LEWISTON WILL HAVE A CEMENT PLANT.

City Donates Site to West Coast Portland Cement Company.

Lewiston will give the West Coast Portland Cement company five acres as a site for the plant the company proposes to establish here, says the Lewiston Tribune. This action is the prompt response to the proposal made by the company to the Commercial club several days ago, when the com-

pany opened negotiations toward the end of establishing its plant here. The matter was referred by the club to a special committee comprising O. A. Kajos, Dr. J. B. Morris, John P. Veltner, F. W. Kattenbaugh and W. P. Harbut. This committee has advised the acceptance of the company proposal. The site to be offered comprises a part of the tract just south of the city limits, along the Snake river, and owned by Dill Brothers. The tract has a frontage of 1200 feet on the river and a like frontage along the right of way of the Lewiston & Southeastern electric line. The five acres will cost \$1500 and the club will pay that price for it if the cement company will install the plant there. The reply to the proposal of the cement company was mailed yesterday by Secretary Mason, of the club. It is as follows:

"I am authorized to inform you that the Lewiston Commercial club will provide a site for the West Coast Portland Cement company at a point on Snake river in Lewiston, near the new slaughter house. The site proposed has a frontage on Snake river of about 1200 feet and the same frontage on the Lewiston & Southeastern Electric railway. The entire property consists of about five acres and is a most desirable tract. "This offer is of course conditional that your company erects a plant of not less than 100 barrels daily capacity, within a period of six months, and fee title not to be given until your company has increased the capacity of its plant to 1000 barrels daily. "Should your company decide to accept this proposal, I would suggest that you advise me at your earliest convenience so my committee can perfect its arrangements for the purchase of the property and the drafting of a legal proposition. Until then the matter will await the official action of my board."

SAYS TAFT MEN WORKED AGAINST NEGRO.

Attorney for Allies Makes Sensational Charges.

Chicago, June 4.—Major F. C. Bryan, counsel for the anti-Taft "allies" in the contest before the national committee, who arrived this morning, has charged the Roosevelt administration with being responsible for alleged effort to disfranchise the negro republicans of the south.

Following the lines of the Brownsville agitation the "allies" are using the defection of the negro vote from Taft as argument.

Bryan talks confidently of the alleged efforts of Taft agents in the south to prevent negroes naming delegates.

Hitchcock, Taft's manager, is unworried. He is confident of Taft's nomination on the first ballot. He claims 84 delegates for Taft and 17 instructed, 26 pledged and 31 declared their intention to support Taft.

NO TRAMP CONVENTION.

Hoboes Will Not Congregate in Kalamazoo.

Kalamazoo, Mich., June 4.—Reports regarding a big convention of hoboes to be held in South Haven tomorrow are declared to be mythical by the authorities of that town. It is alleged that the "tramp convention call" originated with a newspaper man. If any considerable number of "Willies" show up at South Haven, they are promised a warm reception by Mayor Johnson, who has provided a rock pile for their amusement.

Several years ago a similar "call" for a convention of tramps was sent out from an Iowa town. It was attended principally by newspaper men from Chicago, St. Louis and other cities, who wrote imaginary reports of the imaginary convention for their papers and had a pleasant outing with all expenses paid.

During the coming six months it is estimated that there will be at least ten million natives to provide for, and the terrible task has staggered and discouraged the famine relief workers now in the field.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mauselet, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair.
