BY AUTOMOBILE TO NEW YORK CITY

SPOKANE PARTY TO CROSS THE CONTINENT

Three Men to Make 2800 Mile Trip From Spokane Across the Continent—Will Take It Leisurely in a 26-Horse Power Auto.

From Prosser to New York and Philadelphia, is a long cry, but a Spokane boy is to make the trip in an automobile and from the plans of the party he will have the time of his life and one of the most novel and interesting vacations imaginable, says the Spokane Chronicle.

Stanley Rogers is the lucky fellow and will drive the big Dragon car under the direction of A. R. McLane of Prosser, who will make the trip across the continent for the Pacific Monthly. Mr. McLane is now in the city, having arrived Wednesday, and is having his car completely overhauled before taking the next jump, which will land him in the heart of the Rocky mountains.

In the party will be Robers as driver, McLane, a Prosser jeweler; R. P. Tullis, a Prosser druggist, and A. J. Tullis, his brother. The plan is not to attempt to make time, but to see the country and have an outing which will long be remembered. The party carries a complete camping outfit and is prepared to stop at any point on the road which strikes its fancy. Fishing tackle, guns and camp utensils are loaded into the car, which looks like anything but the old fashioned prairie schooner which previously made the cross-continent trips.

"We are out for a good time and have the brightest outlook ahead of us," said Mr. McLane in speaking of the trip. "We have made arrangements whereby we will gather data, photographs, and incidentally collect subscriptions for the Pacific Monthly en route. Anything which may be of interest to the magazine will be collected and we will go out of our way to select material."

"There is no hurry and we intend to pay an extended visit to Yellowstone Park and other points of interest along the route. In general we will follow the Northern Pacific line east and will take the road followed in 1895 by Gehr and Canfield, who made the cross-continent run."

"We expect to make our expenses out of our magazine work and will be satisfied if this feature pays the expenses as we will have a great time. If the roads get too bad to travel we will turn in and camp until they improve. No hurry, no worry, will annoy us. It is a go-as-you-please race with picnic trimmings all along the line."

The party will leave Spokane Monday for the east and will keep the objective joint New York, always in view. Headed steadily east the car will pass over the mountainous country onto the great plains of the middle west, where the finest possible roads will be found.

The Dragon car they are driving is a five-passenger touring car of 24-horsepower. Mr. McLane and Mr. Tullis as joint owners and have driven it for the past eight months. They are loud in their praises of their car, which they are certain will take them over the road in fine style.

BORAH'S BIGGER BAND WAGON.

Idaho's Junior Senator Seeks to Increase Prestige in Boise.

"Senator Borah's band wagon" is the appellation applied to the proposed change in the Boise postoffice, that of establishing three branch offices in the capital city as recommended by the junior lieutenant from Idaho, says the Boise Capital News. In conversation with a representative of the Capital News, a politician of the capital city, who claims to be

a friend of the junior senator, thus aptly termed the recommendation made by Senator Borah for three branch offices of the Boise postoffice.

Pressed for an explanation he continued: "That is a good scheme, for with the creating of three branches of the Boise office, the appointment of 25 assistants in the office will be necessitated and in this way the band wagon will be enlarged upon. Boise has not yet reached that point where three branch offices are needed. The free delivery will be maintained and money orders and mail will be handled at the branch offices. "Appointments to the branch office of the senator and greater prestige thus gained for the office holders will be dependent upon the senator for appointment and candidates for the office will likewise require the support of the senator."

The movement for three branch offices was started last February by Postmaster Fenton, who it is rumored will soon be removed and a successor appointed. The matter was taken up by Senator Borah and recommendation made for the establishment of the branch offices.

The location of the proposed branch offices as discussed, are for an office at or near the intersection of Main and Sixteenth streets, probably the corner of Thirteenth and Eastman streets; and on east Warm Springs avenue. The carriers, under the plan proposed, will make their headquarters in the branch office in which their territory is located.

ROSES FOR ALASKAN FAIR.

Portland Will Furnish Blooms for 1909 Exposition.

Roses as they are grown in Portland, roses of various kinds and hues, roses shipped from the Rose City of the Pacific coast every few days for the interior decorations, are to be one of the features of the Oregon building at the Alaska-Yukon-Pacific exposition at Seattle next year, says the Oregon Daily Journal.

W. T. Wright of Union, one of the committee men having the exhibits in charge, is at the Cornelius, having just returned from Seattle. The rose display has just been decided upon by the commissioners and is to be made a special and distinct feature of the show which Oregon will put on display for the pleasure of the world.

