CHAMPIONS OF EASTERN OREGON

PENDLETON TRACK TEAM WINS AT BAKER CITY

Despite Failure of Captain Jay to Take Usual Number of Events Team from This City Leads With a Margin of Five Points—Gordon Springs Surprise by Winning Hundred in Fast Time of 10 1-5.

In a meet replete with surprises the Pendleton high school track team proved that it is the champion of eastern Oregon at Baker City Saturday afternoon.

The final score was, Pendleton, 45; Baker City, 40; Ontario, 16; Island City, 6; La Grande 4, and Cove 1.

Undoubtedly the biggest surprise of the day was Jay's failure to take a place in the pole vault or the discus, and his taking only third in the broad jump, all three of which events he should have won with ease. But though he was not up to his usual form the captain of the Pendleton team was the star of the meet, making a total of 11 points.

The most agreeable surprise of the day from the Pendleton standpoint was the one sprung by Chester Gordon in winning the hundred yard dash in the fast time of 10 1-5. This is Gordon's first year in athletics and by making a better showing in each succeeding meet in which he has participated, he has demonstrated that he is a comer. By next year it is believed that Gordon will be one of the speediest high school sprinters in the inland empire.

A Dual Meet.

Though there were six schools represented Saturday the meet early developed into a dual contest between Pendleton and Baker City with the former in the lead at all times.

MAN FALLS FROM SWIFT MOVING TRAIN.

After lying helpless beside the railroad track for nearly 13 hours, Charles B. Riley was picked up Saturday evening and is now at the county hospital in a rather serious condition. He is suffering great pain but it is impossible to determine how badly injured he is, though it is known that several ribs are broken. It seems he was beating his way from Portland through to the east and when near Noll station he fell from the top of the passenger coach on which he was stealing a ride. This was on train No 4 which passed Noll about 1 a. m. Friday night. He was not found until Saturday evening. He is 45 years of age.

Summary of Season by Rader. Inasmuch as the Pendleton baseball team is to now enter the professional arena with Walla Walla, La Grande and Baker City, it is somewhat interesting to look over their record for the 10 games played this spring.

In the last two games Pendleton has made but one error.

The last game was with Fort Walla Walla, which, by the way, was the last team played last year when they used many of the same players as yesterday, including their battery, while Jerry King was the only Pendleton player in both games.

This last game was remarkable for several reasons. Only three men died on bases on each side while only three men reached first base on errors on both sides together. The fort boys only got five men to first, two on hits, one on error and two bases on balls.

In one inning their first two men walked, filling first and second, yet they never got a man to third during the game.

Two fast double plays were pulled off by each team during this game. In seven hits by the home team and two by the visitors nothing better than singles were made.

At La Grande Pendleton pulled off the only triple of the season.

We now have an extremely strong infield, a very heavy batting team, good fielders and they play the game all the time, consistently and with head-work, notwithstanding the criticisms sometimes heard on plays that are bound to occur even among the best professionals.

The record of their work is seen in the following comparative table as shown by the score book for the 10 games played this year:

Pendleton team.	Opponents
Games won	8
Runs earned	84
Hits	102
Errors	48
Stolen bases	21
Sacrifice hits	6
Reached first	209
Fielding average	882
Batting average	295
Struck out	54

Almost a Runaway.

John Richardson, a rancher, had a narrow escape from a serious runaway on Court street this afternoon. While he was standing on the walk the team became frightened at a passing auto and started to run. He caught the bridle rein of the horse nearest him and though he was dragged half a block, succeeded in checking them until assistance came. A broken neckyoke strap was about the result of his damages.

PANAMA IMPROVEMENTS.

Isthmian Commission Authorized to Install Sanitary System.

Consul James C. Kellogg makes the following report from Colon on the new sanitary works and other improvements to be effected at the Panama town of Portobello:

Near Portobello, a small town on the coast about 18 miles northeast of Colon, are located the stone quarries which are to furnish the stone for the great locks at Gatun, Canal zone. Work on the settlement adjoining the quarries, which is carried on by the Isthmian canal commission, is advancing steadily.

This new village or settlement is located across the bay, about a mile from the native town of Portobello and has a present population of about 300. The buildings, completed or under construction, comprise an office building, a residence for the engineer in charge, bachelor quarters, and two two barracks for Spanish laborers and one for colored laborers, with mess houses and kitchens.

A dispensary and hospital have been authorized, but at present tents are

being used for this purpose, and also for the quarters of the district medical officer. A complete system of sewerage and drainage will be inaugurated, together with other sanitation; work was begun in March. A reservoir is under construction, and it is expected that it will be finished in about six months. The water will be obtained from numerous mountain streams, which will furnish an abundant supply.

The government of the republic of Panama has given permission to the government of the canal zone to establish the sanitary works in the town of Portobello in order to better the hygienic conditions. The sanitary regulations relative to fumigations, quarantine, etc., are to be the same as are enforced in Bocas del Toro, Republic of Panama.
