

### Old Folks

There are mighty few people beyond middle age who don't suffer at times, or all the time, with their liver or kidneys. Natural.

The human machinery is beginning to slow down from the wear and tear of years of use and often abuse. It's got to have assistance to keep it moving properly—particularly the liver.

You can hardly name one of your old friends who hasn't one of the following troubles:

## Constipation

biliousness, indigestion, dyspepsia, sour stomach, sick headache, backache, kidney trouble, rheumatism and generally run down system.

### Bad Liver Causes It

It is at the bottom of every one of these troubles. It becomes inactive (constipation and bowel trouble follow). Throws off poison and bile (biliousness, sick headache, etc., follow). Puts extra work on the kidneys (often causing Diabetes and Bright's Disease). Uric acid gets into the blood (rheumatism follows). Cure the liver and you'll cure the cause. Cure the cause and you'll cure the trouble.

## Nature's Remedy

## CHILD MURDERED BY FANATICS

CHIEF OF "DEVIL CHASERS" KILLS 6-YEAR-OLD GIRL.

Declares He Has Seen the "Second Light" and Is Ready to Be Crucified—Millionaire Father of the Dead Child Under Influence of Religious Frenzy—Hardly Realizes What Has Happened—Blood Sacrifice Demanded.

Nazareth, Pa., May 15.—"Let them crucify" me. I can bear my cross. I have seen second light."

In his more lucid moments Robert Bamman, chief of the Nazareth branch of "devil chasers," whose orgy of two days ended in the death of 6-year-old Irene Smith, repeats this over and over again. At other times he rolls on the floor of his cell in Northampton county jail beating his head against the bench.

Councilman Henry Smith, the millionaire father of the dead child, hardly seems to realize what has happened. All night he raved in his cell, mixing prayers, hymns and biblical quotations in a weird jumble. This morning when questioned by District Attorney McKeen, he paused in his monotonous rigamarole and, gazing stolidly ahead of him, declared:

"It was God's will. Bob knew all about it. Why should a poor sinner like me question the ways of a God of wrath? Bob said there was a devil devouring the soul of Rena. He killed her at God's command. But it will be all right. Bob's going to be crucified, and then there will be a glorious ending to all our troubles."

Mrs. Smith has returned to a normal state of mind. To District Attorney McKeen she said:

"Whether it was in the name of religion or not, Bob Bamman murdered my child. I never had any faith in the teachings of the 'Devil Chasers.' Bob has been talking to Henry and me for several weeks about joining, but I always refused. I have gone to church regularly at Seigfried, and the Methodist teachings were always good enough for me. But Henry became impressed and insisted, and, finally, to keep peace in the family, I agreed. He was always good and kind to me and Rena, and I thought it would do no harm to give in to him.

"There was only one thing that annoyed me. Bob was constantly talking about a blood sacrifice being necessary to purify the converts that had recently joined the 'Devil Chasers.' Henry laughed at my fears and said that Bob's utterances were only symbolic, and should be taken as many things in the Bible are.

"I know now what he meant. Our little Rena has been the 'blood sacrifice.' If I had only yielded to my first impulse and left her at home with a neighbor she would have been alive today."

## Have You a Summer Stove?

The stifling air of a close kitchen is changed to comfortable coolness by installing a New Perfection Wick Blue Flame Oil Cook-Stove to do the family cooking.

No kitchen furnishing is so convenient as this stove. Gives a working heat at once, and maintains it until turned out—that too, without overheating the room. If you examine the

## NEW PERFECTION Wick Blue Flame Oil Cook-Stove

you will see why this is so. The heat from the chimney of the "New Perfection" is concentrated under the kettle and not dissipated through the room by radiation. Thus it does the work of the coal range without its discomfort. Ask your dealer about this stove—if not with him, write our nearest agency.

The **Rayo Lamp** is a very handsome piece of housefurnishing and gives a clear, powerful light more agreeable than gas or electricity. Safe everywhere and always. Made of brass finely nickel plated—just the thing for the living-room. If not with your dealer, write our nearest agency.

