SILVER MEDAL TO BE AWARDED

DRILLING CONTEST AT ARMORY TUESDAY NIGHT.

Sergeants and Corporals Will Compete
—Each Non-Com. Will Drill a
Squad — Approaching Promotions
Lead Interest to Contest — Kern
Turns Over Command to Lieutenant
Smythe—Resignation of Captain Re-
ceived With Regret.

Next Tuesday night a drilling con-
test will be held in the Armory by
the non-commissioned officers of
company L and the event is being
looked forward to with interest by
the local guardsmen. The contest will
be open to all sergeants and corporals of
the company and to the winner will be
awarded a silver medal, offered by
the two lieutenants of the company.

In the contest each non-com. will
drill a squad for a certain period of
time and the medal will be awarded
to the man making the best showing
as a commander. In view of the fact
that a number of promotions are soon
to be made in the company the com-
ing contest is being awaited with
much more than usual interest.

Lieutenant Smythe in Command.
Orders have been received from the
adjutant general for Captain M. S.
Kern, who recently resigned, to turn
over his command to First Lieutenant
Smythe and he has done so.

However, the resignation of Cap-
tain Kern was received with much
regret by both Adjutant General Fin-
ner and Colonel C. E. McDonald. By
both those officers he was implored
to withdraw his resignation, but ow-
ing to the fact that his business af-
fairs makes it necessary for him to
leave the guard he will not do so.

Free Beds for Seven.

Last night seven homeless and
moneyless wanderers were lodged in

COLDS

The very hour a cold starts is the
time to check it. Don't wait—it may
become deep-seated and the cure will
be harder then. Every hour lost at
the start may add days to your suf-
fering. Take

F & S Cold Capsules

Used in time they save all that
might follow—sickness, worry, ex-
penses. They never fail.

States senator, will speak at the fol-
lowing places and dates:
Hermiston, May 28, at 2 p. m.
Echo, May 29, at 2 p. m.
Pendleton, May 29, at 7:30 p. m.,
Weston, May 30, at 2 p. m.

J. S. DOWNEY MARRIED.

Former Pendleton Man Here With
Spokane Bride.

J. S. Downey, of Spokane, formerly
of this city, is here in company with
his bride. The marriage of Miss Ger-
trude Belle Farrow and Mr. Downey
took place Sunday afternoon at the
Holy Trinity church in Spokane, and
the couple after spending a short time
in the city will leave for Portland, Se-
attle and different points to spend
their honeymoon.

The bride is beautiful and accom-
plished and for some time she has
been singing in one of the leading
churches of Spokane. Dr. Downey,
while in Pendleton, was salesman for
the Eilers piano house, and since he
has been in Spokane he has secured
the excellent position as manager of
the Sherman Clay piano house in that
city. He is a very worthy young man
and has many friends in eastern Ore-
gon who wish the couple every joy.

Strain Sits Up.

Assessor C. P. Strain was able to sit
up for a short time yesterday, it being
the first time he has had strength to
do so since he was taken ill. He will
probably be so that he can be taken
from the hospital to his home the lat-
ter part of the week. He will be whol-
ly unable to take any part in the pres-
ent campaign in which he is a candi-
date for re-election.

Marriage License.

A marriage license was issued today
to Stanley Parrish and Nellie Gugin.

SALARY SYSTEM DON'T PAY.

Idaho Finds That the Fee System Was
Cheaper for the State.

State Treasurer Hastings has pre-
pared a statement of the fees receiv-
ed by the stenographers of the seven
judicial districts of the state during
the year ending April 1. The total
fees from all districts amounted to
only \$1927.83 for the year, says the
Boise Capital News. It will be remem-
bered that the last legislature placed
all stenographers on a salary basis,
claiming that the fees collected were
too great and should be turned into
the state treasury. The fees from all
the districts have not been enough to
pay one stenographer.

The total fees from the first judicial
district were \$617.67; second district,
\$236.58; third district, \$151; fourth
district, \$385.15; fifth district, \$148-
30; sixth district, \$24.13, and seventh
district \$165.

The clerk of the supreme court dur-
ing the same period collected \$2548.15
or more than \$600 in excess of the fees
collected by all the judicial districts.

Stenographers formerly drew a sal-
ary of \$1000 per year each and were
allowed the fees earned. Under the
new law they draw \$2500 each and
the fees are turned into the state.

Idaho Herder Killed.

The ill feeling aroused by the kill-
ing of a dog by one of the herders of
Castro Aldecoa's camp situated on
Grimes creek, 18 miles from Idaho
City, and the attempt on the part of
another herder, Domingo Aresuma,
and a brother of Castro's to wrestle
the rifle use to kill the dog from the
camp of John Echebarria & Co., cul-
minated in the death of Domingo Aresuma
at the hands of Tomas Arrate about
5 o'clock Saturday afternoon, says
the Boise Capital News.

The intelligence of the shooting was
brought to this city about 6 o'clock
Sunday morning by Victor Echebarria,
a camp tender at his brother's
camp, where the shooting occurred,
and by Martin Legariza, a herder of
the camp, who stated that Arrate was
at the camp awaiting the arrival of
the officers, claiming that he killed
Eresuma in self defense. Both out-
fits make their headquarters in Boise,
which accounts for the fact that the
two men came to Boise, a distance of
22 miles to inform the sheriff's office
instead of riding to Idaho City, about
18 miles distant.

