### Irrigation Talk No. 30

## MR. MARBLE

The Marble Brothers have been put into charge as Operating Engineers of the Furnish Irrigation project, and will run a series of additional sectional ditches to cover every foot of irrigable land in the enterprise. The senior brother is taking up his residence today on the enterprise and will remain there until the lands are all sold and under water.

The Marbles are the greatest engineers in irrigation that America has produced. They have built or reconstructed most of the systems around Yakima and elsewhere. There will be some renovation of the Furnish ditch, if Mr. Marble deems it necessary as he has absolute authority to do anything and everything necessary to make success of the highest type as to the Furnish-Coe lands under the system.