The yard surrounding the Oregon building, which lies in one of the most commanding positions on the grounds, is to be planted with rosebushes, all from Portland, and they will be plentiful enough to make the place look like a veritable bank of roses, always in full bloom. This is to be arranged by planting certain roses according to the season, and in order that they will be in blossom continually during the entire summer.

On the interior of the building Mr. Wright says, preparations are to be made for the exhibit of cut flowers. Every inch of available space not used for other purposes is to be converted for the display of cut flowers which are to be sent from Portland daily. With the yard full of growing roses and the building decorated with the cut varieties, the commissioners believe that the sight will be one of the prettiest and most attractive on the grounds.

Mr. Wright says that the Oregon building as well as all of the other buildings are rapidly being constructed, and that the exposition will be in readiness to open on time next spring.

BIG PRIZE FOR BEST ARTICLE.

Republican Campaign Managers Will Give \$150.

The republican congressional committee offers \$150 for the best article not exceeding 1000 words on the subject:

"Why the republican party should be successful next November."

The competition is open to all. In judging the merits of contributions considered will be given not only to style, arguments and facts presented, but to the convincing power, and it should be borne in mind that members of congress are to be elected as well as president and vice president. No manuscripts will be returned, but will be the property of the committee.

The best article will be widely used both in newspapers of the country and in pamphlet form. The award will be made and check

sent to successful contestant about August 15. Manuscripts must be mailed not later than July 15 to Literary Bureau, republican congressional committee, Metropolitan Bank Building, Washington, D. C.

WAR ON ANARCHIST PAPERS.

Postmaster General Meyer to Prosecute Them With Renewed Vigor.

Beginning July 1 Postmaster General Meyer will continue with renewed vigor his crusade against anarchistic newspapers. Following his order denying the use of the mails to a Patterson anarchist paper, Mr. Meyer instructed the third assistant postmaster general to formulate an order providing that papers of an anarchistic or socialist character, printed in a foreign language, would be required to print with it a translation in English of any matter that was incendiary or advocated anarchy.

An examination of the law, however, disclosed that such an order could not be based on it, and accordingly Mr. Meyer suggested to the post-office committee of congress an amendment to section 3993 of the revised statutes, which prohibits the carrying in the mails of indecent matter. The amendment which was inserted and upon which will be based the forthcoming order of the postmaster general is as follows:

"And the term 'indecent' within the intendment of this section shall include matter of a character tending to incite arson, murder or assassination."

This amendment will become active July 1, and at that time it is the intention of the postmaster general to detail law officers of the department to examine carefully a score or more of papers, some of which are printed in the English language, to see if they are violating the new order.

Hotel St. George.

R. C. Lewis, Edward C. Culp, Portland; Harry J. Kushner, San Francisco; E. Boldermann, San Francisco; Mrs. S. M. Bootle and son, Athens; A. J. Stanley, Wild West; H. R. Hogue, Walla Walla; G. S. Now you can buy it of your dealers. Ask for it and use it, because it is pure; because it is the best cough remedy made today. Try it. For sale by any druggist and all dealers everywhere. Pendleton Drug Co.

Four Escaped.

At Fort Walla Walla Thursday morning four prisoners, three of whom were awaiting transportation to Alcatraz island prison, overpowered their guards and escaped. Two were recaptured later and the other two are still at large.

Bucklen's Arnica Salve Wins.

Tom Moore, of Rural Route 1, Cochran, Ga., writes: "I had a bad sore come on the instep of my foot and could find nothing that would heal it until I tried Bucklen's Arnica Salve. Less than half of a 2 cent box won the day for me by affecting a perfect cure." Sold under guarantee at Tallman & Co.'s drug store.

Wanted, at Once. Good clean rags: market price paid. East Oregonian office.

FABULOUS FIND OF PLACER GOLD

Company Together to Mine It Out Company Together to Mine It Out of the Earth—Why Can't a Few Pendleton People Get In on This and Make a Bunch of Money for Themselves?

(Portland Sunday Journal.)

A truly fabulous find of placer gold has been unearthed at the base of the mountains in the forest reserve in Idaho county, Idaho, directly east of Walla walla county, Ore., and but a short distance from this state's line. To secure this treasure a company was recently incorporated, with Hon. John B. Cleland, judge in department No. 3, state circuit court, at its head, and associated with him as officers and directors of the organization are George L. Peaslee of the Peaslee Bros. company, owners of one of the largest job printing establishments in Portland, vice president; Richard C. Hart, superintendent of United States lighthouses for this district, secretary and treasurer; H. B. Perks, a mining engineer of international reputation, engineer in charge and manager at the mines, and W. A. Cleland, brother to Judge Cleland, W. W. Peaslee, also of the Peaslee Bros. company, and Captain J. F. Boone, a retired river steambot captain, directors.