Standard Oil Company (Incorporated)

IF YOU'RE IN SUSPENSE and undecided as to where to send your vehicle for repair, allow us to suggest that this shop offers inducements for good work promptly done, and that little money settles the bill for Carriage repairing. Get your buggy painted for spring. We have an expert painter who will do good work reasonably. Old rigs made as good as new.

See us for Gasoline Engines, Hacks, Winona Wagons and Buggies.

## A PLEA FOR OREGON'S UNIVERSITY

The East Oregonian takes pleasure in publishing the following concise and comprehensive statement of the needs of the University of Oregon, in hopes that many who do not now understand may be enlightened and may vote to sustain the university appropriation at the coming election:

Eugene, Ore., May 14, 1908.

**TO THE PEOPLE:**

Based upon estimates submitted to the proper committee, the last legislature, by more than two-thirds vote, passed an act, appropriating \$125,000 annually, for the support and maintenance of the University of Oregon, and for the construction and furnishing of additional buildings, purchase of equipment, etc.

A referendum has been invoked on the bill, and it will be submitted to the voters at the coming election in June for approval or rejection. In view of these facts the regents have thought it best to make the following statement.

Since 1901, the university has depended for its resources upon the annual appropriation of \$47,500, carried by the act of that year, together with the interest on the University fund, incidental fees, and interest on the Villard fund, amounting to about \$10,000 a year, and special appropriations from time to time. The act of 1901 was intended, with the revenues from other sources, primarily to cover the necessary current expenses at the time of its adoption. It has been necessary to supplement the account thereof, from time to time, by special appropriations, that of 1905 being \$62,500.

The purpose of the bill now pending is to merge in one act all appropriations. The amount thereof is based on careful, and what is believed to be conservative estimates, and in the opinion of the regents is necessary to bring the university up to and maintain it at the standard of efficiency which the educational interests of the state require.

The bare cost of maintenance is now approximately \$75,000 a year. Additional instructors are needed in several of the departments, which will bring the amount for maintenance to \$85,000 or \$90,000 a year. The library which touches all departments alike, will require an annual expenditure of at least \$10,000 a year, for some years, to bring it to the proper standard of efficiency.

**More Room Needed.**

Provision should be made immediately for the accommodation of the women of the university by furnishing and heating the present cottages and by the construction of additional cottages or a general dormitory. This it is estimated, will take about \$50,000. New buildings are needed for class, laboratory and recitation purposes, at a cost of approximately \$75,000. The heating, power and water plant must be enlarged, at an expense of \$10,000 or \$15,000 to meet the demands upon it for heating, irrigation, and fire protection. As soon as funds are available, the campus should be enlarged, to meet present and future needs, by acquiring additional grounds by purchase, if a satisfactory price can be obtained, and if not, by condemnation.

**Barely Enough for Needs.**

These several items will cost from \$125,000 to \$150,000, and together with others, developing with the growth of the university, will absorb the entire amount carried by the present bill, and additional revenues, over and above the expenses of maintenance, for a number of years to come.

This covers, in a general way, the needs of the university as we see it, and the use to be made of the proposed appropriation.

There is another matter which should be alluded to. The invoking of the referendum has restricted the university since January 1, 1907, to the annual amount appropriated by the act of 1901, and about 10,000 a year from other sources, making a total

of about \$60,000 a year, which has been inadequate to pay the expenses.

The deficiency last year was met by the board postponing all improvements, purchase of furniture, additional apparatus, and the like, and by part of the faculty voluntarily foregoing their salaries for the last quarter of the year, relying on the approval of the pending bill or subsequent appropriation by the legislature for their payment. The salaries and incidental expenses for the present academic year will amount to at least \$50,000, to meet which there is an appropriation of \$47,500. Interest on land fund, estimated at \$5000, interest on Villard fund, \$2200, or total of \$54,700.

At the close of the present scholastic year the university will, therefore, be practically without funds and as the law absolutely prohibits the regents or faculty from pledging the faith of the state for the university, in excess of the income for the current year, it is not apparent how it will be able to open its doors next fall if the pending appropriation is defeated.

We may add that the regents receive no compensation whatever for their services, but realizing, in the discharge of their duties in administration of the university, they are but servants of the people, they present the facts, for the consideration and final determination of the voters, without argument.

