HEAVY VOTE AGAINST THE SALOONS

Reviewing the results of the recent prohibition vote in Oregon and commenting on the possibility of state-wide prohibition, the Portland Oregonian says:

With the vote from four small counties not reported, 25 of the 29 counties of the state in which an election on county prohibition was held this year give a majority of the 4317 for the temperance forces, the total vote being: For prohibition 36,065; against prohibition, 31,748.

The four counties not included in the foregoing counties not included in the foregoing figures are Curry, Klamath, Lake and Malheur. Of this quartet, Klamath and Malheur, wet counties, voted dry by small majorities and Curry, already dry, voted to continue prohibition. Lake was the only one of the four to decide to continue the saloon and that by a small majority.

The vote in these counties probably will increase the aggregate of the majority for prohibition to about 4500. These totals do not include the vote on precinct elections that were held in Baker, Clatsop and Multnomah counties. Benton was the only dry county in which an election on prohibition was not held this year.

With Klamath and Malheur yet to report, 11 of the 13 wet counties that were annexed to the dry territory in the recent election gave a majority of 3543 for prohibition, the vote being: For prohibition, 14,631; against, 11,088. These 11 counties were: Crook, Douglas, Gilliam, Grant, Jackson, Josephine, Morrow, Polk, Umatilla Union and Wheeler.

Lincoln Votes Back Saloons.

Including Lincoln, the only dry county to vote the saloons back in business by a margin of three votes, eight of the nine counties that voted wet gave a majority of 1711 against prohibition, the total vote being: For prohibition, 12,207; against, 13,918. Of this list of counties Lake is the only one from which the vote has not been reported. Lake gave a small majority in favor of the saloons. The eight counties referred to were: Clackamas, Columbia, Coos, Harney, Lincoln, Marion, Wasco and Washington.

Six of the seven dry counties that voted to continue prohibition gave the cold water treatment a majority of 2485. The anti-saloon program was approved by 9227 voters, while 6742 expressed a desire to restore the dramshops. This majority will be further increased by the vote in Cur-

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes broadcast and on each bottle wrapper, what his medicines are made of and how they work. This he feels he can warrant to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative effects be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, back-ache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Doctor Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

ry county, which is reported to have given the temperance forces a good margin. The six counties included in the total vote were: Lane, Linn, Sherman, Tillamook, Wallowa and Yamhill.

Plan for State Campaign.

Encouraged by their success in carrying 20 of the 29 counties of the state in which county prohibition elections were held, besides numerous precincts in the nine counties that voted wet, prohibition forces expect two years hence to call an election on state prohibition. Already plans are being formulated for carrying on an aggressive campaign, eclipsing in its scope that conducted during the recent contest and which was directed by the Anti-Saloon league, with headquarters in this city.

While the saloonmen are not at all satisfied with the broads that have been made by the temperance forces on the wet territory, they profess not to be alarmed that the state will vote for prohibition two years hence.

They find consolation in the fact that the aggregate vote on the prohibition issue in the recent election shows a majority against them of probably 4500 and declare that there is no immediate danger of the entire state voting dry for the reason that Multnomah county can be depended upon to roll up a majority of from 10,000 to 12,000 any time the prohibition question is made a state issue. Feeling assured of this support from Multnomah, the liquor interests have serious doubts that their enemies will be able to poll sufficient votes in the outside counties to offset the majority favorable to the saloons that is expected in this county.

NEW BRIDGE FOR NORTHERN PACIFIC TRAINS

North Bank Trains Will Be Running Into Portland by August 1.

Northern Pacific trains will be running into Portland over the immense steel bridges across the Columbia and Willamette rivers by August 1, says the Portland Telegram.

This statement was made this morning by Engineer Ralph Modjeski, under whose direction the structures are being erected. He said the bridges are fast nearing completion, and about all that remains to be done is the finishing of the draw spans.

The draw span in the bridge across the Willamette river is the longest in the world, being 581 feet. Engineer Modjeski is carefully watching its installation, as every piece of the great span will have to fit into its particular groove or it may prevent the successful operation of the draw.

