AMONG THE EXCHANGES OF THE INLAND EMPIRE

Fruit Prospects Good.

The fruit prospects of the valley are in most respects very good, says the Hood River News-Letter. Pears, especially Bartlett's, have set an abnormally large crop, while other varieties have set all they should. Cherries promise a very large crop. Plums and some varieties of prunes have set a normal crop but Italians are light. Apples promise a very large crop though it is early to safely predict just what it will be, says E. P. Smith.

As a rule this valley is a fair example of what the fruit crop will be over the state. Small fruits are very good though a great many early strawberries were killed by the late frosts. It is thought by some that this is the latest and most backward season ever known here and unless warmer weather prevails the fruit will be very late. Grain and hay crops are also slow and backward and hindered somewhat by the ever growing quantity of weeds this weather brings forth. Potatoes and garden vegetables are doing fairly well.

Roses will hardly be at their best for the rose festival unless there is a decided change in the weather.

Increases Power Plant.

The Pasco Light & Water company is materially increasing their power plant and are getting ready to keep ahead of the rapid growth that is expected to come upon the town.

Their gas producing plant has been perfected by a tar separator being installed and other improvements attached, until it is now in perfect running order.

Aside from this, the company, some time ago, ordered a steam auxiliary plant, the boiler and parts of the machinery of which are now on the ground and being placed. An addition to the building will be put up to house the machinery, which will include a 150-horse power and generator. It is the intention of the com-

pany to run the gas producer during the day and the steam plant during the night, when the installation is completed, which will be in about 20 days.—Pasco Express.

New Government for Walla Walla.

Ambitious Walla Walla thinks it has outgrown the form of government granted in the old territorial charter, and will investigate the feasibility of placing the running of the city in the hands of a commission. Following is a clipping from the Walla Walla Bulletin:

"Declaring that the old charter of Walla Walla was entirely inadequate for governing a city of this size, Mayor George E. Kellough made an urgent appeal to the Commercial club last night to take up immediately the matter of a government by commission, and investigate it with a view of establishing it in Walla Walla.

"Mayor Kellough further stated that it was his idea that Walla Walla was large enough for a first class city, and added that the council would take steps in the near future to start a census to determine this definitely."

Snake River Cherries.

The first of the Snake river cherry crop will reach the city this evening from the orchard of Harry McKenzie at Hunt's Landing, says the Lewiston Evening Teller. The picking of the crop commenced this morning, and other growers will begin marketing their crop within the next few days.

The fruit crop on Snake river this season will be the largest in the history of the river growers, was the statement made today by B. Frank Smith, who is a visitor in the city from Trux.

Mr. Smith reports all varieties of fruit to be in excellent condition, and forecasts a prosperous year for the river growers.

The cherry crop will amount to 50 carloads and all varieties will aggregate 250 cars.

ing this your prompt attention, we are, Yours very truly,
W. H. WEHRUNG,
President.

Women in Peace Meeting.

Philadelphia, May 18.—This was woman's day at the Pennsylvania Arbitration and Peace Conference, in session at Horticultural hall. Mrs. Mary Wright Sewall, Mrs. Sarah Yorke Stevenson and other women of national prominence delivered addresses in which they eulogized the coming reign of world wide peace. At the sessions this afternoon addresses will be made by Senator Knox, General Horace T. Porter and Supreme Court Justice Brewer. The legal aspect of arbitration will be considered at a bench and bar meeting this afternoon. At all the meetings today there will be special references to the anniversary of the opening of the Hague tribunal for the arbitration of international disputes on May 18, 1899.

"Peace Day" in Europe.

London, May 18.—This is "peace day" in England and on the continent and the proverbial dove, with fluttering wings, is brooding over Europe, while speakers in hundreds of meetings are denouncing war as a relic of barbarism and demanding its instant and eternal abolition as a means of settling disputes among nations. Ever since the arbitration tribunal at The Hague was established nine years ago today this anniversary has been celebrated by the friends of peace throughout Europe, but today's observance is more general than ever before. Scores of meetings were held in London this afternoon and others are scheduled for this evening.

Bryan Captures Alabama.

Montgomery, Ala., May 18.—That William Jennings Bryan as a presidential aspirant will receive the endorsement of Alabama democrats in today's primaries is indicated by reports received here from all over the state. There is little opposition to Bryan in Alabama and his nomination today by the voters will insure the state for him.

The officers voted on in today's primaries are: Delegates to the national convention and alternates, electors for president and vice-president, two justices of the supreme court, president of the railroad commission, state game and fish commissioner and half a dozen judicial officers.

Primaries in Florida.

Jacksonville, Fla., May 18.—Democratic primary elections will be held tomorrow throughout Florida, at which delegates to the Denver convention will be chosen. At the same time candidates will be nominated for presidential elector, United States senator, congressmen from the three districts and state and county officers. The Florida delegation to Denver will likely be solid for Bryan.

Parliament to Convene.

Paris, May 18.—French senators and deputies are hurrying back to Paris today after an Easter vacation which they unanimously voted to themselves on April 11. Parliament will be formally reconvened tomorrow when several important measures will be brought to the attention of both houses.

Observe Lincoln's Nomination.

Chicago, May 18.—Celebrations will be held in Chicago, Springfield and other Illinois cities today to commemorate the forty-eighth anniversary of the nomination of Abraham Lincoln for president in this city, May 18, 1860.

Read the East Oregonian.

Irrigation Talk No. 24.

Mr. Roosevelt of the Boston Store thinks well enough of the Furnish-Coe lands to invest his money in a tract on the project. Although the project has been on the market but eight weeks, we have sold to date over 30 per cent of the total acreage, the purchasers for the greater part being men who had first made an inspection of irrigation projects in Idaho, Washington and Oregon. The consensus of opinion, of the men who have gone over our lands, has been that we are not asking enough money. We are giving every opportunity to the people of Umatilla County, to get in on the ground floor. Something is going to happen very soon. We again repeat that this land, purely as land will greatly increase in value within six months. Price low now. Terms easy.
