

Now just see Japan,
Though such a small man,
He's going to swipe
All the trade if he can.

There's no denying the fact that Japan is a big factor in commerce. We are also making big inroads upon the clothing patronage of the public. Our trade is constantly increasing owing to the fact that we never take any unfair advantages. For good treatment and high quality goods, at reasonable prices, come to us.

SEATTLE READY FOR BIG FLEET

FOUR DAYS' FETE IN
PUGET SOUND WATERS

Every Available Boat in Seattle Has
Been Chartered by Sightseers—The
Sound Is Alive With Bunting and
Flags—Accommodations to Be Pro-
vided for All.

Seattle, May 21.—The whole city is alive with preparations for the visit of the Atlantic battleship fleet next week. The reception and entertainment committee is completing the final details of the elaborate program of entertainment arranged for the entertainment of the officers and men of the fleet, and the visitors who will flock to the city during the stay of the fleet.

The merchants and owners of property in the business district are decorating their stores and office buildings in a lavish manner, that promise an attractive background for the various events to take place during the four days' stay of the fleet.

All over the city, bright colored flags, bunting and elaborate arrangements for electric illumination are in evidence on the principal streets and along the waterfront the steamship companies and deck owners are installing decorations that will make the shoreline brilliant with color in greeting to the stately ships as they file in to their anchorage on their last official visit to an American city, before starting on the long voyage around the world.

Form the time the fleet is sighted at the entrance of Elliott bay, to the last moment of the four days' stay of the ships, there will be a continuous round of spectacular entertainment that will furnish exciting and interesting diversion for the city's guests.

Harbor Filled With Craft.
Every available vessel in the harbor has been chartered by private parties, and excursion boats will carry enormous crowds in the mercantile fleet that will accompany the official steamship to West Point to greet the battleships as they enter the harbor.

The Elliott Bay Yacht club and the Seattle club will be on hand with about 50 white winged craft and will add an attractive feature to the marine pageant, and every launch for miles around will screech a welcome, while many thousands of flags will wave a greeting to the nation's defenders of the sea.

The entrance to the harbor will present a marine spectacle never equalled in the history of the northwest, and the welcome will be made the occasion of a patriotic celebration that will go down in history.

Governor Albert E. Mead has been requested to call upon the people of the state to make May 23 a general holiday for the participation in the welcome, and John F. Miller of Seattle, has requested the merchants and business interests of this city to permit their employees to join in making the reception of the fleet in Puget Sound the most memorable in the history of the cruise on the Pacific coast.

Four Days' Celebration.
The pageant on the bay will be only the beginning of a four days' celebration filled with interest to all who participate or observe. It will include public receptions to the officers and men, automobile parties with 100 machines in line, grand balls for officers and men, theater parties, athletic sports, and a monster barbecue at Woodland park, an afternoon of aquatic sports and boat races on Elliott bay, and a great land parade with 10,000 soldiers, sailors and uniformed semimilitary organizations that will provide the most spectacular display of armed forces ever assembled in the northwest.

The battleships will be anchored at points in the harbor, where they will be easy of access to visitors and countless launches and small steamboats will transport visitors to and from the ships. Rear Admiral Charles S. Sperry, who will command the fleet while it is at Seattle, has announced that he will cooperate with the committee in giving the public every opportunity to see each ship in line.

Arrangements have been made by the committee on entertainment for providing accommodations for all persons who visit the city, and an information bureau will be maintained by the Chamber of Commerce in Pioneer Place, where visitors can obtain free information as to location and price of desirable lodgings.

WAS A RAINY WEEK.

Every Day Was a Wet Day Last Week in Oregon.

The week was remarkable for its unseasonably low temperatures. Cloudy skies generally prevailed and there was a marked deficiency in the amount of sunshine. Rain fell on almost every day in the western counties, while in the eastern counties rains were also frequent, though the recorded amounts were much smaller. A particularly heavy rain fell on Friday. In the eastern portion of the state considerable snow fell in the higher altitudes. Light frosts occurred in southern Oregon on Tuesday morning, and heavy frosts in eastern Oregon on Wednesday, Saturday and Sunday mornings.

Columbia River Valley.
Hood River, Wasco county, H. L. Hashbrouck—Fair weather prevailed until Thursday, when rain began to fall which continued over Friday. Cloudy weather with a light mist prevailed on Saturday.

The Dalles, Wasco county, S. L. Brooks—The week has been one of varied weather conditions. On the first three days very high winds prevailed. Light frost was reported in

places on Tuesday and Wednesday. The week was unusually cool. Steady rain began falling Tuesday night and continued intermittently until Sunday afternoon.

