TURNER TELLS OF CAT KILLING

KEPT WATCH TWO NIGHTS
IN A DRIZZLING RAIN

Deputy Game Warden Writes to East
Oregonian Telling How He and
Henry Laszinka Killed Two Cougars
Near Ukiah—Big Cats Had Killed
a Deer and Retained to Feast—Ap-
pear at 3 O'clock in the Morning.

The East Oregonian received the following interesting letter from "Pat" Turner, deputy game warden, who is now hunting in the south part of the county, and who with Henry Laszinka killed two monster cougars in Camas Prairie this week. Mr. Turner says: "Mei Shurum and wife and myself and wife have been stopping at Henry Laszinka's place in Camas Prairie for several days and have some exciting times. This week while out hunting for bear we found where something had killed a four-year-old buck deer and had dragged it up a steep hill for 200 yards. On examining the ground we found that the deer had been killed by a cougar and we made up our minds to get Mr. Cougar. Henry Laszinka and myself went out one evening at 5 o'clock to watch and kept watch all night in a drizzling rain, changing off with each other every two hours during the night. However, the cougars did not come back and we stayed all next day and the next night until about 3 o'clock in the morning when they appeared cautiously creeping toward the deer's carcass. I tell you they looked big and savage with their eyes shining in the moonlight and it was a sight a man will not often see in a lifetime. We each selected a cougar and counted three and fired and killed both animals at the first shot. It was a long watch of about 36 hours in drizzling rain and snow, but we made up our minds to get them."

the County Schools Now Being Passed
Upon.

NO CHARGE AGAINST PRICE.

Man He Would Kill Has Skipped the
Country.

No charges have yet been filed in the circuit court against Lee Price, who snatched a pistol at Dosser Greene on Main street Wednesday evening, and from appearances Price will escape with the fine that was imposed upon him in the justice court.

Since the startling episode occurred several evenings ago, Green has disappeared from sight and it is presumed he has left this county. Consequently there has been no complaint laid before the district attorney.

Wrong Time for Excursion Train.

The pink circulars issued by the Hermiston people for the Hermiston excursion to be run over the O. R. & N. next Wednesday give the wrong time for the departure of the train from this city. The circulars give 7 a. m. as the time of the departure of the train, while the train will not leave until 8 o'clock. The prospects are now that an enormous crowd will go from this city to see the irrigation reservoir opened. The O. R. & N. company has made a one fare rate of \$1.15 for the round trip and free lunch, music and speaking will be provided by the Hermiston people.

Rains Help the Ranges.

Montie B. Gwinn, president of Pendleton Savings bank, returned this morning from Malheur county where he has been in the interest of his extensive sheep business for several days. He says that rains within the past few days have greatly helped the ranges and that sheep are in excellent condition in that section of the state.

Butte, Mont., May 22.—William Hays, a convict, was found guilty in first degree murder for the killing of Guard John A. Robinson in the sensational prison outbreak last March. George Rock pleaded guilty to the same offense and will also hang. Hays' defense was that he had not laid hands on Robinson, but he was convicted for his part in the conspiracy and the jury recommended hanging. Two other convicts, C. B. Young and Orell Stevens, are yet to be tried.

RAILROADS REDUCE WAGES.

PRETTY POSTMISTRESS AIRED PARSON'S LOVE AFFAIRS

Read Love Letters and Then Told the
the Gossips, Who Did the Best.

Chicago, May 21.—Miss Anna B. Whitmore, the pretty postmistress of the village of Gray's Lake, will be given a hearing today by the federal authorities on a charge of tampering with mail that passed through her hands.

It is not alleged that the fair guardian of Uncle Sam's mails was actuated by motives of cupidity, but rather that a natural feminine curiosity in the love affair of a local parson led to her arrest. The Rev. Mr. Havenor of Gray's Lake, is the complaining witness.

Parson Havenor declares that the engagement to Mary Calvin of Fort Wayne, although supposed to be a profound secret, leaked out in Gray's lake and was known to every gossip in the village.

Everywhere he went, asserts the parson, he was greeted with grins and giggles and many people favored him with exact quotations from the loving letters that passed daily between him and his fiancée.

At last, says the preacher, he was told that the postmistress was spreading the information about his love affair, and he appealed to the postal authorities to put a stop to such proceedings. An investigation by postoffice inspectors and the arrest of Miss Whitmore followed.

It is not known what plea the alleged trifter with Cupid will make when the case is called for hearing today.

IRRIGATED LAND IS GOING FAST

MONTANA MAN BUYS
AND CONTRACTS FOR MORE

Representative of Oregon Fruit Company Closes Deal for Land Under
Furnish Ditch—Model Orchard Will
Be Put Out This Fall—Surprised to
Find Ripe Cherries May 21—Pub-
lic Will Be Taken to Project Free.

D. B. Costuma, manager of the Furnish-Coe Land Co., has just closed a contract with George C. Sinton, representing the Oregon Fruit Co., of Billings, Montana, for 80 acres of unimproved land, at \$125 an acre.

Sinton has spent some 10 days going over every portion of the project and the company he represents is going to put in a model fruit orchard this fall.

In addition to this sale, Sinton has also signed a contract for 160 acres of improved land at \$150 an acre, and has posted a forfeit as an option on 250 acres additional of unimproved land, at \$125 an acre. He represents some wealthy capitalists of Seattle and Ireland, and his belief in the future of the Furnish-Coe land is so strong that all of this land will be put into fruit this coming fall.

Sinton states: "I could not have been more surprised if I had found a gold mine when I came across and ate ripe cherries half a mile from the Furnish-Coe project. This was the most convincing proof as to the value I have received. Any climate and soil that will produce ripe cherries ready for market on the 21st day of May looks like a bonanza to me and I have been over every project in Idaho, Washington and Oregon."

Costuma states that he has closed a contract with two men in Walla Walla for a 35-acre tract, which is going to be turned into a nursery.

At present the Furnish-Coe people have disposed of almost 1800 acres of land in two months and Costuma states they will increase the price of sale to \$150 an acre before the middle of June. They are very much encouraged by the success met with, and they consider that the ripe cherries found yesterday on not one but several trees, speaks more strongly in favor of the rich soil and climate of Umatilla county than anything that might be said.

The Columbia Land Co. proposes to invite the people of Pendleton and Eastern Umatilla county to go to Echo on a special train at the company's expense during early July, when the people of the county will be able to see 1000 acres under cultivation as a result of two months' work. The watermelons and sweet corn will then be ripe and the western end of the county will have demonstrated beyond doubt the richness of its productive qualities.

Portland, May 22.—Pinnace pitched his third tie game this year, when rain stopped the engagement with Oakland yesterday, while the score was 3 to 3 at the end of the sixth inning. Wright got wobbly for Oakland when three runs scored on a hit, two bases on balls and two errors. The home guard was not to be outdone in politeness and promptly gave the game back the next inning.
