* Open the door, let in the sun;
* He hath a smile for every one;
* He hath made of the raindrops
* gold and gems,
* He may change our tears to
* diamonds.
* Open the door!
* Open the door of the soul, let in
* Strong, pure thoughts which
* will banish sin;
* They will grow and bloom with
* a grace divine,
* And their fruit shall be sweeter
* than that of the vine.
* Open the door!
* Open the door of the heart; let in
* Sympathy sweet for stranger
* and kin;
* It will make the halls of the
* heart so fair
* That angels may enter unawares.
* Open the door!
* —British Weekly.

INQUIRING ABOUT OREGON.

"I have \$1800 in cash; am able-bodied; have a wife and three children; am willing to work; what can I do in eastern Oregon toward establishing a permanent home?"

This is the tenor of the letters received by the East Oregonian from anxious homeseekers in the east, every day.

What can a man do with \$1800? To a bonanza wheat king that sum is insignificant. It would not pay for harvesting half a crop; it would scarcely buy sacks for some of the crops of the inland empire. It is not worth talking about.

But let us see what it means to the man of small means. It means that he can buy a tract of 10 acres with half of it, build a small house, and a team with the remainder, and the first year, from his 10 acre tract he can pay for his team and live well.

He can work for some farmer or stockman every day when his labor is not required on his own land. He can earn good wages the year through and improve his little tract slowly, making a living for the family from the poultry and dairy cows kept on the ranch.

He need not pay all of the cost price of his land in cash. He can buy irrigated land for half down and the remainder on easy payments so there are thousands of opportunities in Umatilla county for men with less than \$1000 in cash.

All through the Pilot Rock country and northern and western Umatilla, are tracts that can be bought at reasonable prices. These tracts will produce potatoes, fruits, alfalfa or other profitable crops. One man can handle a small tract easily and educate his children and live independently.

Here is a land owner, a producer, an independent, thrifty homeowner and citizen. In the east he is a tenant upon a non-productive measly little farm, working day and night for somebody else, having no income aside from a bare living and having no prospect aside from that of being a perpetual tenant.

Umatilla county offers emancipation to the eastern tenant. That is sufficient inducement to bring them west.

ROOSEVELT, OR BRYAN.

Every observant man who returns to the Pacific coast from an eastern trip says that the next president will be either Roosevelt or Bryan. This sentiment is so general and so emphatic that it has come to be a part of the ruling sentiment of the presidential situation.

Taft is not looked upon as a winner. He is not in favor with the rank and file of the people. Although Roosevelt has endorsed him, even Roosevelt cannot bring the people to favor Taft.

There is an anomaly in the situa-

tion which is deserving of more than passing notice. It is this: While the people are heartily in favor of Roosevelt and are willing to follow Roosevelt into Hades, as it were, yet these same people absolutely refuse to accept Taft, who is Roosevelt's personal choice. The people are for Roosevelt, personally, but they will not let him choose.

Such a condition is unparalleled in the history of politics. Usually a man who has Roosevelt's following and grasp upon the public can dictate men or politics. But Roosevelt's efforts to foist Taft upon the voters, has failed. He cannot, with his magnetic and powerful personality, induce the people to accept Taft. Roosevelt they will accept at any time, under any circumstances, but his choice, never.

It becomes more and more apparent every day that the next president will be either Roosevelt or Bryan.

ELECTRIC LINE POSSIBLE.

It is possible for retired farmers and capitalists of Pendleton to launch an electric line project and have it in operation between Pendleton and Umatilla inside of a year.

By subscribing \$100,000 to construct and equip the first 10 miles of the road, the remainder of the cost price could be readily secured by bonding the system, right of way and equipment and it would pay for itself without further outlay on part of local capitalists.

Twenty men could be found in this city and vicinity who would be willing to subscribe for \$5000 worth of stock, each, and within a few weeks the line should be started.

It is perfectly feasible and practicable. Systems of far greater importance than this would be, have been started on less capital. At Caldwell, local capitalists started a line between that city and Boise on less capital than this and the line was swamped with business and the subscribers were requested to put up but one-third of the cash subscribed, so great was the volume of business secured for the line.

At first it was thought a car service every four hours would be sufficient. That was found to be inadequate to meet the enormous travel, and a service every two hours was installed.

However, the country furnished such a volume of business that an hourly service was started and the cars are loaded to the limit every trip.

Such would be the case between Pendleton, Hermiston and Umatilla within a short time after starting the car line. People all along the route would patronize it regularly. Every foot of land would be increased in value from 25 to 40 per cent and the trade of the entire west end would be perpetually tied to Pendleton.

All that is lacking to start this line is somebody to take the lead. The public spirited capitalists and retired farmers of this city, who have ample capital, would certainly grasp this opportunity to install one of the best paying enterprises in the county.

