Entered at the postoffice at Pendleton,
Oregon, as second-class mail matter.

I know a path that leads away
Far from the busy haunts of
men,
Where little children came to
play
And frolic in the shady glen.
Ah! long ago I sung with them
The songs their children sing
today.
I know a brook that leaps along
The meadow and the pasture-
land;
In days ago its merry song
Made music; and again I
stand
And listen to the meadow brook
Make music—and my heart
grows strong.
I roam a vagrom as before
Beyond the valleys and the
hills;
While with the wanderers of
yore
My heart renews the golden
thrills;
I frolic in the shady glen
And am a boy with boys once
more.
—Horace Seymour Keller.

WHEN TO ENJOY.

A prosperous wheatgrower of the
county made the remark on the street
of Pendleton yesterday that if the
price of wheat went up a half cent
today he would go to Seattle to see
the Atlantic fleet. Otherwise he
could not afford it.

This brings to mind the question of
enjoyment and pleasure and life and
labor and human destiny.

The time to enjoy life is now. You
are going to live in Umatilla county
and on the earth but once, and a very
short time at that. And you will per-
haps never see a better country, no
matter what your intentions.

So the time to enjoy life is now,
while you are in an appreciative mood
and have the time, means and oppor-
tunity. Splendid opportunities for
keen enjoyment are passed by every
day by people who are amply able to
take the time and money to go and
see places and events. They argue
that they will be better able next year.
That times will be more favorable
next year or the next.

Before you know it, your life has
slipped away and you are ready to
"pass in your checks" and your mind
is dwarfed, your experience is limited,
your life is empty, your enjoyment
has been neglected, your pleasures few
and you go out into the great beyond
with half your life undeveloped, un-
used.

Enjoyment brings out the best there
is in one. It awakens higher senti-
ments and makes better citizens of
men and women and the time to en-
joy is every day, every hour, not next
year or the next.

What will half a cent on a bushel
of wheat mean to you in a century or
even 50 years? It will not prolong
your life a second nor add on rich
experience to your years, no matter
how many you may live.

Be frugal, industrious and saving,
to be sure, but enjoy life as you go
through it. You cannot go back over
the road. You cannot retrace your
steps.

ARE YOU A CITIZEN?

Within two weeks every man in the
state of Oregon will be called upon to
do his duty as a citizen, in casting a
ballot not only for his choice of offi-
cials, but upon 19 laws proposed by
the initiative for the good of the state.

Are you going to vote or are you
going to stay at home? Are you a
citizen, or just a dummy? The state
election is the test. You prove your
interest in the government on that oc-
casion.

The registration this year is the
heaviest since the registration law
went into effect and the vote should
be the largest. The men of Oregon
are alert, wide awake and aggressive,
as is shown by the material progress

of the state, but there has always been
a heavy stay-at-home vote hereto-
fore.

This year there should be no stay-
at-home vote. Vital issues are at
stake. Congressmen and a United
States senator are to be elected and
these officials are to take part in
making the national policies of the
government.

The republicans of Oregon can keep
the state in the republican rank by
getting out and casting their ballots.
They are in the majority and can send
a republican senator and congressman
to Washington to work with the ma-
jority for the benefit of the state.

They have a clean, honest, aggres-
sive and fearless candidate for the
United States senate and also for con-
gress and can sound the republican
battle cry for the nation on the first
day of July by going to the polls and
voting their ticket.

Be a citizen. Don't stay at home.
exercise your rights. Keep alive your
prerogative. Make the vote in Uma-
tilla county heavier than the registra-
tion.

SPOKANE VIEW OF SALOONS.

Spokane is a saloon town. It is a
frontier town with frontier sentiment
still prevailing in the minds of a large
part of her people. She has been
filled up with easterners, but all about
her cling the air and atmosphere of
the west, the peculiar habits and sen-
timents of the pioneers and the lin-
gering devotion of the old-timers to
the old ways of the west.