The Public Schools of Germany.
Consul-General Richard Guenther,
of Frankfurt, reports that there were
61,128 public schools in Germany in
1906, attended by 9,779,356 pupils, or
94 per cent of all German children of
school age, leaving only 6 per cent
for all other schools, including home
training. Since 1901 the school at-
tendance shows an increase of 9.1 per
cent. During the same time male
teachers show an increase of 19.6 per
cent and female teachers an increase
of 30.5 per cent. The annual average
cost per pupil for public school edu-
cation has increased from \$11.20 in
1901 to \$12.86 in 1906. The average
number of scholars to each teacher
was 58 in 1906, some having as high
as 85 pupils and others as low as 32.

Overcrowding in Scotland is not so
bad as it used to be. The proportion
living more than four per room fell
from 18.67 per cent in 1861, to 9.56
in 1901.

PRICES POOR, CONDITIONS GOOD

FEDERAL INSPECTOR TOURS CENTRAL OREGON.

Dr. W. D. Mason Personally Inspects
126,000 Sheep—Clips Are Free From
Dust and Grease—Buyers Busy But
Prices Low — Thinks Methods
Should Be Improved—Little Atten-
tion Paid to Improving Breeds—
Dipping Beneficial.

Dr. W. D. Mason, federal stock in-
spector, and who was formerly sta-
tioned here, is now in the city for the
purpose of consulting with Dr. S. W.
McClure, head of the bureau of ani-
mal industry in the northwest.

Since April 1 Dr. Mason has been
in Sherman, Wasco and Crook coun-
ties inspecting the sheep of that sec-
tion, and he has personally inspected
a total of 126,000 sheep.

That the general conditions are
good with the sheepmen is declared
by Mason, and he says that the clips
this year will be freer from grease
and dust than in past seasons.

During the past few weeks buyers
have been busy in the interior and
the prices paid show a decided slump
over those given last year. For year-
ling wethers \$2.25 has been about the
prevailing price, while \$2.50 per head
has been paid for mixed yearlings.
Last year the prices were about \$1
higher than this.

Should Improve Methods.

Dr. Mason is a graduate of the agri-
cultural college of Iowa and has had
experience in the stock sections of the
middle states as well as in the west.
Like Dr. McClure, he is an advocate
of more advanced methods of stock-
raising and believes that in the course
of time sheepspraying in this state will
become more on the basis of what it
is in Ohio and other middle states.

When it becomes necessary for
sheepmen to own their own ranges
he holds that the most intelligent
methods possible should be used. At
present practically no attention is paid
in Oregon to improving breeds and
little attention is paid to mutton rais-
ing. At present there is no mutton
in eastern Oregon and if a packing
plant were now in operation in Port-
land there would not be enough live-
stock in the northwest to supply the plant.

Dipping Was Beneficial.

While inspecting the sheep of the
interior Dr. Mason found not a single
band that was infected with scab or
ticks. This splendid condition he
ascribes to the annual dipping to which
all the sheep of the state were
submitted last spring.

TONS OF ROCK ON HIM.

Young Austrian Mashed to Pulp But
Still Lives.

Spokane, May 20.—With his back
broken and his thighs and abdomen
frightfully mutilated, Mike Bolich, an
Austrian, 20 years of age, lies at the
Sacred Heart hospital, a suffering
victim of a cave-in in the west side
pass tunnel of the Chicago, Milwau-
kee & St. Paul railroad near Taft,
Mont., Monday afternoon.

The young man was brought here
Monday evening over the O. R. & N.
and is under the care of Dr. T. R.
Evans. Golich is suffering terrible
agony and his injuries are of such
nature that little hope is held out for
his recovery.

The accident occurred some time
near 6 o'clock Monday evening. Bolich
was working with a pick when sud-
denly tons of rock crashed in upon
him, pinning him to the ground and
inflicting injuries from which he can
hardly recover.

He is quite well known in Spokane,
having been at 313 Main avenue of
this place for some time before going
to Taft, Mont. He left home and pa-
rents in Monte Negro five months ago
and had been employed in the tunnel
just two months and six days.

An operation is to be performed at
the Sacred Heart hospital this after-
noon for the purpose of seeing what
can be done toward saving the young
laborer's life.

Drug Clerk Blunders.

New York, May 20.—Fleeing from
plague-stricken Venezuela, Eduardo
de Erazo, a coffee planter, came to
his death early today in a fashionable
New York hotel by taking what he
believed to be a harmless medicine.
His wife, who also took some of the
medicine, is in a serious condition.
Mr. de Erazo sent out to have a pre-
scription for a tonic compounded at a
drug store.

An investigation showed that the
prescription called for aspartein. At
the drug store bottles containing as-
pertraine and atropine are kept side
by side. It is believed that the clerk
used the wrong bottle in filling the
prescription.

An architect is now employed in
drawing up plans for the new \$50,000
building for the Willamette University
at Salem.

WHEN YOU TAKE

Hostetter's Stomach Bitters you have
a medicine that is not only guaranteed
absolutely pure, but also has an un-
equalled record for cures of Stomach
Liver and Bowel ailments back of it.
It should, therefore, appeal to every
sick man or woman. Get a bottle of
