

WEATHER REPORT.

Fair tonight and Sunday.

PACIFIC COAST MAKES DEMANDS

Delegates to Chicago Will Insist on More Forts and Battleships Plank.

REPUBLICAN LEADERS ARE GIVEN NOTICE.

Declare Party Must Be Pledged to Increase Coast Fortifications and Build Bigger Navy - Adequate Protection on Land and Sea for California, Oregon and Washington Is of Importance to Whole Country Says Piles - E. E. Clarke May Be Taft's Running Mate - Would Offset Possibility of Mitchell's Running With Bryan.

Chicago, June 13.—The Pacific coast delegation to the republican convention will insist that a plank be put in the platform, pledging the party to increase the coast fortifications and build a bigger navy.

The leaders of the party today were notified of this demand and were given to understand that this subject is uppermost in the minds of the people of the Pacific coast.

It is understood that in the roughly drafted platform the building of more ships is one of the subjects suggested by the president.

Senator Piles of Washington, said today:

"The people of the Pacific coast have not asked for much, but we insist on having adequate protection on land and sea. The protection of California, Oregon and Washington is of great importance to the entire country."

Clark for Second Place.

Chicago, June 13.—A big sensation was sprung today when it was reported that E. E. Clark, a member of the Interstate commerce commission, who was formerly a member of the Brotherhood of Railroad Conductors, has been chosen by the Taft leaders as a candidate for vice president.

The decision was made by a vote of the purpose of meeting the possibility that John Mitchell will be Bryan's runningmate. It is understood Governor Dineen of Illinois, first suggested Clark.

HELP FOR HAMMOND.

Millionaire Mine Owner Will Repay Old Debt.

Chicago, June 13.—Senator Piles of Washington, said to the United States Press today: "I am grateful to my friends for mentioning me for the nomination for vice president, but I would not accept the nomination if I could get it, which is out of the question. I prefer to continue to represent Washington in the senate."

Thomas F. Walsh, the millionaire miner of Colorado, climbed on the Hammond band wagon today by announcing he would help Hammond get the nomination for vice president. "Hammond helped me when I was a miner, and it's up to me to help him now," said he.

VALUABLE DISCOVERY.

Coal and Petroleum Found Near Controller Bay.

Washington, June 13.—After an exhaustive investigation into the minerals of the North Pacific coast states, the geological survey has just issued a report showing the existence of marvelous coal and petroleum lands in the region of Controller bay. It is stated this discovery will have a direct effect upon the cost of shipping on the Pacific coast and in case of future naval operations in Pacific waters, coal would not have to be brought half way around the world for warships.

The Clayquot hotel at Victoria, B. C., owned by W. and C. Dawley, was completely destroyed by fire Tuesday, and the loss amounts to \$5000. There was no insurance.

DEVASTATING FLOODS RAGE IN KANSAS

Topeka, Kan., June 13.—North Topeka is threatened with another flood. The river has risen today from 19.7 feet to 21.3 feet. A bulletin issued by the local weather bureau at 2 o'clock this afternoon says: "Uniformly heavy rains ranging from one to two inches, have fallen in the Kaw valley and the present outlook is that the river at Topeka will rise two feet in the next 36 or 48 hours. Unsettled weather conditions prevail today and showers are forecast for this part of the state tonight."

CRAWFORD GRANTS INJUNCTION

Prohibition Temporarily Restrained in Union County.

La Grande, Ore., June 13.—Circuit Judge Crawford yesterday granted a temporary injunction enjoining the county court of Union county from declaring and making record of the result of the late election in this county on the prohibition question.

The complaint, signed by Julius Roesch of this city, alleges that the petition upon which the order of the county court submitting the liquor question to the people at the June election was made insufficient in that it was not signed by the requisite number of qualified electors of the county; that the county court acted without jurisdiction; that every act of the county clerk in connection with the election, as concerned the matter of prohibition, was illegal; and lastly, that the sheriff failed entirely in his duty to post five election notices in each precinct, excepting the precincts of Cove, North Powder, 1 and 2 in Union, and 1, 2, 3, 4 and 5 in La Grande.