Although the bridges will be ready by August 1 for traffic, it is not known whether at that time a regular schedule of trains will be installed. There has been difficulty encountered with the Harriman interests, who object to the Northern Pacific crossing the tracks of the O. R. & N. on the west side of the Willamette. It is hoped, however, that this difficulty will be settled by the time the bridges are finished so that traffic will be unimpeded into the city over the Northern Pacific. Trains over the new road have been running into Vancouver since April 10.

The regular annual meeting of the Northern Pacific Terminal company was held in the offices of the president, C. A. Dolf, yesterday. Usual reports were made and directors for the coming year named. They are substantially the same as those who have served the year just closed. President Dolf said today that the meeting transacted nothing but routine business and that the long-drawn-out litigation in which the rights of the Spokane, Portland & Seattle railroad to gain an entrance into Portland over the terminal company's tracks was not discussed in any way.

Stray Notice.

An aged bay horse, no visible brands, weight about 1150, newly shod, very little white in forehead. Owner can have same by proving property. S. A. Mentzer, nine miles east of Pendleton, on Tweedy ranch.

ANOTHER FISH STORY.

Enormous Twin Pike Are Said to Break All Records.

Two huge pike, believed to hold the world's record for size and length, have just been taken in Gull lake under the authority of the state game and fish commission, and are now being mounted to become a permanent exhibit of Minnesota's supremacy in game fish. One of them will be placed in the state museum at Willowbrook hatchery in St. Paul and the other will be placed in the St. Paul headquarters of the game and fish commission.

The two pikes are twins, and surpass any of their species ever before taken in Minnesota. Both weigh 18½ pounds. Each is 32½ inches in length. The jaws of the two monsters have a sufficient opening to close easily over a man's clenched fist. Between the dorsal fins and the gills each is as large as a man's leg. While there are no official records it is believed that each surpasses the largest pike previously taken in Minnesota waters by four and a quarter pounds. State Superintendent of Fisheries Sam F. Fullerton states that it is very probable that still larger pike inhabit Gull lake.

"Last season," he said, "our men took two pike while gathering pike eggs, that weighed fully 20 pounds each. They were returned to the water after they were stripped. The two we are having mounted are not quite that large, but are still of exceptional size. They were taken at the same time and are probably twins. It frequently happens both with pike and bass that after one fish of unusual size is taken, his mate of equal size will be taken in the same place.

"There is no way of telling how old these two are. They are most remarkable fish and probably of great age. The sturgeon, our slowest-growing fish, gains but a pound a year, even if he weighs 200 pounds. Pike probably make a better growth, but these two, even allowing for that, are without doubt, early settlers in the Gull lake waters. They were taken by Jeff Saunders, superintendent of the Glenwood hatchery and break all Minnesota records so far as I can learn, although eight, 19 and 12-pound pike are frequently taken. They were caught while going into Home brook to spawn."

Big Doings in Salt Lake.

Salt Lake City, Utah, June 18.—Thousands of good fellows, comprising the membership in Utah and surrounding states of the United Commercial Travelers, Eagles and other fraternities, have taken possession of Salt Lake today and will hold a big celebration in the Mormon capital during the next three days. There will be parades, smokers, feeds, excursions, baseball games, races and other amusements. On Saturday will be held the ceremonies attendant upon laying of the cornerstone of the United Commercial Travelers' home for boys.

Consumptives Made Comfortable.

Foley's Honey and Tar has cured many cases of incipient consumption and even in the advanced stages affords comfort and relief. Refuse any but the genuine Foley's Honey and Tar. Pendleton Drug Co.

Northwest Prosperous.

North Yakima, Wash., June 18.—That the bankers and business men of Washington have fully recovered from the effects of the late depression is the unanimous declaration of delegates to the State Bankers' association convention, opened in this city today. Methods of increasing the prosperity of the Pacific northwest will be discussed during the three days of the session.

