DON'T LIKE NORTH

PENDLETON MEN HOME FROM PRINCE RUPERT

L. A. Vogel, W. H. Gulliford and J. B. McDill Returns from Months' Trip Through Northern Canada—No Place for Idle Men—Chances for Investment Are Not Good at the Present Time—Land Will Be Thrown Open in September.

"Stay away from the north," is the advice given Pendleton people by L. A. Vogel, J. B. McDill and H. W. Gulliford, who have just returned from Prince Rupert and Port Simpson, Canada, after an absence of over a month on a sight seeing and prospecting tour of the extreme north.

Together with Albert Horseman, these three well known citizens left here on April 10 to look over the situation at Prince Rupert, the Pacific coast terminus of the Grand Trunk Pacific railroad, which is now being built across Canada.

There are now several thousand men at that place, all idle, waiting for the townsite to be thrown upon the market and all disgusted with the situation. The Grand Trunk Pacific people own a portion of the townsite and this will not be placed on the market until some time in September. Until then no one can get a foothold and there will be no use to go there expecting to invest.

Work has actually begun on the grade of the Grand Trunk Pacific at Prince Rupert and a large force of men is now at work there, but there is not work for all of the laborers who have gone there.

The Pendleton men looked over the country thoroughly, but are not favorably impressed with the outlook, although they say that there will be some fair chances for investment after the townsite is placed upon the market in September.

The timber is heavy and comes down close to the coast all along that part of Canada and the country everywhere is underlaid with excellent coal veins, and it is predicted by the experts that it will become the greatest coal mining district in the world in time.

WHEN FASTING IS FATAL

Loss of Weight Below a Certain Point Brings Death.

During a long fast the daily loss of weight becomes gradually less and less. Death comes when the total loss has reached a certain percentage, which percentage varies with the original weight. Fat animals may lose half their weight, thinner ones perhaps two-fifths.

A man or woman of rather spare habit, weighing 143 pounds, could, therefore, lose about fifty-five pounds before succumbing. Heart action, respiration and blood pressure remain unaltered during starvation, but the temperature of the body falls nearly a degree in most cases. The secretion of gastric juice ceases, but saliva and bile are still formed. The duration of life depends upon the extent and activity of the physiological processes.

Children die after a fast of from three to five days, during which they have lost a quarter of their weight. Healthy adults, however, have fasted sixty days when water has been taken.

A German physician notes the case of a woman, aged forty-seven, who died after a fast of forty-three days, during which she drank water freely. Her weight, which was 143 pounds a year before her death, was reduced to ninety-nine pounds. It was a case of suicidal melancholia, and the woman patiently carried out her horrible undertaking so quietly as to scarcely attract the notice of her family and died at last calmly and peacefully without complaint or apparent evidence of suffering.

BINGHAM SPRINGS MAN CRAZY OVER INVENTION.

Stripped stark naked, his body bruised and covered with mud and filth and his mind a blank. C. C. Marquette, a well known erratic character of this city, was found near Bingham Springs today and was this afternoon brought to this city, where he is confined as an insane inmate of the county jail. Marquette has been deeply absorbed in an electrical invention upon which he has been working for a number of years, and has finally succumbed to the mental strain and his reason has deserted him. He was entirely naked when found and had evidently been wandering for some time. He will be examined by the county physician and committed to the asylum.

MARY UNDER RACE SUICIDE COMPACT

Declares Good Book Teaches That Family Shall Not Be Raised Until It Can Be Supported—His Wife-to-Be Wanted to Study Music for Number of Years Before Assuming Motherhood Duties — Evidence at Trial of Postmistress.

Chicago, May 28.—Rev. Charles E. Havenor caused a sensation in Commissioner Foote's court by declaring, "Mary Calvin of Fort Wayne, Ind.," according to the teachings of the bible.

He appeared at the trial of Miss Anne Whittemore, postmistress of Grays Lake, Ill., his home, whom he charged with opening letters from his fiancée, Mary Calvin of Fort Wayne, Ind.

He told the court he married Miss Calvin May 19, and that they had proposed a "race suicide pact" because the Bible teaches we should not raise a family if we can't care for them. Miss Calvin wished to study music for several years before assuming the responsibility of motherhood.

The preacher and Miss Calvin both swore the postmistress could not have known about the pact if she had not opened the mail.

THE IRISH

A man is en route to Ireland to sell some of the Furnish-Coe lands. What he will sell them for we do not know. He pays us net \$150.00 an acre for them. He pays his own expenses in putting the lands through. All that we have out of him so far is one thousand dollars as a forfeit on a snug block of the lands to be sold before September 1st at \$150.00 per acre net. As the lands will be \$125.00 June 1st and a second and third advance will be made by September 1st this enterprising and successful individual who is an experienced irrigation-lands dealer thus joined us. He had already sold for us another tract to Montana parties for \$10,000.00.
