service agent became convinced that he was the man wanted, and decided to follow him. Apparently the man came directly to this city, as it is now known that the two men have been here for the last four weeks. During this time they have occupied a room in a lodging house at the corner of Eighth and Grant streets where it appears at least the greater part of their operations were carried on and where the apparatus used was located. Mr. Connell traced the men here, and himself reached the city last Tuesday. Since then, with the assistance of the police, he has been on the track of the men, endeavoring to locate the plant.

The outfit captured consists of a supply of plaster of paris, a gasoline lamp, a considerable quantity of metal, chiefly lead, and a plating outfit. None of the alleged coins were captured here. From the amount of dross and slugs captured, it seems certain that a considerable amount of the bogus money has already been made, although neither of the prisoners will admit this, nor can a trace of the location of the deposit be discovered. Among the outfit is a treatise on the art of scientific plating.

While the officers have been at work on the case for at least four days, they have managed to keep this matter a profound secret. Not until after the men had been locked up yesterday afternoon did the remaining members of the police force or even the sheriff have the slightest inkling of the presence of Secret Service Agent Connell in the city or the object of the search.

SOUTHERN PEDAGOGUES.

Teachers of Mississippi and Georgia in Annual Session.

Jackson, Miss., April 30.—It is estimated that nearly 2000 teachers are in Jackson this afternoon for the 23rd annual convention of the Mississippi Teachers' association, which will open this evening at the Century theater, and more are expected before the real work of the meeting is commenced. Department meetings will be held tomorrow morning, and additional general sessions will be held tomorrow afternoon and evening and Saturday. The program provides for addresses and papers by the leading educators of the state.

Much critical comment is indulged in by the teachers because of the failure of the state legislature to make an appropriation for the establishment of a normal and training school for teachers.

Georgia Teachers.

Augusta, Ga., April 30.—Pedagogues from every city and county of Georgia are the guests of the teachers and citizens of Augusta today and will take part in the annual meeting of the Georgia Educational association opening this evening. All phases of educational endeavor, including physical culture, manual training, discipline, teachers' salaries and kindergarten work, will be considered during the sessions this evening, tomorrow and Saturday. Professor Lawton B. Evans of this city is president of the association and will preside at the sessions.

He Got What He Needed.

"Nine years ago it looked as if my time had come," says Mr. C. Farthing of Mill Creek, Ind. Ter. "I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee at Tallman & Co.'s drug store. 50 cents.

Irrigation Talk No. 9.

FURNISH-COE LANDS

In a country where the average rain fall is sufficient to raise wheat without irrigation, but little additional water by irrigation is required in order to raise all other produce and fruits.

We are leasing lands this year to old residents at Echo who are clearing, breaking and putting the same into wheat as "dry farming" above the level of our ditches. Every drop of moisture for their crops comes directly from the Heavens—Average rain fall 13 inches—We have 7000 acres of these dry lands for sale at from \$4 to \$15 per acre.

Our irrigated lands are selling with perpetual water rights at \$100 per acre. These prices, though, will soon advance. The lands are selling fast.

Terms on dry or irrigated lands are easy.
