## TRADE FALLS OFF

LOSS OF 40 PER CENT

IN IMPORTATIONS.

Money Flurry Tightened the Purse-Strings of the People—However the Reaction From the Panic Brought Foreign Business Up to the Old Standard.

Henry Clews says of the condition of trade as a result of the late lamented financial panic:

The panic has exerted a very striking effort upon our foreign trade. Immediately after that crisis our exports were greatly stimulated by forced liquidation and the necessity of importing about \$100,000,000 of gold. The four months, November, December, January and February, were each record-breakers; the exports of merchandise during that period aggregating \$785,000,000, or over \$84,000,000 more than in the same months of the previous year.

In the three succeeding months, March, April and May, this gain was entirely lost and turned into an actual decrease. Owing to a sudden cessation of exports the shipments of merchandise fell nearly \$66,000,000 below the same three months of 1907. This sudden shrinkage was due to the fact that our exportable surplus of grain and other products was practically exhausted, and that there was no further urgency for liquidation.

Nevertheless, the contraction in exports which began in March will be a serious matter if sustained. It has already led to the withdrawal of several big cargo boats by one of the leading transatlantic lines, and also accounts to some extent for the heavy shrinkage in trunk line traffic.

On the import side of the accounts there has been a persistent and very large shrinkage since the panic. For the seven months following the panic our imports of merchandise amounted to \$633,000,000, a loss of \$259,000,000, or about 40 per cent compared with the same period of the previous year. As our exports showed a total shrinkage in the seven months of about \$2,000,000 it is evident we are left with a very unusual excess of ex-

ports. If we select the 12 months ending May, we find the excess of exports has amounted to \$667,000,000, compared with \$445,000,000 in the previous year. This is a most extraordinary increase in our trade balance, and must be largely attributed to the reactionary effects of the panic, which temporarily stimulated exports and checked imports.

As a result of these remedial tendencies our credit abroad must have been materially strengthened. Of the \$100,000,000 gold exported right after the panic we have already returned fully one-half, and our net imports of the precious metal during the past 12 months have been \$69,000,000, compared with \$23,000,000 during the same time last year.

The stock of gold in this country must, therefore, be unusually heavy, for in addition to these large importations it should be remembered that we produce nearly \$100,000,000 of gold per year, or about one-quarter of the world's annual output.

### BRAZIL BUILDS WAR SHIPS FOR JAPAN.

Washington, June 24.—Confidential reports have been received as a warning by the navy department that Brazil will secretly build 27 battleships for Japan.

Commander Sims of the navy department, today admitted that Japan is supposed to be at the bottom of the order.

"We have investigated the matter," he said, "and we are unable to ascertain whether Japanese funds will pay for the ships."

The report is that the orders were placed with British shipyards. Three of the ships will be of the Dreadnaught type, with the stipulation that all the ships be delivered by September, 1909.

### Policeman Inherits Legacy.

Gustave Tishler, a patrolman of the Seattle police department, was notified by letter Saturday that an aunt had died in Germany and that a legacy of \$20,000 had been left him. Tishler is married and lives at Elliott and Bay streets. His relatives all live in Germany, and he remembers the aunt who left him the money, although he had no idea that he would be the heir to the estate.

### TWO PRISONERS ARRAIGNED.

One Accused of Horse Stealing, the Other of Wife Prostitution.

Two county jail prisoners were taken before Circuit Judge Bean for arraignment this afternoon, but in neither case did the men plead. Charles Miller, of Ireland, charged with stealing a rig from the McBride stable at Athena, asked to have until tomorrow to plead, which request was granted.

William Quinn, charged with conniving at keeping his wife in a house of prostitution, was also up. However, R. J. Slater, his attorney, demurred to the indictment and argued that as drawn it does not charge a crime because it does not state that the house in which the woman lived was previously a house of prostitution. At 3 o'clock Judge Bean had not passed upon the demurrer.

### THIEF STEALS BUGGY.

New Vehicle and Harness Taken From Yakima Barn.

A thief entered the barn of Ed Taylor at Old Town last night and walked off with a brand new buggy and harness. So far there is no clew as to the whereabouts of either of the stolen articles or the thief whose fancy for driving vehicles led him to make away with Taylor's.

Nothing was known of the theft until this morning when it was noticed that the buggy was missing. Thinking some one had played a practical joke on him, Mr. Taylor thought little of the affair and began a quiet investigation. Later he learned of the absence of the new harness. Realizing that some one had stolen both harness and buggy, Mr. Taylor came to North

Yakima and after notifying the sheriff's office proceeded to make a systematic search for the buggy and harness.

En route to North Yakima he traced the tracks of the buggy and of a man evidently pulling it by hand. The tracks could be distinctly seen leading from the barn and out into the road. The footprints were headed toward town. They followed until the road leading direct to North Yakima was reached. Here they were lost in the tracks of many horses and vehicles.

### LEWISTON FRUIT TO BREAK RECORDS

W. J. Jordan, N. P. General Agent, Says Crop Is Promising.

"Although the season has been backward the fruit production of the Lewiston country this year will beat all previous records," said W. P. Jordan, general agent of the Northern Pacific, with headquarters in Lewiston, who was in the city yesterday, says the Spokesman-Review.

"The cherry crop is giving evidence that it will exceed all expectations. The frosts this spring affected the crop somewhat, but nothing near the extent anticipated. On account of the floods in Montana which have had the result of leaving the Lewiston country with only one route to the east practically all the cherries are going to the canneries.

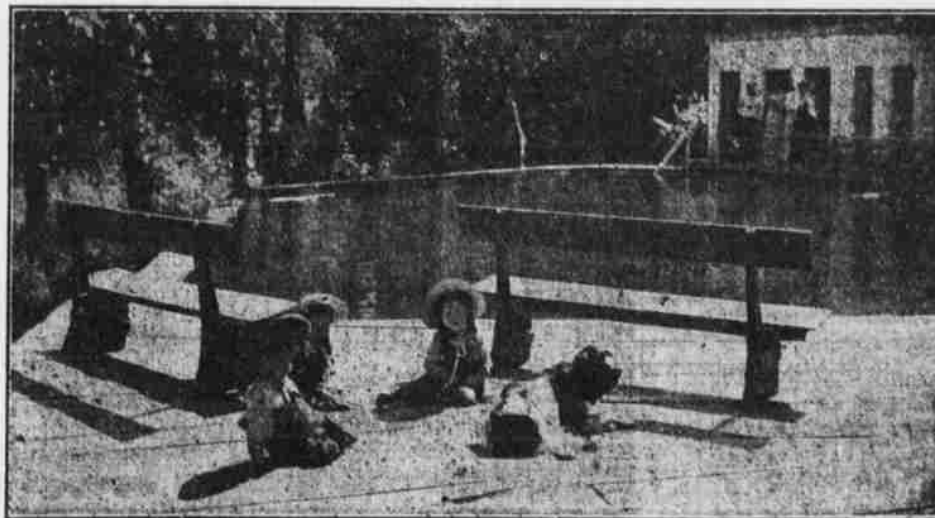

"It is conservatively estimated that not less than 400 cars of peaches will be shipped by the Northern Pacific out of Lewiston this year, exceeding the number in any year before by at least 100 cars. This is not taking into account an estimated number of about 200 cars which will be shipped from the Snake river country south of Lewiston by way of Riparia.

"The fruit situation in Lewiston has never looked better and from present indications the crop will give the largest return to the growers since Lewiston has figured as a fruit-producing section."
