WOOLEN MILL MAY BE PURCHASED

BIG EASTERN FIRM
LOOKING OVER FIELD.

Estimates on Pendleton Woolen Mill
Property Are Being Secured—If
Property Is Purchased Output Will
Be Doubled and 200 People Will Be
Employed—Pendleton Considered
Best Town in Northwest.

That Pendleton woolen mills are to
be purchased by a large eastern con-
cern, their capacity greatly increased
and their output varied by the addi-
tion of a number of new lines of man-
ufacture, is now quite probable.

An agent for one of the largest
manufacturing concerns in the United
States, one which manufactures the
largest and most unique line of Indian
goods and which sells largely on every
Indian reservation in the United
States, is in the city today looking
over the plant and is securing figures
on the property from the Judds.

If the mill is purchased by this
concern, it will be greatly enlarged
and will be made a subsidiary mill to
one of the largest in the world, a mill
which has an established reputation
and market, but which cannot supply
its customers at the present time on
account of limited capacity.

Pendleton being in the heart of a
great wool district on through lines of
transportation is considered to be one
of the best woolen mill locations in
the United States and this company is
making a quiet investigation of the
outlook for the purchase of the prop-
erty.

The name of the concern which is
looking over the ground is withheld
on special request until the investiga-
tion of the property is made and re-
ports sent into headquarters. How-
ever the East Oregonian is assured
that if the plant is purchased it will
at once be enlarged to about a 30-loom
mill, its output will be more than
doubled and a large scoring plant
will be added, making a force of about
200 men and women necessary in the
entire plant.

According to the agent who is now
here, the market for special woolen
lines was never better than at present
and the demand for Indian robes is
constantly increasing and it is con-
sidered a most favorable time to en-
gage in this business in the northwest.
The home plant of the company which
is investigating is in the east, but the
Pendleton plant would be headquar-
ters for the entire northwest terri-
tory.

FOUR DRY EASTERN OREGON COUNTIES IN STRING

Armory and U. of O.

Practically no returns have been
received today on any of the initiative,
referendum or amendment measures
voted upon yesterday. However, re-
turns are at hand for Pendleton and
for a few of the outside voting places.
Upon the armory bill Pendleton
voted strong in the affirmative, giv-
ing 580 votes upon that side to 255
against. On the U. of O. appropriation
the voting was practically the
same, the majority in the city being
but two votes less than that for the
armory bill.

Weston also gave a majority of
nearly 100 for the university, but some
of the other outside precincts show
adverse votes for both the university
and armory measures.

VOLCANO ACTING UP.

Tokio, Japan, June 2.—Consternation
has been caused by the increased
underground disturbances of the Asa-
ama volcano, which has been acting
badly for some time. The noises were
heavier last night.

Confessor Recants.

La Porte, Ind., June 1.—The re-
markable "confession" was made by
Julius Truelson, jr. in Vernon, Texas,
then quickly repudiated by him, that
he aided Belle Guinness and Ray Lam-
phere in the murder of and burial of
the bodies of their victims, including
that of his wife, will be ignored by
the authorities here. Sheriff Smutzer,
who went to Texas for the man, re-
turned alone, believing there is noth-
ing in the story.

Admiral Was Jailed.

San Francisco, June 2.—Captain
Wentworth H. Moore, formerly ad-
miral of Salvadore's one-ship navy,
arrived this morning and tells how he
was sent to jail for flogging a sailor.
He has had enough of South America.
"Honors" will go back to the Pacific
Mail where he was formerly first of-
ficer.

After a woman marries a man to
save him she usually has all she can
do to take care of herself.

ELECTRIC LINES REACHING OUT

PORTLAND COMPANIES
PLANNING EXTENSIONS

Over \$1,500,000 to Be Spent in New
Work and Improvements in Port-
land and Surrounding Territory—
Country Tributary to Portland Will
Be Covered With Network of Lines.

An era of electric line building such
as has never been seen before on the
Pacific coast is now starting in Port-
land and vicinity and within the next
few years the territory tributary to
that city will be a network of lines
reaching far into the interior of the
state. The Sunday Oregonian says of
the plans of the Portland electric
companies:

Budgets aggregating almost \$1,500,-
000 for improvements and extensions
to Portland trolley lines, both city
and interurban, and city lighting and
power systems, have just been au-
thorized by the directors of the Por-
tland Railway, Light and Power com-
pany, and the Oregon Electric Rail-
way company.

