

The Regular Republican Candidates

HON. H. M. CAKE
STATEMENT NO. 1
REPUBLICAN NOMINEE FOR UNITED STATES SENATOR

MANN FOR LEGISLATURE.

Popular Farmer Would Represent Umatilla County.

L. L. Mann, the regular republican nominee for representative from Umatilla county, is one of the many successful, industrious and progressive farmers of the county.

For 16 years he has made Umatilla county his home and during most of that time has given his attention entirely to farming. He is a man of the soil and knows the needs of the varied interests of the county better, perhaps than any other person, being so long so closely identified with the real wealth producing occupations.

Mr. Mann is now 43 years of age, is married and has built up his home in Umatilla county. He has never been before the people for any high office and the vote he received at the primary election demonstrates the high esteem in which he is held by the people of the county, who have met him in either business or social way.

On the question of irrigation he is well posted and it is his desire to see the enactment of laws which will give each and every person entitled to the beneficial use of waters of the state an equal right to the same, and to the equitable distribution of these waters.

Mr. Mann is also a firm supporter of the Roosevelt policies and administration, believing that the continuance in force of such policies will lead the country as a whole to broader expansion industrially and to greater development of the varied resources and the preservation of the integrity of the tenets of the constitution that this is a government of and by and for the people.

The good, clean fight which Mr. Mann made in his race for the nomination stamps him as a man of integrity, honesty and fair dealing. He made his fight there on republican principles and the continuing in power of the republican party and still adheres devotedly to those same principles, believing that to send a democratic senator from Oregon would be to weaken, just that much, the republican principles.

MAHONEY IS POPULAR.

Candidate for Joint Representative Knows Needs of District.

T. J. Mahoney, the regular republican nominee for joint representative from Umatilla and Morrow counties, is a young man of sterling qualities.

At present he is cashier of the bank at Ione, in Morrow county, and is one of the influential, progressive and patriotic citizens of that community.

This responsible position he has held for several years and during that time has come in close touch with the business interests of the two counties, with the progress both industrial and social, and has gained an intimate knowledge of the needs of the district which he will represent in the lower house of the legislature.

Being so directly identified with the community and district as a whole,

he is a man of that character to ask and demand the passage of only those laws which are beneficial to this district and the state as a whole and to see to it that his district and the state are given equal legislation and attention as a part of the state of Oregon.

In addition to this, Mr. Mahoney is a republican, and stands for republican principles, the principles of progress and prosperity, which during the Roosevelt administration have been such a marked principle of national legislation and direction of affairs that the country today is making greater advancement in all industrial undertakings than ever before in its history.

Mr. Mahoney deserves and is entitled to the support of the republican voters and of all who believe in the government of the people and by the people as advocated and enforced by President Roosevelt.

WELLES FOR REELECTION.

Schools of the County Have Benefited by Mr. Welles' Administration.

Soon after Supt. Frank K. Welles announced that he would again be a candidate for the office of county school superintendent, the leading newspapers of the county noted the fact and expressed their approval of Mr. Welles in the following terms:

Weston Leader: Frank K. Welles has made a creditable record as county school superintendent, and it is quite probable that a majority of voters will declare that he is entitled to another term. Mr. Welles has directed the county's educational affairs in an intelligent, systematic manner, and its every school has been an object of his watchful solicitude. Among the teachers he is doubtless as popular as any superintendent is capable of being. To please them all would be an impossible task.—Leader, February 1.

SUPERINTENDENT OF SCHOOLS

Frank K. Welles Will Be Re-elected Without Opposition.

Athens Press, March 6, 1908: Frank K. Welles, county school superintendent, who has made an enviable record in his administration of the county's educational affairs, has announced his candidacy for reelection. Press readers, irrespective of party affiliations, express themselves with favor in regard to Mr. Welles' candidacy, and recognize in him a thorough and competent man to have charge of our public schools.

It is more than likely that Mr. Welles will be the only candidate for this important office, a condition which in itself expresses the regard and esteem in which he is held by the people.