TEAM CRIPPLED BUT IS GAME

LORIMER GOES INTO CONTEST WITH HANDICAP

Emerick Fails to Arrive and Van Houten Is Disabled Again—Tracy Baker Behind the Bat This Afternoon—All Chances Are in Favor of Viskors This Afternoon—Buckaroo Contest Will Be Feature of Sunday's Contest

Because Emerick, who had been engaged as catcher by Manager Lorimer, has failed to arrive in the city the local team commences its Baker City series under a handicap today. Several days ago Emerick wired that he would arrive here and he was expected upon every train. No word has been received from him and it is not known why he has failed to come.

In the absence of Emerick, Lorimer has had to play his old men today and this morning he stated that he would probably play Tracy Baker behind the bat. Van Houten will likely be out of the game as a result of another injury he has received.

Tomorrow's Game.

Tomorrow's game will have a special feature in the form of a buckaroo contest that will be pulled off immediately after the game is closed. Ten sturdy bronco twisters have agreed to ride in the tournament and it will be one worth watching. Those at the game will be admitted to the tournament free, while admission will be charged all late comers.

At the game tomorrow ladies will be admitted free to the grandstand and it is the desire of the management that the fair sex take advantage of the offer.

Plans are now on foot to have a balloon ascension just before Monday's game Professor Hicks, who made a good ascension here last Saturday, has agreed to go up from the ball grounds promptly at 2:30 and his proposition has been accepted.

The series with Baker City will consist of four games, Saturday, Sunday, Monday and Tuesday.

Bushie in New Role.

Glenn Bushie, former deputy U. S. marshal and well-known buckaroo, is now in the service of the bureau of animal industry. Under Dr. McClure Bushie is engaged as a rider on the reservation and he is watching the Indian roundup and performing other services in connection with the dipping crusade that is being waged against the mangle.

Emma Walked 20 Miles.

Butte, June 13.—Emma Goldman, queen of anarchists, after being marooned 13 days by flood, travels 2000 miles and walked 20 to reach Butte, arrived here today. Hundreds of other passengers caught in the flood district did the same.

Celebrate Miners' Day.

Butte, June 13.—Miners day was celebrated here today by a parade of three thousand miners. All the mines are closed.

WHOLE FAMILY IS ANNIHILATED

Entire City of Cadillac, Michigan, Shocked by Horrible Insane Tragedy.

CRAZY WOMAN AND PISTOL DO DREAD WORK

Seized With Sudden Fit of Insanity, Mrs. Daniel Crosse, Murders Husband and Six Children, Ranging in Age from 5 to 18—Sends Bullet Through Own Brain As Neighbors Rush In—Family Seated at Table When Killing Begins—Man Falls at First Fire and Children Too Shocked to Move.

Cadillac, Mich., June 13.—The whole city is shocked today by the tragedy that wiped out an entire family when Mrs. Daniel Crosse, becoming insane, killed her husband and six children, then suicided. The woman was 39 years old.

She went to bed last night in a cheerful mood, according to the neighbors, and got up this morning to prepare breakfast for her family. As the family was seated at the table she suddenly appeared in the door leading from the kitchen with a revolver and cried: "Here's where we all go."

She turned the weapon on her husband, killing him with the first shot, and the children, ranging from five to 18, were too shocked to move. She killed two, then reloaded the pistol and followed the other four, killing them one by one.

The woman met neighbors at the door, and with a shriek sent a bullet through her own head.

ANNA TO WED PRINCE.

Agonies of Couple Who Have Sickened the World Will Soon Be Over.

Paris, June 13.—It is reported that the marriage of Mme. Anna Gould, divorced wife of Count Boni de Castellane, to Prince Helle de Sagan, a cousin of the count, will take place tomorrow. The wedding will probably be quiet, as both the prince and Mme. Gould have declared their anxiety to avoid further notoriety. It is alleged that all opposition of the Gould family to the union has been withdrawn.