President Benage S. Josselyn, of the
Portland Railway, Light and Power
company, has just returned from the
east with authority to expend \$1,199,-
500 during the current year in better-
ments.

President George Moffatt and other
directors of the Oregon Electric Rail-
way have instructed General Man-
ager G. W. Talbot that he may expend
\$206,000 during the summer in sub-
stantial improvements to the Port-
land-Salem line and for new rolling
stock.

Have Faith in State.

Faith in Portland and Oregon, in
the face of financial depression, is
given as the reason that eastern bank-
ers, who are financing both corpora-
tions are willing to pledge such large
sums for the improvement of present
lines and the building of new.

COLDS

The very hour a cold starts is the
time to check it. Don't wait—it may
become deep-seated and the cure will
be harder then. Every hour lost at
the start may add days to your suffer-
ing. Take

F & S Cold Capsules

Used in time they save all that
might follow—sickness, worry, ex-
penses. They never fail.

Tallman & Co.

Leading Druggists.

In neither case did over-zealous
western managers charm the money
out of the pockets of the owners of
the two properties, for directors of
both corporations looked over the
property before the budgets were au-
thorized.

In the case of the Oregon Electric,
the directors met in Portland and
voted to make extensive improve-
ments this season. President Josselyn
went to Philadelphia, where he se-
cured the appropriations after repre-
senting the needs of the system to the
directors, some of whom have looked
over the local properties during the
past few months.

Where the Money Will Go.

The \$1,199,500 to be spent by the
Portland Railway, Light and Power
company includes many extensions of
trolley lines throughout the city, par-
ticularly in the rapidly growing East
Side district, important improvements
to the city's lighting system, changes
and betterments to the power gener-
ating plants at Oregon City, new gas
and electric facilities at Salem and
new cars.

The appropriations will be divided
between the different departments of
the Portland Railway, Light and
Power company as follows:

Portland railway division, \$477,500;
Oregon Water Power division, \$218,-
500; Portland General Electric divi-
sion, \$445,000; Salem division, \$58,-
500; total, \$1,199,500.

Regular Items Not Included.

This total is in addition to regular
expenses of operating and repairs,
and like the \$300,000 appropriated by
the Oregon Electric, will be spent
during 1908. Some of the improve-
ments mentioned have been complet-
ed during the early months of this
year.

PENDLETON TAKES SLUMP.

Lorimer's Lambs Drop Another Game
to Reorganized Walla Wallans.

Played	Lost	Won	P. C.
La Grande	7	1	6
Pendleton	7	3	4
Walla Walla	7	4	2
Baker City	7	5	1

The home aggregation of ball ped-
dlers took another step towards the
basement yesterday at Walla Walla in
a game replete with wind and errors.
The game was called at the end of
the fifth inning on account of a wind
storm breaking in on the perform-
ance. It seems from the tabulated
score that this same wind storm must
have hit our team and sent them in
the air several innings in advance of
matinee's windup, as the lambs were
busy accumulating errors, while the
penitentiary pets were gathering in
the runs.

The score by innings follows:

	R.	H.	E.
Pendleton	2	0	0
Walla Walla	2	4	3
Baker City	25	11	6
La Grande	8	1	1

ALBEE NOTES.

Alba, June 1.—Weather cool and
squally. Crops growing slow. We
have plenty of moisture. What we
need to make vegetation now is sun-
shine and warm weather.

The sawmill has shut down for a
short time and started the planer to
fill orders and supply the demand for
people intending to build. There is
over a half million feet of lumber in
the yard.

Miss Pearl Connell has returned
from a three months' visit to Cald-
well, Idaho, where she has been
studying pastel painting.

Alex McKenzie, his wife and son,
Willie, have attended the pioneer pic-
nic at Weston. They will be accom-
panied home by their daughter, Miss
Hattie, who has been attending the
state normal during the past winter.

Miss Lola Dale of Baker City is
teaching school in district No. 79.