County Superintendent Welles. Free-water Times: Frank K. Welles has announced his candidature as county superintendent of schools to succeed himself. Irrespective of party Mr. Welles will have the support of almost the entire electorate. Of course, in public life, some enemies are

necessarily made, and we suppose Mr. Welles has made some, though we have not heard of any, but if a true appreciation of his office, an honest effort to raise the educational standard of Umatilla county, a painstaking administration of the duties of school superintendent, and the approbation of school directors, teachers and the public in general count for anything, Mr. Welles will be elected by an overwhelming majority.

Milton Eagle: Frank K. Welles, in whose official career all Milton has taken a friendly interest on account of his having been one of us for many years, is a candidate to succeed himself as county school superintendent. From present appearances he will have no opposition, as no one has yet appeared who cared to enter the lists against him. It would be a waste of time, anyway, to attempt to beat Mr. Welles, as his conduct of the office has been marked by ability and close application to duty, and he is one of the most popular officials of the county. Having "made good" during his first term, Mr. Welles will win in a walk, and Milton is proud of him.

Welles a Good Superintendent. Echo Register: Frank K. Welles has performed the duties of the office of county school superintendent in a fair and impartial manner for one term.

By his strict adherence to the law as set forth in the Oregon school laws he has avoided mistakes and won the admiration and respect of both teachers and school officers.

He is a competent and painstaking office man and has the reputation throughout the state of having the books and records of his office in a condition excelled by no school superintendent in the state.

The voters of Umatilla county will make no mistake in supporting Frank K. Welles for a second term.—March 6, 1908.

Weston Leader: The Leader will stake its reputation as a prophet upon the nomination today and the election in June of Frank K. Welles, T. D. Taylor and Frank Saling. They are good men and faithful servants and their opponents mere nonentities at whom we can safely point the finger of scorn. Best of all, Weston has the right and privilege to claim Frank Saling as its own.

WALKER FOR COMMISSIONER.

Umatilla County Has Profited by Horace Walker's Services.

Horace Walker, republican candidate for county commissioner, is one of the pioneer citizens of Umatilla county, having been a resident of the county for the past 31 years, during

which time he has accumulated a large amount of property by economy, hard work and good business judgment and is noted for his strict business methods, practical experience and conservative character.

For the past eight years Mr. Walker has been a member of the board of county commissioners of Umatilla county and some of the most valuable achievements of the county during that time are due to Mr. Walker's foresight and business judgment.

He advocated the purchase of a county poor farm long before the present farm was purchased, and his judgment in that matter has been proved by the county records which show that since the purchase of the present farm the pauper expense account has been reduced by about one-half. The farm is constantly increasing in value and is now one of the county's most valued assets.

Another illustration of Mr. Walker's keen foresight was in the investigation of the county records two years ago by which the sum of about \$21,000 was saved to the taxpayers of the county. Mr. Walker advocated an examination of the books for months before it was actually undertaken and the discovery of the shortages and the recovery of the sum of \$21,000 justified his judgment.

He has always stood for permanent public improvements and has advocated good roads and bridges for all parts of the county. He pays strict attention to his office and no letter of inquiry from any isolated or remote section of the county is passed unheeded by him. He is acquainted with all parts of the county personally and knows the needs of each section and is one of the most practical and competent county officials now in the service of the people.