Spanish War Vets.

Joliet, Ill., June 18.—Several hundred veterans who wore the uniforms of Illinois volunteers during the late unpleasantness with Spain are the guests of Joliet today. The encampment will last three days and promises to be the largest in the history of the Illinois department of the United Spanish-American Veterans.

Mrs. S. Joyce, Claremont, N. H., writes: "About a year ago I bought two bottles of Foley's Kidney Remedy. It cured me of a severe case of kidney trouble of several years' standing. It certainly is a grand, good medicine, and I heartily recommend it." Pendleton Drug Co.

SHANIKO WOOL TOPS MARKET

MILLION POUNDS SELL AT HIGH AVERAGE.

Twenty-five Clips Bring From 10 to 16 1-4 Cents—Fleeces Are of Superior Quality and Average Price Is 15 Cents—Advance of About 15 Per Cent Over Past Sales.

Shaniko, Ore., June 17.—At the second auction wool sales here yesterday Shaniko has re-established its reputation for being the best wool market in the state. Over 1,000,000 pounds were sold at prices that averaged fully 15 cents. The range of prices on the 35 clips sold were from 10 to 16 1-4 cents. This is an average of about 15 per cent over the prices paid on June 2, the first sale day, and is due chiefly to the superior condition and quality of the wools offered.

Jacob Kassen, with an exceptionally choice lot of 35,000 pounds, leads the growers at 16 1-4 cents, while J. Morgan, with 45,000 pounds, runs a close second at 16 1-8 cents. Reeder & Fisher sold their 55,000 at 15 3-8 cents, and F. W. Durbin took the same for his 22,000. The John Thornton estate wool, 13,000 pounds, brought 15 3-4 cents.

Among the largest lots sold were: R. R. Hinton, 107,000; Prineville Land & Livestock company, 95,000; Morrow & Keenan, 73,000; Hilton & Burgess, 71,000; Frank Gabel, 78,000; F. A. Young, 100,000, which brought from 13 to 15 cents.

All the wools offered were sold with the single exception of one lot of 55,000 belonging to the Black Butte Land & Livestock company of Prineville, the offer of 10 1-4 cents being declined.

The buyers were A. Livingston, Boston, 190,000; William Ellery, Boston, 160,000; F. L. Orest, Boston, 100,000; O. Kuhn, Passaic, N. J., 160,000; H. M. Cummings, Boston, 90,000; S. F. Frankenstein, Boston, 70,000; E. W. Brigham, Boston, 70,000; H. Wagner, The Dalles Scouring Mills, 30,000; E. Y. Judd, Pendleton Scouring Mills, 16,000.

The sealed bid sales will be continued here tomorrow when there will be offered something over a half million pounds.

The Baldwin Sheep & Land company's clip was not offered today, and probably will not be before the last sales day for this place, which is now scheduled for Tuesday, July 7.

Liquors at Cost.

My entire line of wines, liquors and cigars must be disposed of by July 1. To do so, everything will be sold at actual cost, nothing reserved. Now is the time to secure absolutely pure goods cheap. The Mint, J. P. Medemach, prop.

How It Happened.

The vote so adverse to liquor men was not the work of prohibitionists, says the Granite Gem. Those who carried the vote for a dry county were not actuated very largely by moral considerations, or it is not likely that such a vote would have been mustered in defense of prohibition. Farmers and stockmen, extensive employers of labor, are the men to whom the anti-saloon vote is readily traced. If they believe that liquor in unstinted doses is responsible for the failure of labor to respond to the exceptionally good demand of the past four years, who can blame them for voting it out? If they are mistaken in the cause, the error will soon be discovered, and the saloon would have little difficulty getting back a favorable majority.

Charles Troub, aged 21, married and the father of two children, left his home in Roseburg Sunday morning to go fishing and has never returned. It is believed that he has become demoralized, though there had been no family trouble so far as is known. His pole and line were found on the bank of the river about a mile from the house, but it is not believed he was drowned.