But the following editorial from
the Spokane Review shows an ad-
vanced sentiment on the liquor ques-
tion which is now agitating every sec-
tion of the country and proves that
Spokane, although in a measure a
frontier city, has yet a keen appreci-
ation of the modern movement to-
ward better moral conditions. The
Review says of Moscow's change to
a "dry" town:

The citizens of Moscow are con-
gratulated on the "dry" vote which
they gave in the election Tuesday. By
\$14 to 392 they have decided that the
saloons must go.

In view of Moscow's position as
seat of the state university of Idaho
the result is particularly gratifying,
and will enhance its reputation with
many people who, on account of its
educational advantages, may wish to
reside there, and who will be the bet-
ter pleased that residence is divorced
from liquor influence.

Moscow's action is another straw
indicative of the way the wind is blow-
ing in many sections of the country
against saloon domination. It is said
that some of the temperance workers
there are disappointed because they
did not get a larger majority.

They should rather rejoice over the
display of strength which they made.
It places Moscow in a favorable light
before the rest of the country, espe-
cially with those who realize how
hard the fight has been.

WHY GO AWAY FOR EDUCATION?

If the taxpayers of Oregon will
stop to consider for a moment that
the expense of sending their children
out of the state for an education far
exceeds the slight increase in taxes
which the appropriation for the Uni-
versity of Oregon would impose up-
on them, they would not for a moment
think of voting against the appropri-
ation.

This is the cold, mercenary view
of the matter and the argument from
this standpoint is all in favor of sup-
porting the Oregon university.

On the other hand there is the
matter of state pride and patriotism
which should actuate every thought-
ful and loyal citizen of the state to
support home institutions.

What Oregonian wants to see Wash-
ington, Idaho and California outrank
Oregon in the matter of educa-
tional institutions? Who is so deaf
to the sentiment of home pride as to
permit Oregon to go backward while
all her sister states are going ahead?

When you think of this you will
vote for the university appropriation.
Oregon education for Oregon's
children.

BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at \$1.00 per bottle. Book containing valuable information free.

The Bradfield Regulator Co., Atlanta, Ga.

Noah was the founder of indigestion—He forgot to leave the pigs ashore

The American people in consequence have ever since been victims of lard-cooked food and indigestion.

Lard soaked food is not fit for human stomachs because lard is made from greasy, indigestible hog fat, and is bound, sooner or later, to make trouble for your inner machinery.

Cottolene is the only rational, national shortening. It is a pure vegetable product,

and its source (the cotton fields of the Sunny South) is in striking contrast to the source of lard (the pig-sty).

Cottolene makes food that any stomach can digest—palatable, nutritious and healthful. If American housewives but knew the superiority of Cottolene over lard, both from a practical and health standpoint, lard would never again enter any well-regulated kitchen.

Cottolene is Guaranteed We hereby authorize your grocer to refund your money in case you're not pleased after having given COTTOLENE a fair test.

Never Sold in Bulk COTTOLENE is packed in pails with a patent air-tight top, to keep it clean, fresh and wholesome; also to prevent it from absorbing the disagreeable odors of the grocery, such as fish, oil, etc.

Cook Book Free We shall be glad to send any housewife, for a two-cent stamp, our new "PURE FOOD COOK BOOK," edited and compiled by Mrs. Mary J. Lincoln, author of the famous "Boston Cook Book." Address

THE N. K. FAIRBANK COMPANY, CHICAGO

Nature's Gift from the Sunny South

The big events of the year in Umatilla county are now at hand. Don't forget any of them. Today and tomorrow the Scots hold their picnic at Athena. Next Wednesday all of Umatilla county will go to Hermiston to see the gates of the irrigation reservoir open. The last three days of next week the pioneers will celebrate at Weston and then on June 1, is state election when every citizen should do his full duty. Milton will celebrate strawberry day on June 4, as a fitting close to a long list of pleasant events in the county. Don't forget any of these events.

The best night's work the city council of Pendleton has done for many a moon was when it ordered Olney cemetery to be improved. Every citizen of the city joins heartily with the council in that noble mission and hopes to see it hurried to completion. Let us have some trees and grass growing there this year.

