

The Blue and the Gray.

By the flow of the inland river,
Whence the fleets of iron have fled,
Where the blades of the grave-grass
quiver,
Asleep on the ranks of the dead;
Under the sod and the dew,
Waiting the judgment day;
Under the one the Blue,
Under the other the Gray.

These in the robings of glory,
Those in the gloom of defeat,
All with the battle-blood gory,
In the dusk of eternity meet:
Under the sod and the dew,
Waiting the judgment day;
Under the laurel, the Blue,
Under the willow, the Gray.

From the silence of sorrowful hours,
The desolate mourners go,
Lovingly laden with flowers,
Alike for the friend and the foe:
Under the sod and the dew,
Waiting the judgment day;
Under the roses the Blue,
Under the lilies, the Gray.

So with an equal splendor,
The morning sun-rays fall,
With a touch impartially tender,
On the blossoms blooming for all:
Under the sod and the dew,
Waiting the judgment day;
Brothered with gold, the Blue,
Mellowed with gold, the Gray.

So, when the summer calleth,
On forest and field of grain
With an equal murmur falleth
The cooling dip of the rain:
Under the sod and the dew,
Waiting the judgment day;
Wet with the rain, the Blue,
Wet with the rain, the Gray.

Sadly, but not with upbraiding,
The generous deed was done;
In the storm of the years that are
fading,
No braver battle was won:
Under the sod and the dew,
Waiting the judgment day;
Under the blossoms, the Blue,
Under the garlands, the Gray.

No more shall the war-cry sever,
Or the winding rivers be red;
They banish our anger forever
When they laurel the graves of our
dead!
Under the sod and the dew,
Waiting the judgment day;
Love and tears for the Blue,
Tears and love for the Gray.

BERKELEY SELLS HALF.
Well Known Pendleton mining man. Disposes of a Part of His Interests.

An item from Granite says: "A deal has just been closed by Norbourne Berkeley whereby Leon Stevenson of Greenhorn, who has been general superintendent of Spero mines at Robinsonville, has taken an interest in the Buffalo-Monitor case."

Mr. Berkeley will devote his attention of the property. It is claimed that a larger crew of men will be added, and as the new manager of the mine will devote his entire time to the property it is expected that the output will be considerably increased.

year, 500 the second, 600 the third, tion to developing the Gold Hill and Fourth of July groups. His success with the Buffalo-Monitor has proven his ability as a mining man, and with a few more like him there is little doubt that the Granite camp would come to the front rapidly.

A prominent farmer and stockman of the 10 district of Idaho, who has been convicted of cattle-stealing and sentenced to three years in the penitentiary, has recently been denied a new trial and will be compelled to serve his sentence.

Bad Symptoms.
The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has a gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weakness and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not resolve fatally. No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong protective influence on each of its several ingredients—worth more than any number of ordinary non-professional preparations. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath.

In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this Favorite Prescription. It will not perform miracles; will not cure tumors—no medicine will. It will often prevent them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult by letter, free. All correspondence is held strictly private and sacredly confidential. Address World's Dispensary Medical Association, Dr. E. V. Pierce, Pres., Buffalo, N. Y. Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.

You Wouldn't Dare to Live Over a Cesspool Day After Day

You wouldn't deliberately take poison that you knew would lead to chronic stomach, liver, bowel or kidney disease.

You're doing both of these things when you neglect constipation. Nature's natural sewer is clogged up and the worst of poisons are overflowing into your system—impregnating every drop of your blood with disease germs.

Constipation is the cause of nine out of every ten cases of dyspepsia, indigestion, typhoid fever, malaria, chills and fever, rheumatism, kidney disease, skin troubles and general "run down" condition of the system.

Give your system a thorough housecleaning this very night—restore your liver to its normal, active, healthy condition. Even if you think you're not constipated take an **NR** tablet to-night and you'll feel better in the morning.

From feeling sick or just so-so you'll learn what it is to feel absolutely well, vigorous and happy.