The wedding will close one of the most sensational international courtships ever known. The friendship of Mme. Gould and the prince began before the former had secured a legal separation from Count Castellane, led to a personal encounter between the noble wooer and the discarded husband and became almost an open scandal when Mme. Gould and Prince de Sagan made a New York jaunt to Italy, with a New York bank clerk as chaperon.

There will be a civil ceremony and also a religious ceremony, the latter to be performed by a Protestant minister. The couple will be married under what is known in France as the "separation of property regime," each party remaining in absolute control of his or her own fortune, which in the event of death will not pass to the survivor, but to the heirs of the deceased.

After the marriage the Prince and Princess de Sagan will reside in France, the idea of selling Mme. Gould's magnificent mansion on the Avenue Malakoff and her country seat, the Chateau Marais, and living abroad having been abandoned.

MONITOR FLORIDA WITHSTANDS TORPEDO.

Norfolk, Va., June 13.—The monitor Florida, which withstood the bombardment of the 13-inch guns two weeks ago, was made the target of a heavily charged Whitehead torpedo which pierced her double bottom slightly aft of amidships today, but she still floats. The crew who refused leave at the former test, remained aboard today and are still on the ship. The damage is not believed to be serious.

The attack was pronounced successful by experts. The torpedo was fired from a distance of 300 feet. When it struck the monitor a great shower of water, smoke and steel shot into the air. The damaged parts were partly filled with coal, which lessened the effect of the explosion.

Overcome by the Heat.

Frank Waugh, aged 47 years, and who was working on the farm of John Colwell, five miles south of Beaverton, Ore., died Tuesday afternoon from the result of overwork in the heat. Waugh was in good health, but prior to sinking had told a fellow workman that he was "about melted." Hardly had he concluded the sentence when he collapsed and died in a few minutes. Waugh was a widower and came from Missouri. Portland Mains will take charge of the remains.

POWERS AND HOWARD FREE

America's Most Famous Prisoner Pardoned After Nine Years in Prison.

CONVICTED OF CONSPIRACY TO MURDER GOEBEL

Tried and Found Guilty Four Times and Four Times It Was Alleged Democrats Had Packed Juries—Was Republican Secretary of State When Goebel Was Shot Down in Front of Capitol Following Contest of Taylor's Election—Howard Has Other Convictions Over Him and Does Not Go Scot Free.

Piankfort, Ky., June 13.—Caleb Powers and Jim Howard were pardoned today by Governor Wilson for the alleged connection with the murder of Governor Wm. Goebel.

Powers was America's most famous prisoner and has been incarcerated almost nine years on a conspiracy to kill Goebel.

Howard was under life sentence in connection with the assassination, but he is under other convictions and will not go stark free.

Powers, a young mountaineer, was elected secretary of state on the republican ticket nine years ago, when Taylor, the republican nominee for governor, was declared elected. Goebel, democrat, contested the election and bloody scenes followed.

Goebel was shot down in front of the capitol, powers, then 30 years old, was arrested, tried four times and each time it was claimed the democratic authorities had packed the juries.

When Wilson was elected he said he would pardon him if convinced he was innocent. The pardon today is the result of his investigation.

Governor Wilson says he is convinced that Powers is not guilty.

Gets \$10,000 Damage.

Tacoma, June 13.—What is regarded to be the heaviest damage ever awarded in a personal injury case in this district, was returned against the Griffin Wheel company in favor of John Smith, who sued for \$20,000. The jury gave him \$10,000. He was injured while working for the company.

Taft Wants Dolliver.

Washington, June 13.—That Senator Dolliver of Iowa, is the man the Taftites want for vice president was indicated today when it was reported that a representative of Taft and the president would shortly go to Fort Dodge, Iowa, to urge Dolliver to accept.

Played Adam and Eve.

The ancient history of biblical times has been brought to mind by a party of six, three men and three women of Hermiston, who went to Umatilla Sunday, says the Echo Register. They tipped the flowing bowl a little too frequently and were pretty well jugged by the time they reached Umatilla. After laying in a fresh supply of the sparkling fluid they went to a sand bank near by and played Adam and Eve until the marshal placed them under arrest. They remained locked up for a short time, when they were bailed out by a prominent merchant of Umatilla county. We withhold their names till after the trial.