James Scott has returned from On-
tario, where he has purchased a fine
span of buggy horses.

Forester Wright is now camped at
Granite Meadows, where he is numer-
ating sheep passing into the Blue
mountain reserve.

Miss Fanny Arbogast of the Half-
way house, is here visiting relatives.
Mrs. Crockett and son of Elgin, is
visiting relatives here, Mrs. Crockett
being a sister of H. T. Connell.

Albert Bolin sold a carload of steers
at 4 cents weight at Ukiah. The cat-
tle were bought by Malat & company

of Echo and consigned to the Port-
land market. The crop of colts this
year is larger than usual and some
fine horses are now growing on these
hills.

The Arbogast brothers of Ritter
passed through here with 60 head of
fat hogs. At Pendleton they will car-
ry the porkers and ship to Walla Wal-
la, where they will be slaughtered.

STOCKS FORCED TO HIGHEST
LEVEL OF THE YEAR.

Reaction Which Will Follow Will
Hurt the Market—General Business
Conditions Throughout the Country
Are Good—Railroad Situation Is
Somewhat Unsatisfactory—Further
Decline in Grain Market Would
Stimulate Conditions.

Henry Clews in his last New York
financial letter says of the money situ-
ation and general business condi-
tions:

The stock market has been suffer-
ing from over-exertion. Strenuous ef-
forts were made to lift prices to the
highest level possible by driving out
the short interests, and the result was
a pressure to take profits that brought
about a more severe reaction than was
expected.

The late rise was beyond all reason;
for prices had been carried not only
above the pre-panic level but also
above those prevailing last summer;
and in face of a very serious decline
in railroad traffic.

A year ago business was extremely
active and the panic generally unex-
pected. Now, we have fallen to a
considerably lower level for all values,
business has shrunk greatly in volume,
and the railroads are threatened with
a reduction of dividends.

General business continues very
quiet. The turn for the better, noticed
two weeks ago, has become slightly
more positive; and the tendency is
certainly towards improvement; the
iron trade and the cotton goods indus-
try leading in this respect. There is
also a much more hopeful feeling pre-
vailing elsewhere than at any time
since the panic.

It would be unreasonable, however,
to expect too much; and real recu-
peration will no doubt be a matter of
slow growth. Something will depend
upon the political outlook which
steadily improves, but more upon the
harvest, the outlook for which must
involve more or less uncertainty.

Both cotton and wheat are likely to
show some depreciation in condition
this month, owing to the excessive
rains and low temperature. But the
majority of the crops have had a good
start this year and the outlook is en-
couraging, for experience shows that
we always have one or two, if not
three months, of deterioration after a
favorable spring.

The railroad situation seems to have
reached its worst. The number of idle
cars has begun to diminish, and traf-
fic in June ought to show signs of re-
cuperation. Earnings for April and
May were very discouraging, showing
a loss of 15 to 20 per cent. In the
west a hopeful feeling is prevalent,
depression continuing keenest in the
eastern industrial and financial cen-
ters.

The market would undoubtedly be
improved by an additional decline.
Fresh buying would follow, and ac-
tivity would be restored. The general
financial situation is sound, and after
the liquidation of the past six months
no serious reaction should be antici-
pated. A good trading market is
therefore possible.

General Buller Dies.

London, June 2.—Sir Redvers Henry
Buller, aged 69, the English general,
who won fame conducting the opera-
tions for the relief of Ladysmith in
the Boer war, died here today.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out
With Herpelide.

Ladies who have thin hair and whose
hair is falling out, can prevent the hair
falling out, and thicken the growth, with
Newbro's "Herpelide." Besides, Herpelide
is one of the most agreeable hair
dressings there is. Herpelide kills the
sandruft germ that eats the hair off at
the root. After the germ is destroyed,
the root will shoot up, and the hair grow
long as ever. Even a sample will con-
vince any lady that Newbro's Herpelide
is an indispensable toilet requisite. It
contains no oil or grease, it will not stain
or dry. Sold by leading druggists. Send
5c. in stamps for sample to The Herpelide
Co., Detroit, Mich.

Two sizes—50 cents and \$1.00.
A. G. Koopman & Bros.
