 to Fuel Proposition—Gymnasium  
 Committee Reported.

At the monthly meeting of the Commercial association held last night the subject of reopening the woolen mill was discussed at some length and the proposition of the Racine Woolen mill of Racine, Wis., was laid before the association.  
 While W. S. Davidson, representative of the Racine company, had left for Portland on the noon train yesterday and so did not attend the meeting, it was stated on authority that the company desired to take up the Pendleton plant provided it can be purchased at the right price and the cost of fuel is not too great. No bonus is asked for by the company.  
 During the meeting Dr. C. J. Smith held that the coal fields along the Crow's Nest branch of the Canadian Pacific railroad in Alberta should furnish cheap fuel for this section and a committee composed of Dr. Smith, Montie B. Gwinn and W. L. Thompson was named to ascertain regarding the same.

Warner and R. Forster to serve as such a committee and to report at the next association meeting.

Upon reconsideration, he changed his plans and discharged the men.