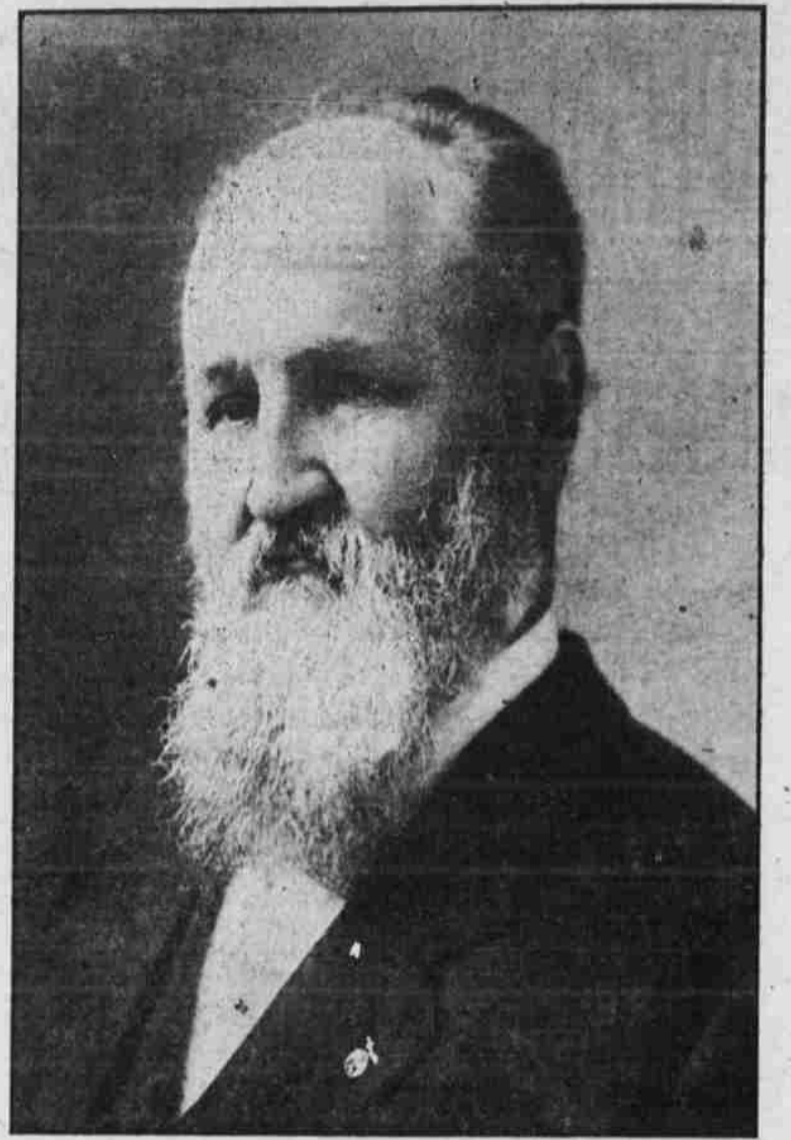

Mr. Walker is a candidate for reelection and stands upon his record in the office. He is now before the voters of Umatilla county and asks only a fair and impartial review of his past services. He has attended strictly to business, has practiced economy and prudence in county affairs as he has in his own personal affairs and the county has profited by his ability and close attention to business.

FRANK SALING FOR CLERK.

Competent Young Man Is a Candidate for Relection on Republican Ticket.

There is practically no opposition to the reelection of Frank Saling, republican candidate for county clerk, who has served the people of Umatilla so well in that position.

Mr. Saling is a Weston boy, having resided at that place practically all of

HON. W. R. ELLIS,
REPUBLICAN NOMINEE FOR REELECTION AS REPRESENTATIVE
SECOND DISTRICT.

his life and is well known to everybody in the county. He is a competent young man and the records of the clerk's office are now in excellent condition.

Mr. Saling consented to make the race for the office this year on the earnest solicitation of friends who are satisfied with his services and who believe that he has conducted the office in such a manner as to merit reelection.

His administration in this office has been marked by economy, courtesy and business-like methods and there can be no opposition to him on any grounds and his reelection is assured in advance.

HENDLEY FOR RECORDER.

Popular and Efficient County Official Is a Candidate for Relection on His Merits.

Fred W. Hendley, republican candidate for county recorder graduated from Portland Business college in 1869 and has been engaged in clerical work ever since. He has been a resident of Umatilla county for the past 44 years, having come here in 1864.

Mr. Hendley is an expert accountant and is one of the best penmen in the county. The records of the recorder's office in Umatilla county under his management have been kept in the neatest and most attractive manner of any office in the state.

That he practices rigid economy in the office is shown by the fact that he has conducted the office for \$840 less during his term than was paid during the previous term, thus making a saving of \$35 per month for the taxpayers. He has also served as deputy treasurer for the past six years, conducting the business of that office during the absence of the treasurer.