No cyclones, no tornadoes, no suffocating nights, no hot winds, no crop failures, no fleas, no malaria, no itch in Umatilla county. Just sunshine and good health and prosperity and contentment, and a "little cosy corner" for every homeseeker.

CANADIAN RAILWAY BUILDING.

Consul E. A. Wakefield, in the following report from Orilla, describes the progress in railway building in the Canadian province of Ontario:

On June 15 next service on the Toronto to Sudbury Canadian Pacific Railway line will be inaugurated, which is expected to make a decided difference in freight and passenger traffic to Winnipeg and western points from Toronto and Buffalo. This change practically puts Toronto on the main line of the Canadian Pacific railway and means a saving of eight hours between Toronto and Winnipeg.

The Canadian Pacific railway is still pushing work on the Peterboro to Victoria branch (or Midland) branch, but the date of its completion is not mentioned as yet. The James Bay Railway (McKenzie & Mann system) has been granted a charter to build from the main line near Orilla to some point not yet named on the Georgian bay.

The Ontario government is to guarantee bonds issued for the construction of this branch (30 miles long) to the amount of \$2,500,000. The Grand Trunk Railway is preparing to double track the Midland Division from Midland to Port Hope (150 miles) during the summer. In fact work has already begun on this undertaking. These items are indicative of the activity in railway circles in this district and illustrate the importance the lake and rail grain traffic is expected to assume in the future.

The city council of Roseland, B. C., has ordered the lid placed on all gambling in that city.

MIXED METAPHORS.

Edwin Markham, at a dinner, said of mixed metaphors: "When I was teaching in Los Angeles, I used to read every week a little country paper whose editor's metaphors were an unfailing joy to me."

"Once I remember, this editor wrote of a contemporary: 'Thus, the black lie issuing from this base throat, becomes a boomerang in his hand, and

hoisting him by his own petard, leaves him a marked man for life.'

"He said in an article on home life 'The faithful watchdog or his good wife, standing at the door, welcomes the master home with an honest bark.' In the obituary of a farmer he wrote: 'The race was run at last. Like a tired steed he crossed the harbor bar and casting aside whip and spur, lay down upon that bourne from which no traveler returns.'"

RHEUMATISM

BODY RACKED WITH PAIN

No other disease causes such wide-spread suffering as Rheumatism. It is a nerve racking torture, and so thoroughly does it dominate the system, when it becomes entrenched in the blood, that its victims are usually complete slaves to pain. Rheumatism is due to an excess of uric acid in the blood brought on by stomach troubles, weak kidneys, indigestion, and a sluggish condition of the system. The natural refuse of the body, instead of passing off through the ordinary channels of waste, is left to sour and ferment in the system because of these irregularities, forming uric acid which is absorbed into the blood, and Rheumatism gets a foothold. As the blood circulates through the body it deposits the acid, irritating substances with which it is saturated, into the different muscles, nerves, tissues and bones. Sharp, biting pains commence, the flesh becomes feverish, swollen and tender, the muscles and joints throb and jerk, and the body is literally racked with pain. Plasters, blisters, liniments, etc., can never cure the disease; they relieve the pain, perhaps, temporarily, but do not reach the trouble, which is in the blood. S. S. S. is the proper treatment for Rheumatism. It goes down and attacks the disease at its head, and by driving out the poison and acid fluids which are causing the pain, and strengthening and enriching the blood, cures Rheumatism permanently. S. S. S. is the greatest of all blood purifiers, just what is needed in every case of Rheumatism. Book on Rheumatism and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

What Makes a Bank Strong?

In judging a bank, always remember that it is the personnel of the stockholders, directors and officers that are behind the institution which give confidence to the depositor that his funds are safe.

The Pendleton Savings Bank

Is essentially a "Home" Institution. Its stockholders are well known Umatilla county and Oregon citizens. Its constant growth is the result of careful and conservative management, with the most liberal treatment for all deserving enterprise.