Body Recovered in Fishnet.

The body of Henry Tark, who was drowned on May 26, when his fishing boat was run down and cut in two by the steamer Daniel Kern, was picked up in a fishnet near the jetty at Astoria, Ore., Tuesday, and brought to Astoria. The deceased is a native of Finland, about 35 years old and unmarried.

Sanatorium Is Burned.

The Fern Hill sanatorium, at Fern Hill, six miles south of Tacoma, burned Tuesday with a loss of \$5000. The fire started while the proprietor, J. W. Glover, and the inmates, numbering five, were eating the noon meal. Two of the patients were bedfast and removed with some difficulty. Insurance covers two-thirds of the loss.

Above High Water Mark.

Lake Pend d'Oreille at Sandpoint, is two feet above high water mark and is still rising. If it gains much more the electric light plant will be put out of commission. The Dover and Laclede mills have been obliged to shut down and the big Humbird mill is threatened.

Ran Into Policeman's Arms.

John L. Hayes, bartender and bookkeeper, ran into the arms of a policeman as he was making a getaway after picking a stranger's pocket of \$50 in Seattle Wednesday. The victim was carrying a baby.

GRAFT CASES COLLAPSE.

Five Pennsylvania Suits Result in Acquittals.

Harrisburg, Pa., June 13.—After deliberating 22 hours in the capitol graft cases, the jury today returned a verdict of not guilty in the cases of Congressman H. B. Cassell and Architect J. M. Huston, who were charged with having defrauded the state in contracts for metallic furniture with which the \$13,000,000 building was fitted. This makes five of the graft cases which have collapsed during the past 24 hours.

15,000 Women Parade.

London, June 13.—Fifteen thousand suffragists today paraded along Victoria embankment to Albert Hall to listen to addresses. Although the big demonstration attracted attention, there was no disorder and none were arrested.

WEST END IS FILLING RAPIDLY

COSTUMA SAYS POPULATION WILL INCREASE 1500.

New Settlers Arriving Almost Every Day, Says Representative of Furnish-Coe Land Company—Survey for Electric Line Progressing Rapidly—Many Pendleton People Buying Under Project But Most Are From Middle West.

There has been hardly a day during the past two weeks that the western end of the county has not increased its population. From the present outlook, there is every reason to believe that by this time next June there will be at least 1500 more people in the country surrounding Echo, Foster and Hermiston. The influx of people from the middle west is increasing and Pendleton has had more home seekers stop here recently owing to the floods in Montana, than at any previous time.

D. B. Costuma, the local representative of the Furnish-Coe lands, in conversation today stated that this homeseeking element does not come from any particular section, his sales having been chiefly to people from Iowa, Colorado, Montana, North Dakota, Washington and Idaho. Most of the purchases have been in tracts of five, 20 and 200 acres, which will be put into cultivation this coming fall. The western end of the county affords to these new-comers advantages equal if not better than can be obtained in any other section of the northwest, and at prices three or four hundred dollars lower than is asked elsewhere. Of course, with the development of the country the prices will increase, and it is encouraging to note the success the Furnish-Coe people are meeting with.

Costuma states that their engineer has completed the survey for an electric line on their own project, and is now surveying for proper grading to Hermiston; when this work is completed the engineer will then start and lay out a proper grading from Echo through to Pendleton.

"Of course," says Costuma, "there is not sufficient immediate business to warrant the construction of this electric line at this time, but with the securing of our right of way and the development of the western end of the county, which in five years will be entirely complete, an electric line will be a big dividend payer in that section, and the line continued east to Pendleton on the north side, will give us enough tonnage to make the line successful."

Dr. Coe has been much encouraged by the support given to the Furnish-Coe project by the local people.

G. W. Phelps recently closed a contract for 29 4-10 acres at \$125 an acre, and the purchasers in this city include among others, G. M. Rice, of the First National bank; W. L. Thompson, of the Commercial National bank; Leon Cohen, R. Alexander, A. L. Knight, C. E. Roosevelt, J. V. Tallman, J. F. Robinson, A. B. Lepper, G. Hayden, Mrs. M. Cohen.

