AMONG THE EXCHANGES OF THE INLAND EMPIRE

Work on Wallows Branch. A work train with 65 men leaves at 4 o'clock this morning for the district below Elgin, says the La Grande Star. They are in reality a part of the outfit which will complete the Wallows extension of the Elgin branch. For the next week or two they will be at work finishing up the roadbed and track between Elgin and the Looking Glass.

This much in the way of betterment of the track already laid will be done while the bridge over the Grande Ronde is being finished. When this structure is in shape to let the construction teams across the steel rails the iron steel will proceed onward toward Wallows.

A part of the bridge crew has been at work for the past week at the Cabin creek bridge, between Elgin and the Looking Glass. The bridge at this point was taken out by the high water in April, and only a temporary structure was put in for the purpose of bringing up the sawlogs for the Palmer mill.

The class of work now being done is such as will permit the heaviest engines and equipment to be run over the Wallows branch. The crew that leaves this morning will do some extensive ballasting and the road will be put in first-class condition as they go along so that when completed for the laying of the track it will be ready in short order to turn over to the operating department.

To Know Themselves.

Arrangements have been completed for the Business Men's excursion which will take place Wednesday. The party will leave the association rooms at 8 a. m.

Up to a late hour today 74 had signified their intention of going from those who have been invited by Secretary Patterson. This will be a "See The Dalles and Vicinity—First" excursion to give the citizens an opportunity to see the country around here in order that they may have a better idea of the fine country surrounding them. All that could do so have furnished their own conveyance and rigs will be furnished by the Business Men's association for others. The trip will include a drive to Dutch flat from where the whole county and that of Klickitat with the snow peaks in the background may be seen. Then Pleasant Ridge and other places will be visited. Lunches will be taken and enjoyed in some delightful spot beside a purring stream. Orchards will be visited and the party will return better able to talk about the vicinity of The Dalles because they

have seen it. Remember the starting point Wednesday morning is the time at the Business Association rooms at 8 o'clock.

Cougar Lurks Near Town.

It has been said by many people living east of town that a cougar has been roaming around in the Slide creek and Pass creek country, says the Long Creek Ranger. It is believed that this animal has been in that section for several years. William Chapman and Stephen Harer have lost sheep by an animal for some time but they were not satisfied in their minds as to the animal. Two years ago Mrs. Nellie Woodall had a few head of pet lambs. Each day one of these pets would come up missing. Since that time different people in that section have heard or seen the mysterious animal. Mrs. Woodall says she has heard the screams of the lonely animal, but did not know where the noise was coming from. There is no mistake but what this mysterious creature is nothing more than a large cougar. Curk Murr is said to have seen this sneaking animal a few hundred yards below Mrs. Woodall's home one day last week.

Beet Crop Looks Good.

Beet thinning for this year has been completed, says the La Grande Observer. Field Manager Sebbelov, by experimenting with white labor and taking more stringent methods with the Japanese employes, has rushed this yearly task with better results than heretofore. The 2300 acres of beets cultivated by the Amalgamated Sugar company is now on the second lap of its growth. Thinning is always a cumbersome duty at the best but by systematizing matters this year a little fore with Jap contractors, the work has been done better and more quickly. Stringent contracts backed by heavy bonds have insured good results from the Japanese. The beet crop, especially about La Grande, is looking fine, and the company looks for a duplication of last year's crop. The cold weather retarded rapid growth slightly, but since the thermometer has shot up, the sugar beets have done likewise. There is every reason to believe that the beet crop will exceed all records of the past the same as the cherry crop gives evidence of doing.

DeWitt's Witch Hazel Salve. It is especially good for piles. Be sure to get DeWitt's. Sold by Tallman & Co.

LAND REFORM GREATLY NEEDED

PORTLAND MAN COMMENTS EAST OREGONIAN EDITORIAL

Fred C Denton Declares Land Monopoly Has Been Cause of Downfall of Nations—Says Vast Idle Tracts Held by Syndicates Hold Back Development of the State.

Portland, Ore., June 15.—(Editor East Oregonian.)—In your issue of the 11th an editorial entitled "Land Reform Needed" is worthy of being read by every citizen in Oregon. Oregon citizens must solve the problem of land monopoly, and in solving it retain their liberties. The nations of the past went down when the land was monopolized and the people dependent upon a few for the access to the soil, from which all wealth comes.