Wasco, Sherman county, J. R. Howell—A heavy rain fell on Friday. Mikkalo, Gilliam county, J. F. Chandler—Cool weather with considerable cloudiness prevailed. The weather was at times threatening, but the rainfall was inappreciable.

Condon, Gilliam county, S. C. Dodson—Heavy rain began on Thursday and continued all night, turning to snow toward morning. The total amount of snow was two inches, which however, soon disappeared.

Ella, Morrow county, Carl F. Troedson—Clear and cool weather prevailed throughout the week.

Heppner, Morrow county, George White—The week was cool and generally warm. There was quite a heavy rainfall on Thursday and Friday.

Umatilla, Umatilla county, Helen L. Duncan—The week was very cold, excepting on Wednesday, which was very warm. A heavy shower of rain fell on Thursday.

Pendleton, Umatilla county, H. E. Johnson—Cloudiness prevailed most of the week. A light frost occurred on Wednesday.

Wallowa, Wallowa county, L. J. Coverstone—Cloudy and cool weather prevailed all week. Rains fell on almost every day, but the amounts were small.

Hermiston, Umatilla county, C. W. Kellogg—The week was cool and cloudy, with considerable wind.

Placene District.
Vale, Malheur county, H. P. Osborn—The first two days of the week were clear. Rain began falling on Thursday afternoon and continued during the following day.

Warm Springs, Crook county, C. C. Covey—The long drought was relieved by a moderate rain Wednesday. Yonka, Klamath county, Jacob Rueck—Dry, cool winds prevailed during the greater part of the week.

Oklahoma Wet Again.

After a trial of less than a year the new state of Oklahoma seeing the conditions that a dry state would bring upon the people, have decided to open well regulated saloons in every city in the state under state control. Hood River also could not stand to see her money going to other cities after going through a dry experience, have opened the saloons again. Pendleton has the best regulated saloons in the state, and the prosperity of the farmer and business men go to prove that saloons and prosperity go together. Look at Spokane, Seattle, Tacoma, Portland, Walla Walla, Wenatche, Bellingham, Butte, Salt Lake, and in fact, every city of any importance in the United States. They all have the saloon and would not think of going dry. The saloon man is a booster for any town. He always has a fund of information for the homeseeker, or the capitalist looking for investments. It is he who more than any other business man points out the good things in his town and county. No one wants prohibition but a crank or a drunkard. Both of these extremists are a detriment to a prosperous community.—Central Committee.

New Dust-Killing Machine.

Consul General Robert J. Wynne reports that a new tar-spraying machine, which the makers claim will do away with the dust nuisance, has been tested on the roadway in front of the Horticultural hall, Westminster, London, before practically the whole of the municipal engineers, a large number of county surveyors and suburban engineers, and two representatives appointed by the war office. After the tar-spraying process a second machine scattered a level layer of granite grit and chips upon the tar, which, when rolled, formed a road with a fine, smooth surface, durable and dustless. A tar macadam road made in this way costs from 3s. 6d. to 4s. (85 to 97 cents) a square yard, as against ordinary macadam, which costs on an average 2s. 6d. (60 cents) a square yard.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have offered One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

SMYTHE IS OPTIMISTIC.

Secretary of Sheep Commission Praises Eastern Oregon.

Secretary Dan P. Smythe of the Oregon Woolgrowers' association, passed through Portland today on his way to Salem, where he represents the third district of Oregon at the annual meeting of the state sheep commission, says the Oregon Daily Journal.

Mr. Smythe says the wool clip this year is as large as usual, and that the wool is of exceptionally fine quality. The first sales day at Pendleton will be on the 25th of this month. He does not think much of the product will change hands at present owing to the falling market.

At this session of the sheep commission the eastern Oregon men intend to take some radical action to prevent further encroachments of Washington sheepmen in the Wenaha forest reserve.

Mr. Smythe, who is extensively engaged in sheep raising himself, is emphatic in praise of the compulsory dip-

ping law passed at the last session of the legislature. He says Oregon sheep are now practically free from disease of every kind and the wool is of a much higher grade than in former years.

The administration at Washington has favored the woolgrowers in the Evergreen state to the detriment of Oregon stockmen. Just what action will be taken Mr. Smythe was not prepared to say, but he thinks the commission will make recommendations that the forestry department, at the national capital will not dare to overlook.

Human Filters.

The function of the kidneys is to strain out the impurities of the blood which is constantly passing through them. Foley's Kidney Remedy makes the kidneys healthy so they will strain out all waste matter from the blood. Take Foley Kidney Remedy at once and it will make you well. Pendleton Drug Co.