The Furnish-Coe people will run an excursion to Echo in July, and it is the plan of the company to distribute free tickets to those interested.

NO GREAT CREDIT DUE BOB EVANS

So says O. F. Bolles, State Inspector of Hulls for California.

CALIFORNIA OFFICIAL DISPLAYS BAD TEMPER

Throws Bomb Shell Into Trial of Ferry Boat Captain Accused of Breaking rules by Blowing Whistle When Atlantic Fleet Entered Golden Gate But Today He Is Being Asked to Explain—Declares That "Fighting Bob" Did Not Do Anything That Any Other Officer Could Not Have Done—Says Ships Have Too Many Officers.

San Francisco, June 13.—"I can't see that any great credit is due Evans for bringing the fleet around the Horn. Any navigator could have done the same. The vessels did not make more than 10 knots an hour and any other officer could have brought the ships around at that speed. One would think that all other ships but that commanded by Evans were commanded by cowboys."

This statement was made by the inspector of hulls, O. F. Bolles, who is being asked to explain today. He threw a bomb shell in to the trial of Captain O. W. Parker of a local ferryboat who is accused of violating the rules by blowing his whistle when the fleet sailed through the Golden gate.

"The way the mariners give all the credit to Evans is a reflection on the other officers of the fleet," he said. "The vessels are crowded with officers educated at the expense of the government and there are more officers on the ships than is necessary."

BASEBALL SCORES.

Portland, June 12.—Oakland, 3; Portland, 2.  
San Francisco, June 12.—Los Angeles, 5; San Francisco, 2. (Fifteen innings.)  
Vancouver, June 12.—Vancouver, 7; Aberdeen, 4.  
Seattle, June 12.—Vancouver, 2; Butte, 0.  
Spokane, June 12.—No game.  
National League.  
At Philadelphia—St. Louis, 4; Philadelphia, 2.  
At Boston—Boston, 1; Cincinnati, 0.  
At Brooklyn—Chicago, 7; Brooklyn, 1.  
At New York—Pittsburg, 4; New York, 0.  
American.  
At Cleveland—Cleveland, 4; Boston, 2.  
At Chicago—Chicago, 5; Philadelphia, 1.  
At Detroit—Detroit, 5; New York, 2.  
At St. Louis—St. Louis, 7; Washington, 5.

Johnson May Not Try.

Omaha, Neb., June 13.—"Affairs may so shape themselves within the next week or two with the result that my name will not be presented at the Denver convention," said Governor Johnson of Minnesota, in reply to the question if he would be a candidate for nomination for vice president. "So far as I know Minnesota will present my name to the convention, but a week may bring on a big change."

To Sink Monitor.

Fort Monroe, Va., June 13.—Secretaries Taft and Metcalf arrived here today to witness the attempt to sink the monitor Florida with a Whitehead torpedo. The Florida has been bulkheaded. It is expected she will be sunk by a torpedo which will be directed against her side.

Survey work has been resumed on the Natron branch of the Southern Pacific. The evident purpose of the crew is to locate a suitable route for an extension of the road across the Cascade mountains into central Oregon.

NO MATERIAL WHEAT LOSS, SAYS BARRETT

Hon. C. A. Barrett of Athena, who is in the city today, and who is experienced in the growth and conditions of wheat, states that he does not believe the Umatilla county wheatgrowers will suffer much loss this season, especially in the great wheat district around Athena, Weston, Adams and Helix.

While in some localities a red rust has invaded the fields the loss will not be material, as it seems that the blades only have been affected, and the fields which have been invaded by rust is confined to those where

the grain is heavy and of exceptionally rank growth. Where the grain is thinner, the rust is of little consequence.

Rain would be a great help to the wheat at this time, though the above localities have had more rain this season than there has been nearer Pendleton. Those who are in a position to know, predict good wheat prices this fall, and if that be the case it will overbalance the loss of the crop on account of a somewhat unfavorable season, a dry, cold spring, and heavy winds.
