AMONG THE EXCHANGES OF THE INLAND EMPIRE

Indian, Booze, Knife, Death.
Frank George, the Indian stabbed at Toppensish, is not expected to live through the day. His condition became decidedly worse yesterday and infernal hemorrhage, caused by the knife wound in his side, is likely to prove fatal at any moment, says the Yakima Republic.

Sheriff Edwards yesterday went to Toppensish and brought Pahashapayit, held for the stabbing of George, to the county jail. The Indian says that his American name is Henry George and that he is a cousin of Frank, the man stabbed. He is but 18 years of age. Before taking Pahashapayit from Toppensish Sheriff Edwards took the man to the room where Frank George is being cared for and Frank identified him as the man who had stabbed him. Frank stated that he and accused his cousin of taking his horse and that the boy and Kosmo-moot, who was with him, got him thinking and enticed him out of the town and then attacked him with knives.

Henry George refused to talk. He has retained G. G. Lee to defend him and has been advised not to make any statements to the officers. "By and by I talk," was all the sheriff could get out of him.

Kosmo-moot has not yet been arrested, but he is sure to be found within a few days.

Surveyors Active.
Activity in railroad circles at Pasco is beginning to take form, and according to a statement recently made by President Robert E. Strathorn, of the North Coast, who was in the city last week, actual work on the road will begin even before the presidential campaign is under way, says the Pasco Express.

Surveying crews working below Pasco on the west shore of the river have been engaged during the past few days in sounding the shore on both sides of the river. Their action would indicate, according to the opinion of railroad men, that the company is still keeping an eye on Pasco despite the many rumors to the contrary. Chief Engineer F. L. Pitman and C. E. Wood, general right of way agent, were approached and asked concern-

Artesian Water.
Another flow of water was struck in the Rose Land company's well on the west side of the city about 4:30 o'clock last evening and there is now a flow of about 400 gallons a minute or approximately 600,000 gallons every 24 hours through the four and a half inch pipe in the well, says the Republic. The water has a temperature of something less than 90 degrees, or about five degrees higher than the temperature of the big flow previously struck. Workmen at the well do not think that the entire flow has been opened up and the well will be pushed some distance farther to ascertain whether this surmise is correct. The hole in the ground is now approximately 1800 feet deep.

A Telephone Opiate.
The elder's wife was seriously ill, and the doctor advised rest and quiet. But the lady was very devoted to church work and worried herself into hysteria because she could not attend services and hear her favorite pastor preach.

"She must not leave the house," warned the doctor, "but you can easily arrange to have her hear the sermon by telephone."

The elder grasped the suggestion and made the necessary arrangements for transmitting the sermon into his wife's room.

At noon on the Sabbath the doctor called and asked, "How did it work?"

"Fine," declared the elder, rubbing his hands gleefully. "Ten minutes after the sermon began she fell sound asleep."—Philadelphia Ledger.

His Criticism.
Robert Louis Stevenson once took an eccentric acquaintance of his to hear Sir Charles Halle play the piano at St. James' hall, London. Sir Charles was a musician of the most correct and severe British type, though a German by birth. After the concert was over they walked as far as the Marble arch, neither having spoken. Arrived there, the friend stopped and delivered himself thus: "The manner of the elderly statesman at the piano was somewhat austere and chilling." And then they walked on.

A Grand Family Medicine.
"It gives me pleasure to speak a good word for Electric Bitters," writes Mr. Frank Conlan of No. 436 Houston street, New York. "It's a grand family medicine for dyspepsia and liver complications; while for lame back and weak kidneys it cannot be recommended too highly." Electric Bitters regulate the digestive functions, purify the blood, and impart renewed vigor and vitality to the weak and debilitated of both sexes. Sold under guarantee at Tallman & Co.'s drug store. 50c.

Chance of a Lifetime.

ing the movements of the company, but as is customary with those officials, they had nothing to say.

Since the return of President Strathorn from California, several engineering crews have been placed in the field in the immediate vicinity of Pasco and Kennewick, thus fulfilling his promise that things would be moving as soon as he returned from his winter vacation.

Yakima Auto Race.
Automobiles are to have their day in North Yakima on Saturday when there will be a street parade in which practically all the machines owned here will participate, afterwards stripping off their superfluous weight and competing in a series of races to be pulled off on the track at the state fair grounds, says the Republic. The participating machines will meet at the garage of the Washington Auto company at 1 o'clock for the parade. The races will begin at 3 o'clock. The line of march of the parade will be down Yakima avenue to First street, thence to A street, thence to Second street, and thence to Chestnut where the parade will disband to allow the automobiles which are to take part in the races being stripped. The arrangements with regard to the parade provide for decorated machines and to the machine considered by a staff of judges to carry the best decorations will be awarded a handsome silver cup.