This problem is one which has been neglected in Oregon, and the best portions of the state have been given to syndicates and corporations by legislatures, land boards, congresses and governors. These vast idle tracts hold back the development of the state, and the monopoly of its water fronts in the seaports levies a tribute, growing with commerce, upon every avenue of activity.

Capable of sustaining 30,000,000 of people in comfort, the natural resources of Oregon—the lands—have been monopolized until in rich and fertile Oregon a million people would be crowded.

Americans are a careless and proud people. They ignore what other people are doing along lines of human development and have unlimited confidence in themselves. This is all very well, but we must study the solutions proposed of land monopoly, or hand down to our posterity a constantly decreasing heritage of liberty. He who owns the land on which I must toil owns me, and when men are owned slaves they degenerate as defenders of their country. Oregon citizens will be called upon.

THROWING HIS FORTUNE AWAY.

Throwing away what one has made not always the only way to lose a fortune. Being unable to see an opportunity, or to grasp it when seeing it, is more often the cause of losing out in this world. A person who feels too sluggish to make the best of time can quickly improve by using Saxeine Pills, the great tonic, that is guaranteed for all forms of weakness in men and women. Price \$1 a box; six boxes \$5, with full guarantee. Address or call the Pendleton Drug Co. This is the store that sells all the principal remedies and does not substitute.

TESTED AND PROVEN.

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Pendleton readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit. Mrs. H. Swaggert, living at 319 Garden street, Pendleton, Ore., says: "Both my husband and myself have used Doan's Kidney Pills with the most gratifying results. Mr. Swaggert was troubled severely with his back and kidneys for a long time and never received any relief until Doan's Kidney Pills were brought to his attention and he procured a box at the Pendleton Drug Co. They gave him great relief and he thinks very highly of them. I also used Doan's Kidney Pills and found that it only required a few doses to remove the lameness and pain caused from disordered kidneys. I really believe that kidney trouble would be less prevalent if more sufferers knew of Doan's Kidney Pills." (From statement given in 1905.)

Tested and Proven.

Mrs. Swaggert was again interviewed on November 16, 1907, and said: "We still continue to use Doan's Kidney Pills and find them just as effective as when they first came to our notice. We keep them in the house at all times and really think we could not get along without them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

BRING BACK RUNAWAY UTES. Government Will Return Marauding Band to Utah.

Arrangements have been practically completed by the war and Indian departments to send the runaway Ute Indians back to their reservation in Utah, says an Omaha dispatch. This is the bunch of Indians that made the sensational tramp across the country from their reservation into Wyoming and the Powder river country a year or more ago.

The party, several hundred in number, was headed off on Powder river by the Tenth and Sixth United States cavalry and were taken to Fort Meade and kept on the military reservation for the remainder of the winter and then moved up to the Cheyenne river agency of the Cheyennes at Thunder Buttes, S. D.

Here they threatened to break away on a raiding expedition because of the lack of supplies and for the further reason that they were required to send their paposes to school at the Indian school at the Cheyenne agency, some 80 or more miles east of Thunder Buttes.

The Second United States cavalry was sent to the agency and Thunder Buttes to hold the Indians in check. Matters were finally compromised and the children were sent to school and a large number of the Indian men were given employment at railroad work at Rapid City. The greater portion of the troops were sent back to Fort Des Moines.

One company remained at Thunder Buttes to watch the remainder of the Indians left there in camp. A part of this company will escort the Indians back to their reservation in Utah. The trip will be made by marching and will occupy two or three weeks.

Statues for Baker Church.

There has been received by the cathedral from the makers in Europe two of the most magnificent pieces of statuary that has come into this country for a long time, says the Baker City Democrat. One is the statue of the Blessed Virgin and her child; the face of this piece of work is certainly one of the most beautiful in expression that could be turned out in the inanimate; the child held in her arms holds a little globe surmounted with a cross in its hand. The other statue represents St. Joseph, these two pieces have been erected, the one in St. Joseph's altar and the other in the altar of the Blessed Virgin. It is interesting to know that although they have come the great distance lying between this city and Europe there was not a crack or break of any kind save the little wand held by the Blessed Virgin, this was broken, but can be easily repaired.
