

DEEP CRACKS FROM ECZEMA

Could Lay Slate-Pencil in One—
Hands in Dreadful State—Dis-
ease Defied Remedies and Pre-
scriptions—Suffered Seven Years.

FOUND A PERMANENT CURE IN CUTICURA

"I had eczema on my hands for about seven years and during that time I had used several so-called remedies, together with physicians' and druggists' prescriptions. The disease was so bad on my hands that I could lay a slate-pencil in one of the cracks and a rule placed across the hand would not touch the pencil. I used — Skin Lotion, — Remedy and others externally but I did not use any internal remedy, and while some gave partial relief, none relieved as much as did the first box of Cuticura Ointment. I made a purchase of Cuticura Soap and Ointment and my hands were perfectly cured after two boxes of Cuticura Ointment and one cake of soap were used. I now keep them on hand for sunburn, etc., and use Cuticura Soap for shaving. I could write a great deal more in reference to my cure but do not want to take more of your time. William H. Dean, Newark, Del., Mar. 28, 1907."

My little daughter suffered with sores on her legs all last summer. Her feet were sore, too, and she couldn't wear her shoes. I think she was poisoned by running through weeds but the doctor said it was eczema. I tried several remedies but failed to find a cure. Then I sent for Cuticura Soap and Cuticura Ointment which cured her in two weeks. I find Cuticura the best I ever tried for any kind of sore and I hope I shall never be without it. Mrs. Gertrude Laughlin, Irydale, W. Va., Apr. 25, 1907."

SQUATTERS ARE HEAVY LOSERS

PAY FEES FOR LANDS
THEY WILL NOT GET

Linn County Seems to Have Greatest
Number of Sufferers—Unscrupulous
Locators Given Fees for Show-
ing Claims to Settlers—No Priority
Rights to Railroad Land.

Reports from the department of justice and interior to the effect that applicants for the unsold grant lands of the Oregon & California railroad will have no priority of right over other applicants has brought consternation into the hearts of a host of claimants who rushed onto these lands and paid high sums to unscrupulous locators.

In Linn county alone possibly 50,000 acres of these lands have been filed on and applied for and the tender made to the railroad company offices at San Francisco. Fees ranging from \$15 to \$50 have been paid for this privilege, and the parties locating the seekers after timber lands assured them that they would have a priority of right and have the first undisputed claim to the lands in question should the government succeed in their efforts to declare the lands forfeit.

When the matter was first made public the rush for these claims was akin to madness, and parties well versed in the subject declared that not one of them could possibly acquire any prior right to the lands in question.

The madness for timber lands reached such a height that hundreds of local parties and from elsewhere were induced to pay large sums into the hands of locators, whose only motive was gain, with no thought that the parties so located would ever be able to realize on the lands in question.

A most elaborate program was followed and if complying with all possible legal requirements amounts to anything the claimants for these lands should receive consideration. The plan was as follows:

First, the persons desiring to be located accepted the cruise of some locator, and on being acquainted with the description of the lands made an affidavit to the effect that they had settled on these lands and were actual residents and homesteaders.

This application was filed with the county recorder and placed on record, together with a statement that the tender had been made the railroad company. Over 300 of these papers have been recorded in the office of the county recorder, and according to the decision they are not worth the fee of recording.

In addition to the above many of the claims have been duplicated and even if the applicants should have an opportunity to purchase endless litigation would ensue. Many of the parties in applying for lands were induced to apply for lands in other counties without any idea of settlement or sincerity on the part of the would be possessor of these railroad lands. In fact in many instances the affidavit reads that they are actual settlers on the land applied for when the citizens of the state know that they are engaged in business and have made no attempt to comply with the laws relating to residence and settlement.

The whole matter is decidedly complicated, and the ruling of the department that there are of no consequence and worthless will bring some order out of the chaos and save endless litigation and possible prosecution for false affidavits made by the seeking purchaser.

Irrigation Talk No. 19.

IF it is conceded to be a fact that fruit raising, gardening and the small diversified methods of farming are the greatest return getters and money makers for the tillers of the soil, when the land, water, markets, etc., that are a necessity in the accomplishment of such farming can be obtained, then, why not grasp this opportunity of getting the pick of our choice tracts, while the price is low. We have the soil, the water, the climate and the market. As a home, a tract is easily self supporting--as an investment, the absolute certainty of the advance in price of these tracts will soon bring you big

"STRAWBERRY DAY" JUNE 4.

Milton Will Celebrate Annual Event
Next Month.

The Milton Eagle says of the celebration of "Strawberry Day" in that town on June 4:

June 4 will be "Strawberry Day" in Milton this year, and the regularly appointed committee should see that it is made a brilliant success. As many non-residents as possible should be induced to attend, as all Milton needs is to get people to come and see, and the excellence of our products will do the rest.

Already the berries are red on the vines, some completely matured having been exhibited, and with a few warm days an army of pickers will be gathering the crop from 500 acres in the Milton-Freewater district, to be shipped to people less favored by the gods with soil and climate.

The strawberry season means busy and prosperous times in Milton and it is proper that one day should be devoted to a glorious celebration. "Strawberry Day" in Milton this year will be worth coming far to enjoy. It's the Milton way.

Half the Coal Is Wasted.

Prof. J. A. Holmes of the United States geological survey, declared that under the present system 50 per cent of the natural coal supply of the country is wasted. A mine, he claims, is invariably abandoned after the high grade fuel is taken out, thus permanently preventing the extraction of the low grade coal. As an example of the heavy loss thus entailed, he cited an instance where only four feet of a 21 foot vein was mined. The consumption of high grade coal is enormous, the Pennsylvania road alone using 40,000 tons daily for its locomotives. That means that this one railroad system consumes annually, for motive power, 14,600,000 tons.