These gentlemen are associating with them as stockholders persons in all parts of not only Portland and the Pacific northwest, but as far east as the New England states, in the great bonanza they have acquired. Among these stockholders are found a large number of placer miners, many of whom have known of the existence of the wonderful treasure bed for years, but were not able to work it for the reason that it required \$30,000 at the start to procure machinery and piping with which to equip the property. The first move of the company was to have Mr. Perks engage a corps of miners and thoroughly explore and test the ground, which covers 540 acres, and with its arms, is 10 miles in length. This was attended to during the months of October and November, 1907, and so rich was the tract that the matter was kept secret until all legal interests had been attended to, which was carefully done by the two attorneys in the company. When all was ready for the launching of the enterprise, apartment 220 Commercial club building, this city, was secured, and an issue of 120,000 shares of treasury stock was put upon the market at 25 cents per share, its par value being 50 cents per share. This has been largely subscribed by relatives and friends of the incorporators and it is expected will all be taken very likely this month, or at best before the end of July. Mr. Perks had a small force of men working all winter on the company's ditches and now has 12 miners and laborers employed installing a sawmill and preparing for the reception of more than 80,000 pounds of other material en route. So soon as all is landed on the ground a larger force will be set at work, and by August 15, or not later than September 1, it is expected to have the company's giants at work, and by December 1, the company is confident it will return to each stockholder the entire amount of his investment, and for the next 25 years pay dividends of from 200 to 400 per cent on all outstanding stock. This is the prediction of the men behind the proposition, and those who most intimately know them will at once agree that they are not any of them addicted to visionary illusions.

A question often and reasonably asked by many persons who for the first time have read of this wonderful channel bed of gold, is how that it has remained for half a century when more than 100,000,000 were mined from the gulches emptying into it between 1860 and 1865. The answer is that this ground could not be mined without gravel elevators, and it never has been possible to get these into that valley until now. A handsome booklet explaining this is mailed free to all who apply for it, by addressing the company's office, and it is certainly worth reading, whether one desires to invest in the company's shares or not. But as it

sells on installments, he would be a poor man who could not afford some of its shares, and these will most likely pay back at least twice their cost each year.

Our fellow citizens and neighbors are to be congratulated on the possession of these Florence meadows, as they are called. There is not so much as the smallest doubt that they will pay into the pockets of the company's shareholders hundreds of thousands of dollars. There is no promotion stock in this enterprise, either, which makes it a most admirable corporation.

Can It Be Possible?

During the past year a vacuum bottle has been put on the market which will keep contents hot for 24 hours, warm for 48 hours and cold for 72 hours. The bottle consists of two glass bottles, joined at the neck, one bottle being within the other, a vacuum space between the two bottles prevents outside temperature from reaching the inner one, thus permitting contents to remain hot or cold (the same temperature as when placed in the bottle) for days at a time. A. C. Koepfen & Bros, the druggists, have received some and the public is examining them every day.

PUBLISHER INDICTED.

Charged by Federal Grand Jury With Using Mails to Defraud.

A federal grand jury at St. Paul last week returned three indictments against James L. Lovering, publisher of the Mail Order Monthly and of Successful Agriculture, charging him with using the mails for the purpose of promoting a lottery and a scheme to defraud.

The alleged fraudulent schemes with which Lovering is charged consists of puzzles and prize contests conducted through his papers. The publications, it is alleged, announced 40 acre farms, machinery, pianos and other valuable articles to be awarded to the successful contestants. It is alleged Lovering obtained money by announcing the prize contests, but failed to award the prizes.

The old Pennsylvania Dutch Dunkars recommended "Hickory Bark Cough Remedy." Guaranteed to cure your cough, and guaranteed to be pure. Made from the bark of the shell bark or white hickory tree. For sale by any druggist and all dealers everywhere. Pendleton Drug Co.

Your Stomach Is Your Friend

If you have a good stomach and wish to keep it, steer clear of lard-cooked food. Lard is made from hog fat, and is more apt to be impure than it is to be clean and healthful.

Cottolene is the most reliable frying and shortening medium. It is a pure, wholesome, digestible product, that is bound to be more satisfactory than lard wherever it is given a fair test.

Besides being more healthful, Cottolene is more economical than lard or cooking butter, one-third less being required. It will, moreover, make more nutritious food than either lard or butter.

With all these advantages on the side of Cottolene, what argument have you for not using it? Your own grocer, if he is progressive, has Cottolene for sale. Buy a pail to-day, use it according to directions, and we will warrant you will never go back to the lard habit.