Soon the west end of the county will be swarming with settlers and the business originating west of Pendleton would require a double track in a few years. The line would pay for itself easily. All that is necessary is a sum to start the line and build perhaps 10 miles to form a basis for a bond issue with which to complete the remainder.

THERE'S MORE MONEY NOW.

The people of the United States are this year richer by \$125,481,000 than they were last year, or \$1.44 in cash each, according to our estimated population.

The growth of an eighth of a billion dollars of circulating coin in one year brings the per capita circulation to \$35.35.

The United States now ranks second among the nations in the matter of per capita circulation. France being in the lead with \$37.41. The most remarkable showing is that this country's per capita circulation was only \$31.41 four years ago.

Small wonder that the United States is considered one of the richest nations in the world when our per capita circulation increases at a percentage greater than the increase of our population.

THE GOVERNOR'S APPEAL.

Governor Chamberlain as a senatorial candidate sees no reason why republicans should not vote in large numbers for him, a democrat. There is every reason why they should not. They have a clean, honest, fearless candidate of their own, standing for all the advanced principles advocated by Governor Chamberlain, and in addition many more substantial principles for which Governor Chamberlain does not stand.

There is no reason why a solitary

republican should vote for Governor Chamberlain or any other democrat this year. The republicans are united, harmonious, have good tickets in the field and have principles at stake.

So why should the governor's appeal win votes for himself or any other democrat? Why should republicans divide up their strength when they are agreed upon fundamental principles upon which the party stands? Why should they pull apart, disintegrate, surrender their principles or weaken? They have clean, capable candidates. They have party ideals to cherish, party principles to protect.

So why should the governor's appeal have any effect?

RECIPE FOR ROSY CHEEKS.

A lady, prominent in social circles, just returned from a sojourn in Europe, brings back with her a valuable skin food recipe, which she says is in general use among the society women of France, who have an international reputation for their exquisite complexions, says the Portland Telegram. The recipe is as follows:

Two ounces of rose water; one ounce of spirits of cologne; four ounces sartin (crystallized).

Put the sartin in a pint of hot water (not boiling), soft water preferable. When it is dissolved and cooled, strain through a fine cloth, add the Rose Water and Spirits of Cologne. This preparation to be applied twice a day or oftener, and if adhered to persistently, is said to produce wonders even on the worst complexion or roughest skin. It is an inexpensive mixture, and the ingredients can be gotten from any well-stocked drug store, the above formula making enough to last quite a while, and sufficient for a very thorough trial.

Flow of the "American Nile."

A comparison of the flow of the Nile and the Colorado river of the west, which has sometimes been termed the American Nile, is given in water supply paper 211, just published by the geological survey. The maximum flow of the Colorado is about 110,000 second-feet; that of the Nile is about 353,000 second-feet; while the minimum flow of the Colorado is about 2500 second-feet and that of the Nile about 14,500 second-feet.

Like the Nile the Colorado is subject to an annual rise that comes at the time when it is most needed for irrigation, but as the stream is far below the level of most of the irrigable lands, its waters are available for use on a comparatively small area, though two pumping plants at Yuma and several others on the river above that place lift water for irrigation.

Mrs. M. A. McGee, of Boise, who recently horsewhipped a young woman she found riding with her husband, fired three shots at her husband with a revolver Monday evening. She was driving along the street and saw him standing in the door of a saloon. All the shots went wide of their mark.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought is directly traced to the impurity of the blood. Pure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It purifies and purifies the blood, thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, leprosy, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

COLDS

The very hour a cold starts is the time to check it. Don't wait—it may become deep-seated and the cure will be harder then. Every hour lost at the start may add days to your suffering. Take

F & S Cold Capsules

Used in time they save all that might follow—sickness, worry, expenses. They never fail.

HAD CATARRH THIRTY YEARS.

Congressman
Meekison
Gives
Praise
To
Pe-ru-na
For
His
Relief
From
Catarrh.

CONGRESSMAN MEEKISON COMMENDS PE-RU-NA.

"I have used several bottles of Peru-na and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing." —David Meekison.

OTHER REMARKABLE CURES.

Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peru-na I am cured." Mr. A. E. Kidd, well-known architect, 547 Jefferson Ave., Chicago, Ill., writes: "I have had catarrh over half of my life. I tried nearly every catarrh remedy advertised, beside a great many physicians' treatments, all of which failed. I had heard and read of Peru-na and decided to try it. I have taken seven bottles of it and weigh 172 pounds."

A SINCERE RECOMMENDATION.

Mr. D. C. Prosser, R. F. D. No. 2, Shelby, Oceana Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, was very depleted. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach and seeing Peru-na advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."