Respectfully submitted,

NEHEMIAH L. BUTLER,  
JAMES W. HAMILTON,  
CYRUS A. DOLPH,  
WILLIAM SMITH,  
FREDERICK V. HOLMAN,  
R. S. BEAN,  
J. C. AINSWORTH,

### NEW FEATURES FOR ROSE SHOW

**Spectacular Scene of the Eruption of Mt. Vesuvius at Portland.**

A gigantic production of "Paines eruption of Vesuvius" and "Carnival at Naples" has been contracted for as a special entertainment for the thousands of visitors that will be entertained in Portland during the rose festival.

This enormous production is being brought direct from Manhattan Beach, New York and is without doubt the largest theatrical production or spectacular attraction ever brought across the continent to fill one contract, but the new Portland spirit has taken such a hold upon her people that they are going to outdo all previous attempts along this line of entertainings.

This production shows a most elaborate firework, spectacular and summer night fete, depicting the carnival at Naples and eruption of Vesuvius on the night of April 3 and 4, 1904, and destroyed the Funicular railroad, Cooks' hotel and the village of Bosco Tre Case and a number of other villages. No attraction could be secured that would lend so much to the success of the rose festival as Paine's Vesuvius as the performances open with a carnival in progress on the streets of Naples.

**30 days' trial \$1.00 is the offer on Pineales. Relieves Backache, Weak Back, Lame Back, Rheumatic pains. Best on sale for Kidneys, bladder and blood. Good for young and old. Satisfaction guaranteed or money refunded. Sold by A. C. Koeppen & Bros.**

**Surgeon Weighed 500 Pounds.**

One of the largest sturgeons captured this season in upper Snake river waters was hooked by Lloyd McAnulty near the ferry landing above town, says a Glenn's Ferry item. The fish weighed close to 500 pounds and measured eight and one-half feet in length. A party of sightseers viewed this monster today at its new home in an irrigating canal on the McAnulty ranch.

## COOPERATIVE COLONY IN WASHINGTON

A big co-operative colony is to be founded to occupy and develop thoroughly an 8500-acre wheat farm near Dayton and an adjoining 15000 acres of stock range.

The colony is being formed by Dr. M. Peitzycki of Dayton, one of the wealthiest men of that section of the country. The land, 5000 acres of which is already under cultivation, has yielded 80,000 bushels of grain annually for several years. It is ready for the work of the colony as soon as sufficient members can be had to make the project successful.

Dr. Peitzycki's scheme is entirely unique in that nothing of a political or religious nature is required of any of the members, all of whom will be on an equal footing as to holdings and as to power. The decisions of an elective board of directors will be binding upon all alike, and the directors will act as an arbitration board to settle all differences that may arise.

At the end of each year dividends will be paid to each member of the colony on the wages he has earned by working. The plan includes the establishment of a public school on practical lines, giving technical instruction in all branches of trade or labor employed by the colony.

Dr. Peitzycki is now the sole owner of the land which will be given to the colony. It lies between Dayton and Starbuck. The founder was born in Galicia, one of the Polish provinces of Austria, in April, 1834, and has been living in Dayton for more than 20 years, practicing medicine. He has always been a student of social and political economy, and the founding of his colony is the outcome of his studies.

Don't cough your head off when you can get a guaranteed remedy in **Bees Laxative Cough Syrup**. It is especially recommended for children as it's pleasant to take, is a gentle laxative thus expelling the phlegm from the system. For coughs, colds, croup, whooping cough, hoarseness and all bronchial trouble. Guaranteed. Sold by A. C. Koeppen & Bros.

The sheep shearing season is now on in full blast, but has been considerably delayed the last few days on account of the heavy rains. The flockmasters are experiencing considerable trouble this season on account of the scarcity of shearers, who are not as plentiful this season as heretofore. The clip is good, however, and the sheepsman are well pleased with their clips this season.—Emmett, Idaho, Index.

Here comes the spring winds to chap, tan and freckle. Use **Pinealve Carbolyzed**. (Acts like a poultice) for cuts, sores, burns, chapped skin. Sold by A. C. Koeppen & Bros.