Mr. Hendley's motto is: "I guarantee accurate and legible records, prompt service and courteous treatment," and that he has lived up to his motto to the letter is the testimony of every one who has had business with the county recorder's office during the past two years.

Patrons of the recorder's office often express surprise at the promptness with which instruments are returned after having been recorded. It is seldom ever the case that an instrument is kept longer than one day, when sent to be recorded, and many are returned within a few hours after being received.

When the people of the county are

satisfied that Mr. Hendley is the most competent and best qualified man to fill the office of county recorder there is no reason for a change. Business men do not discharge competent and faithful employes but retain them in their positions and the same rule should apply to public servants.

Mr. Hendley is conceded to be one of the most capable recorders in the state and Umatilla county is particularly fortunate in having his services.

Start Street Improvement.

Councilman A. A. Andrews, last evening started a paved street movement which should receive the full support and endorsement of every business man in the city, says the La Grande Observer. So promptly was the motion accepted that a special committee was appointed within a few moments, to delve into the matter and report at the next meeting of what could be done, and how best to proceed to secure paved streets for the city of La Grande. With a federal building in sight, several buildings under plans of construction, it is only proper that the city should start to pave its streets—action symbolic of thrift and enterprise. If never started the movement will never be consummated. Before the next meeting of the council, the committee, Messrs. Kreiger, Andrews and Curtis, will have something pleasant to report.

\$20,000 Alfalfa Mill.

J. E. Murphy of Portland was in town several days this week, contracting for hay and if he succeeds in contracting 2000 tons of alfalfa hay he will have running by the first of August a \$20,000 alfalfa mill, says the Echo Register.

Mr. Murphy wants to contract a fourth or more of each alfalfa crop raised in this section and will agree to pay \$6 per ton delivered at his mill in Echo, for five years.

Mr. Murphy has a plant running in Portland and wants to put one here, but must have enough in sight to justify him in investing this amount of money for the building must be mostly of cement and stone, as the machinery is very heavy.

The plant size that he would put in here would grind 25 tons per day and require 10 men to operate it.

Francis J. Heney has been employed by Abel Ady in his suit for damages against the Klamath Lake railroad company. He is suing for \$63,000.

HON. C. A. BARRETT.

BARRETT FOR REELECTION.

Capable Representative Would Serve People Again.

C. A. Barrett of Athens, republican nominee for representative, was born in Oxford county, Maine, and came to Umatilla county via San Francisco-Portland-Umatilla Landing and by stage to Weston in November, 1872.

But few people now living in that vicinity were there at that time. Soon after his arrival Mr. Barrett secured work on the stock ranch and by frugal living and industry in a few years was able to go into the stock business on his own account.

In 1884 he engaged in the hardware and implement business in Centerville, now city of Athens, and this, together with his farming and stock raising have had his close attention for many years.

Mr. Barrett has served the citizens of Athens both as mayor and councilman for many years and was one of the organizers of the First National bank of Athens, being the bank's first president and many years director of the bank.

Mr. Barrett is public spirited and takes great interests in all matters appertaining to public improvements

and education. He is a strong advocate of good roads and civic improvements as his work in macadamizing the streets of Athens will testify.

Being an early settler of the county and having every qualification for creditably representing his constituents and having served one term in the legislature, together with his wide acquaintance, he is a formidable candidate for the office he seeks.

At the recent primary nominating election he had the distinction of receiving the highest number of republican votes cast for representative. Mr. Barrett is a strong advocate of the direct primary law and the people's choice for United States senator and subscribes to statement No. 1.

Mr. Barrett favors an open river and to that end favors the extension of the portage road to The Dalles, thus placing the upper river in direct construction with all transportation on the lower river.

Mr. Barrett, if elected, will favor comprehensive irrigation laws which shall both sustain the government and protect private rights. Also all reasonable legislation sustaining public educational interest, especially all laws which shall be for the interest of the people of Umatilla county.
