**IDEAL CLUB WILL HAVE
"DRY TOWN" SOCIAL.**
Young People of Methodist Church
Will Celebrate.
The Ideal club held a very interest-
ing social at the home of John My-
rick on Locust Hill last night. Games
were played, music was a feature and
strawberries and cake were served for
refreshments.
It was decided to have a "dry town"
social on the 3d of July. It is to be

The Best Alarm Clock.

If you have use for an alarm
clock to wake you up these
spring mornings, then you
should get a good one. A poor
alarm clock is much worse than
no clock at all. You cannot de-
pend upon a cheap clock picked
up probably in a place where the
knowledge of clocks is un-
known. When you buy a clock
from us you know that if any-
thing goes wrong we are ready
to make good with the proper
repairs.
All alarm clocks guaranteed
and cost from \$1.00 to \$2.50.

held at the home of A. J. Owen on
Thompson street.
The display of fireworks will be one
feature of the social. The place will
be suited for this, being upon high
ground and where all can see.
The young people are enthusiastic
in regard to this affair and will un-
doubtedly have a good time and make
an interesting display of fireworks.
This organization is for the purpose
of helping all young people who come
to Pendleton. To give them good,
healthy social life, thus tending to
keep them away from other forms of
life which are harmful. It is not de-
nominational, although under the aus-
pices of the M. E. church.
It has had four months of success-
ful work here already and will not
cease its work during the summer. It
believes that by keeping up its work
throughout the summer months it will
build up that much more rapidly in
the early fall.
Committees on program and enter-
tainment were appointed last night for
the next social the first Friday in
July. That time will also be the
election of officers for the next term.

CAN'T SHOOT THE RAPIDS.
Spokane Police Refuse to Allow Lun-
atic to Commit Suicide.
"George A. Downing will not be al-
lowed to shoot the rapids from the
Washington street bridge under any
consideration."
This was the statement of Chief of
Police Ren H. Rice when asked this
morning whether he would permit
Downing to make the attempt, says
the Spokane Chronicle.
"There have been threats to shoot
the falls, the rapids, and both from
time to time in this city," said Chief
Rice, "and all manner of craft have
been suggested as the vehicle but for
some reason no one ever made the at-
tempt. I regard the attempt as the
height of foolhardiness and will not
permit it under any consideration."
Downing is in the employ of the
Dulmage-Rose Auto company, and
announced he would make the at-
tempt to negotiate the rapids from
the Washington Water Power dam be-
low Post street, provided a purse of
\$1000 was raised to be given him pro-
vided he succeeded.
Downing is said to be an expert in
the canoe and to have worked on the
White Horse Rapids in the Yukon for
several years. It was his intention
to circulate a subscription list among
the business men to collect the \$1000,
but the attitude of Chief Rice will
probably prevent further plans for
the attempt.

Fleets at Dime.
Large crowds have been attracted
at the Dime since the pictures of Bob
Evans and his fleet at Frisco have
been presented. This is very realis-
tic, showing the fleets in the harbor,
the naval parade, floral parade and
the battle of flowers. It is among the
very best pictures ever shown in the
city. This program will continue over
until tomorrow, when there will be
another good change.

"Known For Its Strength"

What It Means

Many people do not know what a bank's
capital means to its depositors, or the differ-
ence between a bank of little or no capital,
and one with a large capital. One of the
functions of

A Bank's Capital

is to protect its depositors from possible loss;
therefore the larger it is, the greater protec-
tion the depositors have.

This bank has a	
Capital of	200,000.00
Surplus Fund of	50,000.00
Undivided Profits	25,000.00
Additional Shareholders Liability	200,000.00

A TOTAL OF **475 000.00**

This means that this bank must lose prac-
tically half a million dollars before its depo-
sitors could lose a cent.

This protection is for **YOU**.
